RE: Project Number(s) SL40073015

Dear Licensee:

This is your **official notice** that you have been **granted your assisted living facility license**. Your license effective and expiration dates remain the same as on your provisional license. Your updated status will be listed on the license certificate at renewal and **this letter serves as proof** in the meantime. If you have not received a letter from us with information regarding renewing your license within 60 days prior to your expiration date, please contact us at (651) 201-5273 or by email at Health.assistedliving@state.mn.us.

The Minnesota Department of Health completed an initial survey on October 22, 2024, for the purpose assessing compliance with state licensing statutes. At the time of the survey, the Minnesota Department of Health noted violations of the laws pursuant to Minnesota Statute, Chapter 144G.

The Department of Health concludes the licensee is in substantial compliance. State law requires the facility must take action to correct the state correction orders and document the actions taken to comply in the facility's records. The Department reserves the right to return to the facility at any time should the Department receive a complaint or deem it necessary to ensure the health, safety, and welfare of residents in your care.

STATE CORRECTION ORDERS

The enclosed State Form documents the state correction orders. The Department of Health documents state correction orders using federal software. Tag numbers are assigned to Minnesota state statutes for Home Care Providers. The assigned tag number appears in the far left column entitled "ID Prefix Tag." The state statute number and the corresponding text of the state statute out of compliance are listed in the "Summary Statement of Deficiencies" column. This column also includes the findings that are in violation of the state statute after the statement, "This MN Requirement is not met as evidenced by . . ."

In accordance with Minn. Stat. § 144G.31 Subd. 4, MDH may assess fines based on the level and scope of the violations; **however, no immediate fines are assessed for this survey of your facility.**

DOCUMENTATION OF ACTION TO COMPLY

Per Minn. Stat. § 144G.30, Subd. 5(c), the licensee must document actions taken to comply with the

correction orders within the time period outlined on the state form; however, plans of correction are not required to be submitted for approval.

The correction order documentation should include the following:

- Identify how the area(s) of noncompliance was corrected related to the resident(s)/employee(s) identified in the correction order.
- Identify how the area(s) of noncompliance was corrected for all of the provider's residents/employees that may be affected by the noncompliance.
- Identify what changes to your systems and practices were made to ensure compliance with the specific statute(s).

CORRECTION ORDER RECONSIDERATION PROCESS

In accordance with Minn. Stat. § 144G.32, Subd. 2, you may challenge the correction order issued, including the level and scope, and any fine assessed through the correction order reconsideration process. The request for reconsideration must be in writing and received by the Department of Health within 15 calendar days of the correction order receipt date.

To submit a reconsideration request, please visit:

<https://forms.web.health.state.mn.us/form/HRDAppealsForm>

The MDH Health Regulation Division (HRD) values your feedback about your experience during the survey and/or investigation process. Please fill out this anonymous provider feedback questionnaire at your convenience at this link: **<https://forms.office.com/g/Bm5uQEPhVa>**. Your input is important to us and will enable MDH to improve its processes and communication with providers. If you have any questions regarding the questionnaire, please contact Susan Winkelmann at susan.winkelmann@state.mn.us or call 651-201-5952.

You are encouraged to retain this document for your records. It is your responsibility to share the information contained in the letter and state form with your organization's Governing Body.

If you have any questions, please contact me.

Sincerely,

Kelly Thorson, Supervisor

This MN Requirement is not met as evidenced by: Based on observation, interview, and record review, the licensee failed to ensure the licensed assisted living director (LALD) was listed as the Director of Record for the licensee. This had the potential to affect all the licensee's residents, staff, and visitors. This practice resulted in a level one violation (a violation that has no potential to cause more than a minimal impact on the resident and does not affect health or safety) and was issued at a widespread scope (when problems are pervasive or represent a systemic failure that has affected or has potential to affect a large portion or all of the residents). The findings include: On September 21, 2024, at 10:49 a.m., the surveyor observed the Board of Executives for Long-Term Services and Supports (BELTSS) website which indicated licensed assisted living director (LALD) held a current assisted living director license, however, was not listed as the director of record for the licensee. On September 21, 2024, at 10:50 a.m., licensed assisted living director/registered nurse (LALD/RN)-A acknowledged the BELTSS website did not have their LALD listed as the director of record. LALD/RN-A stated they were unaware.	0 110

