Brooklyn Park, MN 55443

RE: Project Number(s) SL39424016

Dear Licensee:

The Minnesota Department of Health (MDH) completed a survey on January 22, 2026, for the purpose of evaluating and assessing compliance with state licensing statutes. At the time of the survey, MDH noted violations of the laws pursuant to Minnesota Statute, Chapter 144G, Minnesota Food Code, Minnesota Rules Chapter 4626, Minnesota Statute 626.5572 and/or Minnesota Statute Chapter 260E.

MDH concludes the licensee is in substantial compliance. State law requires the facility must take action to correct the state correction orders and document the actions taken to comply in the facility's records. The Department reserves the right to return to the facility at any time should the Department receive a complaint or deem it necessary to ensure the health, safety, and welfare of residents in your care.

STATE CORRECTION ORDERS

The enclosed State Form documents the state correction orders. MDH documents state licensing correction orders using federal software. Tag numbers are assigned to Minnesota state statutes for Assisted Living Facilities. The assigned tag number appears in the far left column entitled "ID Prefix Tag." The state statute number and the corresponding text of the state statute out of compliance are listed in the "Summary Statement of Deficiencies" column. This column also includes the findings that are in violation of the state statute after the statement, "This MN Requirement is not met as evidenced by . . ."

IMPOSITION OF FINES

In accordance with Minn. Stat. § 144G.31, Subd. 4, fines and enforcement actions may be imposed based on the level and scope of the violations and may be imposed immediately with no opportunity to correct the violation first as follows:

Level 1: no fines or enforcement;

Level 2: a fine of \$500 per violation, in addition to any enforcement mechanism authorized in § 144G.20;

Level 3: a fine of \$1,000 per incident, in addition to any enforcement mechanism authorized in § 144G.20;

Level 4: a fine of \$3,000 per incident, in addition to any enforcement mechanism authorized in § 144G.20;

Level 5: a fine of \$5,000 per violation, in addition to any enforcement mechanism authorized in § 144G.20.

Therefore, in accordance with Minn. Stat. §§ 144G.01 to 144G.9999, the following fines are assessed pursuant to this survey:

St - 0 - 0510 - 144g.41 Subd. 3 - Infection Control Program - \$500.00

Therefore, in accordance with Minn. Stat. §§ 144G.01 to 144G.9999, **the total amount you are assessed is \$500.00**. You will be invoiced approximately 30 days after receipt of this notice, subject to appeal.

DOCUMENTATION OF ACTION TO COMPLY

In accordance with Minn. Stat. § 144G.30, Subd. 5(c), the licensee must document actions taken to comply with the correction orders within the time period outlined on the state form; however, plans of correction are not required to be submitted for approval.

The correction order documentation should include the following:

- Identify how the area(s) of noncompliance was corrected related to the resident(s)/employee(s) identified in the correction order.
- Identify how the area(s) of noncompliance was corrected for all of the provider's resident(s)/employees that may be affected by the noncompliance.
- Identify what changes to your systems and practices were made to ensure compliance with the specific statute(s).

CORRECTION ORDER RECONSIDERATION PROCESS

In accordance with Minn. Stat. § 144G.32, Subd. 2, you may challenge the correction order(s) issued, including the level and scope, and any fine assessed through the correction order reconsideration process. The request for reconsideration must be in writing and received by MDH within 15 calendar days of the correction order receipt date.

To submit a reconsideration request, please visit:

<https://forms.web.health.state.mn.us/form/HRDAppealsForm>

REQUESTING A HEARING

Alternatively, in accordance with Minn. Stat. § 144G.31, Subd. 5(d), an assisted living provider that has been assessed a fine under this subdivision has a right to a reconsideration or a hearing under this section and chapter 14. Pursuant to Minn. Stat. § 144G.20, Subd. 14 and Subd. 18, a request for a hearing must be in writing and received by the Department of Health within 15 business days of the correction order receipt date. The request must contain a brief and plain statement describing each matter or issue contested and any new information you believe constitutes a defense or mitigating factor.

