

Federal Bill of Rights

FOR RESIDENTS IN MEDICARE/MEDICAID CERTIFIED SKILLED NURSING FACILITIES OR NURSING FACILITIES

All residents in long-term care facilities have rights guaranteed to them under Federal and State law. These rights exist under Federal and State law and apply to residents of facilities certified under the Medicaid or Medicare programs.

No facility¹ can require a resident to waive these rights as a condition of admission or continued stay.

Resident Rights

The resident has a right to a dignified existence, self-determination, and communication with and access to persons and services inside and outside the facility:

1. A facility must treat each resident with respect and dignity and care for each resident in a manner and in an environment that promotes maintenance or enhancement of his or her quality of life, recognizing each resident's individuality. The facility must protect and promote the rights of the resident.
2. The facility must provide equal access to quality care regardless of diagnosis, severity of condition, or payment source. A facility must establish and maintain identical policies and practices regarding transfer, discharge, and the provision of services under the State plan for all residents regardless of payment source.

Exercise of Rights

The resident has the right to exercise his or her rights as a resident of the facility and as a citizen or resident of the United States.

1. The facility must ensure that the resident can exercise his or her rights without interference, coercion, discrimination, or reprisal from the facility.
2. The resident has the right to be free of interference, coercion, discrimination, and reprisal from the facility in exercising his or her rights and to be supported by the facility in the exercise of his or her rights.

¹ In this document, the word "facility" refers to nursing home, boarding care home, certified skilled nursing facility (SNF) or certified nursing facility (NF).

FEDERAL BILL OF RIGHTS

In the case of a resident who has not been adjudged incompetent by the State court, the resident has the right to designate a representative, in accordance with State law and any legal surrogate so designated may exercise the resident's rights to the extent provided by State law. The same-sex spouse of a resident must be afforded treatment equal to that afforded to an opposite-sex spouse if the marriage was valid in the jurisdiction in which it was celebrated.
 - A. The resident representative has the right to exercise the resident's rights to the extent those rights are delegated to the resident representative.
 - B. The resident retains the right to exercise those rights not delegated to a resident representative, including the right to revoke a delegation of rights, except as limited by State law.
4. The facility must treat the decisions of a resident representative as the decisions of the resident to the extent required by the court or delegated by the resident.
5. The facility shall not extend the resident representative the right to make decisions on behalf of the resident beyond the extent required by the court or delegated by the resident.
6. If the facility has reason to believe that a resident representative is making decisions or taking actions that are not in the best interests of a resident, the facility shall report such concerns.
7. In the case of a resident adjudged incompetent under the laws of a State by a court of competent jurisdiction, the rights of the resident devolve to and are exercised by the resident representative appointed under State law to act on the resident's behalf. The court-appointed resident representative exercises the resident's rights to the extent judged necessary by a court of competent jurisdiction.
 - A. In the case of a resident representative whose decision-making authority is limited by State law or court appointment, the resident retains the right to make those decisions outside the representative's authority.
 - B. The resident's wishes and preferences must be considered in the exercise of rights by the representative.

Grievances

1. The resident has the right to voice grievances to the facility or other agency or entity that hears grievances without discrimination or reprisal and without fear of discrimination or reprisal. Such grievances include those with respect to care and treatment which has been furnished as well as that which has not been furnished, the behavior of staff and of other residents; and other concerns regarding their LTC (long-term care) facility stay.
2. The resident has the right to and the facility must make prompt efforts by the facility to resolve grievances the resident may have, in accordance with this paragraph.
3. The facility must make information on how to file a grievance or complaint available to the resident.
4. The facility must establish a grievance policy to ensure the prompt resolution of all grievances regarding the residents' rights contained in this paragraph. Upon request, the

FEDERAL BILL OF RIGHTS

provider must give a copy of the grievance policy to the resident. The grievance policy must include:

- A. Notifying resident individually or through postings in prominent locations throughout the facility of the right to file grievances orally (meaning spoken) or in writing; the right to file grievances anonymously; the contact information of the grievance official with whom a grievance can be filed, that is, his or her name, business address (mailing and email) and business phone number; a reasonable expected time frame for completing the review of the grievance; the right to obtain a written decision regarding his or her grievance; and the contact information of independent entities with whom grievances may be filed, that is, the pertinent State agency, Quality Improvement Organization, State Survey Agency, and State Long Term Care Ombudsman program, or protection and advocacy system (see pages 25-26);
- B. Identifying a Grievance Official who is responsible for overseeing the grievance process, receiving and tracking grievances through to their conclusion; leading any necessary investigations by the facility; maintaining the confidentiality of all information associated with grievances, for example, the identity of the resident for those grievances submitted anonymously; issuing written grievance decisions to the resident; and coordinating with state and federal agencies as necessary in light of specific allegations;
- C. As necessary, taking immediate action to prevent further potential violations of any resident right while the alleged violation is being investigated;
- D. Immediately reporting all alleged violations involving neglect, abuse, including injuries of unknown source, and/or misappropriation of resident property, by anyone furnishing services on behalf of the provider, to the administrator of the provider;
- E. Ensuring that all written grievance decisions include the date the grievance was received, a summary statement of the resident's grievance, the steps taken to investigate the grievance, a summary of the pertinent findings or conclusions regarding the resident's concern(s), a statement as to whether the grievance was confirmed or not confirmed, any corrective action taken or to be taken by the facility as a result of the grievance, and the date the written decision was issued;
- F. Taking appropriate corrective action in accordance with State law if the alleged violation of the residents' rights is confirmed by the facility or if an outside entity having jurisdiction, such as the State Survey Agency, Quality Improvement Organization, or local law enforcement agency confirms a violation of any of these residents' rights within its area of responsibility; and
- G. Maintaining evidence demonstrating the results of all grievances for a period of no less than 3 years from the issuance of the grievance decision.

