

MR&C ENHANCEMENTS

Death Module Effective December 16, 2011

MR&C Death Module enhancements are listed below:

1. Funeral director contact information added to email notification to medical certifier
2. Data entry changes for time of death field and time of injury field (do not enter colons, only numerals (HHmm))
3. Added two questions required by medical examiners/coroners for cremation authorization
4. Revised Cause of death worksheet to include the two questions regarding cremation authorization
5. Medical examiner/coroner fields display in MR&C for ME approval when donation and alkaline hydrolysis is disposition method
6. Text characters increased for data entry in Notes field on Finalize filing page