01940	Continued From page 13 for one of one resident (R1) with records reviewed. This practice resulted in a level two violation (a violation that did not harm a resident's health or safety but had the potential to have harmed a resident's health or safety, but was not likely to cause serious injury, impairment, or death), and was issued at an isolated scope (when one or a limited number of residents are affected or one or a limited number of staff are involved or the situation has occurred only occasionally). Findings include: R1's service plan, dated September 11, 2024, lacked information the resident received the treatment services of oxygen. Additionally, R1's service plan regarding treatments lacked procedures for notifying a nurse or appropriate licensed health professional if a problem would arise with the treatments or therapy services. On October 21, 2024, at 11:32 a.m., observed R1 sitting in her recliner chair in her room with oxygen on via nasal cannula with R1's oxygen concentrator on. On October 22, 2024, at 6:00 a.m., reviewed R1's treatment plan that indicated treatments for skin check, blood glucose and nebulizer treatment. R1's prescribed orders dated September 30, 2024, read oxygen-air delivery liters L) per minute: 4L continuous, 5L with activity for chronic obstructive pulmonary disease (COPD) with acute exacerbation, and chronic respiratory failure with hypoxia. FACILITY

Appliances are residential
Refrigerator turned down during inspection
Food TMD available, dish machine TMD available

SINK USAGE

Facility has a two (2) compartment sink
Facility has a dishwasher with a sanitize cycle

COUNTERTOPS AND FOOD CONTACT SURFACES

Provide a smooth, non-porous food contact surface (e.g. cutting boards) that can be easily washed, rinsed, and sanitized (e.g. run through the dishwasher). Soap and water can be used to clean non-food contact surfaces. By provided a cutting board or other non-porous food contact surface, the countertops can be kept clean without the use of substances which may damage the finish. Do not use wood as a food contact surface.

DISHWASHING – NSF 184

Dishwasher has a sanitizing rinse option (NSF/ANSI Standard 184) – use this option to sanitize utensils
Provide a means of testing the internal contact temperature of utensil in the dishwasher
In case of emergency or service interruption, have an alternate means of chemical sanitizing available (e.g. a bus tub or other basin, to be filled with water and sanitizing solution e.g. chlorine bleach (non-scented, labeled for Sanitizing Food Contact Surfaces) at 50-100 PPM; provide a test kit for chemical sanitizing)

TCS foods for same-day service only:

MN 4626.0506 G. A food establishment that is an adult care center, child care center, or boarding establishment does not need to comply with item A [certified or classified for sanitation by an American National Standards Institute (ANSI) accredited certification program for food service equipment] if approved by the regulatory authority and the food establishment:

- (1) serves only non-TCS food; or
- (2) prepares TCS foods only for same-day service.

Discontinue any service of TCS food for multiple day service (e.g. cooling and reservice of leftovers of prepared and cooked TCS food), or upgrade finishes and equipment in the kitchen

GENERAL COMMENTS

CFPM (Certified Food Protection Manager)

For information, please search "MDH CFPM"

Discussed employee health and hygiene, exclusion for individuals from the kitchen with vomiting and/or diarrheal illness, sore throat with fever, or reportable illness; food cooking and holding temperatures, cross-contamination, allergens, food storage order in refrigerator, separating resident food from medication or staff food, avoiding bare hand contact with foods which will not be cooked (cut fruit, deli sandwiches), chemical label, use, and storage, pest control, quarantine meals

Date marking TCS foods (when packages are opened or food is prepared, date mark and discard after 7 days, except for certain cultured dairy products)

Discussed food source, recalls, and refusing food which has signs of tampering or temperature abuse