Contact with External Entities

A facility must not prohibit or in any way discourage a resident from communicating with federal, state, or local officials, including, but not limited to, federal and state surveyors, other federal or state health department employees, including representatives of the Office of the State Long-Term Care Ombudsman, and any representative of the agency responsible for the protection and advocacy system for individuals with mental disorder regarding any matter, whether or not subject to arbitration or any other type of judicial or regulatory action.

Freedom from Abuse, Neglect, and Exploitation

1. The resident has the right to be free from abuse, neglect, misappropriation of resident property, and exploitation as defined in this subpart. This includes but is not limited to freedom from corporal punishment, involuntary seclusion and any physical or chemical restraint not required to treat the resident's medical symptoms.
2. The facility must:
 - A. Not use verbal, mental, sexual, or physical abuse, corporal punishment, or involuntary seclusion;
 - B. Ensure that the resident is free from physical or chemical restraints imposed for purposes of discipline or convenience and that are not required to treat the resident's medical symptoms. When the use of restraints is indicated, the facility must use the least restrictive alternative for the least amount of time and document ongoing reevaluation of the need for restraints.

Admission, Transfer, and Discharge

1. Admissions policy.
 - A. The facility must establish and implement an admissions policy.
 - B. The facility must—
 - a. Not request or require residents or potential residents to waive their rights as set forth in this subpart and in applicable state, federal or local licensing or certification laws, including but not limited to their rights to Medicare or Medicaid; and
 - b. Not request or require oral or written assurance that residents or potential residents are not eligible for, or will not apply for, Medicare or Medicaid benefits.
 - c. Not request or require residents or potential residents to waive potential facility liability for losses of personal property.

FEDERAL BILL OF RIGHTS

- C. The facility must not request or require a third party guarantee of payment to the facility as a condition of admission or expedited admission, or continued stay in the facility. However, the facility may request and require a resident representative who has legal access to a resident's income or resources available to pay for facility care to sign a contract, without incurring personal financial liability, to provide facility payment from the resident's income or resources.
 - D. In the case of a person eligible for Medicaid, a nursing facility must not charge, solicit, accept, or receive, in addition to any amount otherwise required to be paid under the State plan, any gift, money, donation, or other consideration as a precondition of admission, expedited admission or continued stay in the facility. However,—
 - a. A nursing facility may charge a resident who is eligible for Medicaid for items and services the resident has requested and received, and that are not specified in the State plan as included in the term "nursing facility services" so long as the facility gives proper notice of the availability and cost of these services to residents and does not condition the resident's admission or continued stay on the request for and receipt of such additional services; and
 - b. A nursing facility may solicit, accept, or receive a charitable, religious, or philanthropic contribution from an organization or from a person unrelated to a Medicaid eligible resident or potential resident, but only to the extent that the contribution is not a condition of admission, expedited admission, or continued stay in the facility for a Medicaid eligible resident.
 - E. States or political subdivisions may apply stricter admissions standards under State or local laws than are specified in this section, to prohibit discrimination against individuals entitled to Medicaid.
 - F. A nursing facility must disclose and provide to a resident or potential resident prior to time of admission, notice of special characteristics or service limitations of the facility.
 - G. A nursing facility that is a composite distinct part must disclose in its admission agreement its physical configuration, including the various locations that comprise the composite distinct part, and must specify the policies that apply to room changes between its different locations.
2. Equal access to quality care.
- A. A facility must establish, maintain and implement identical policies and practices regarding transfer and discharge, and the provision of services for all individuals regardless of source of payment;

FEDERAL BILL OF RIGHTS

- B. The facility may charge any amount for services furnished to non-Medicaid residents unless otherwise limited by state law and consistent with the notice requirement describing the charges; and
 - C. The State is not required to offer additional services on behalf of a resident other than services provided in the State plan.
3. Transfer and discharge—
- A. Facility requirements—
 - a. The facility must permit each resident to remain in the facility, and not transfer or discharge the resident from the facility unless—
 - The transfer or discharge is necessary for the resident’s welfare and the resident’s needs cannot be met in the facility;
 - The transfer or discharge is appropriate because the resident’s health has improved sufficiently so the resident no longer needs the services provided by the facility;
 - The safety of individuals in the facility is endangered due to the clinical or behavioral status of the resident;
 - The health of individuals in the facility would otherwise be endangered;
 - The resident has failed, after reasonable and appropriate notice, to pay for (or to have paid under Medicare or Medicaid) a stay at the facility. Non- payment applies if the resident does not submit the necessary paperwork for third party payment or after the third party, including Medicare or Medicaid, denies the claim and the resident refuses to pay for his or her stay. For a resident who becomes eligible for Medicaid after admission to a facility, the facility may charge a resident only allowable charges under Medicaid; or
 - The facility ceases to operate.
 - b. The facility may not transfer or discharge the resident while the appeal is pending, when a resident exercises his or her right to appeal a transfer or discharge notice, unless the failure to discharge or transfer would endanger the health or safety of the resident or other individuals in the facility. The facility must document the danger that failure to transfer or discharge would pose.
 - B. Documentation. When the facility transfers or discharges a resident under any of the circumstances specified, the facility must ensure that the transfer or discharge is documented in the resident’s medical record and appropriate information is communicated to the receiving health care institution or provider.³