To submit a hearing request, please visit:

<https://forms.web.health.state.mn.us/form/HRDAppealsForm>

To appeal fines via reconsideration, please follow the procedure outlined above. Please note that you may request a reconsideration or a hearing, but not both. If you wish to contest tags without fines in a reconsideration and tags with the fines at a hearing, please submit two separate appeals forms at the website listed above.

The MDH Health Regulation Division (HRD) values your feedback about your experience during the survey and/or investigation process. Please fill out this anonymous provider feedback questionnaire at your convenience at this link: **<https://forms.office.com/g/Bm5uQEPhVa>**. Your input is important to us and will enable MDH to improve its processes and communication with providers. If you have any questions regarding the questionnaire, please contact Susan Winkelmann at susan.winkelmann@state.mn.us or call 651-201-5952.

You are encouraged to retain this document for your records. It is your responsibility to share the information contained in the letter and state form with your organization's Governing Body.

If you have any questions, please contact me.

Sincerely,

Jess Schoenecker, Supervisor
State Evaluation Team

| 0 510 | <p>Continued From page 2</p> <p>ULP-A's Skill Competency Personal Protective Equipment (PPE) dated December 28, 2023, indicated ULP-A passed competency evaluation by a registered nurse (RN) for handwashing and glove use.</p> <p>On January 21, 2026, at 8:32 a.m., the surveyor observed ULP-A standing in the common kitchen area wearing gloves. ULP-A stated they washed their hands prior to donning (put on) gloves. ULP-A prepared resident (R4)'s medications in a disposable cup while touching and reviewing R4's medications on the computer. ULP-A went to R4's room where they assisted with placing R4's oral medication into R4's mouth. ULP-A left R4's room while wearing the same gloves. ULP-A doffed (removed) the gloves but did not perform hand hygiene after. The surveyor observed ULP-A touching the computer to document the medications administered, threw empty blister packs in the garbage, put R4's medication basket back into the medication closet and lock the door using a key. ULP-A then went into the common kitchen to put dishes in the dishwasher, grabbed a dishrag to rinse the sink and wiped the counter without using soap.</p> <p>On January 21, 2026, at 8:36 a.m., ULP-A stated they should have performed hand hygiene before and after glove use.</p> <p>On January 21, 2026, at 8:44 a.m., RN-F stated they expected staff to perform hand hygiene before and after a medication pass; and before and after the use of gloves which should be worn during cares on residents. RN-F stated it was an infection control concern if staff did not perform hand hygiene.</p> <p>ULP-G</p> | 0 510 | | |

| 0 510 | <p>Continued From page 3</p> <p>ULP-G was hired on August 20, 2021.</p> <p>On January 22, 2026, at 11:44 a.m., ULP-G stated the nurse had taught them on handwashing and glove use.</p> <p>On January 22, 2026, at 12:01 p.m., the surveyor observed ULP-G use hand sanitizer, don gloves, flush R2's gastrostomy tube with water, and connect R2's enteral feeding to R2's gastrostomy tube via kangaroo pump. After the procedure, the surveyor observed ULP-G doff gloves, remove supplies from R2's room and throw supplies away in the common kitchen garbage. ULP-G did not perform hand hygiene after doffing gloves. ULP-G put their hands in their pockets, then went to the common living room, where ULP-G fluffed a pillow on the couch.</p> <p>On January 22, 2026, at 1:32 p.m., clinical nurse supervisor (CNS)-D stated staff needed to perform hand hygiene before and after cares, and before and after glove use. CNS-D stated all staff had been trained in handwashing and glove use.</p> <p>The licensee's Standard Precautions for All Health Care Workers policy dated July 16, 2025, indicated to wash hands but did not indicate when staff should perform hand hygiene or a procedure for hand washing. The policy indicated glove use would be required when cleaning reusable equipment; direct contact with blood, body fluids, mucous membranes, and non-intact skin; handling of items soiled with blood; or handling equipment contaminated with blood or body fluids. The policy indicated thorough hand washing would be required after the removal of gloves. The policy referenced 144A Statute and not 144G Statute.</p> | 0 510 | | |

| 0 650 | <p>Continued From page 7</p> <p>and hearing aids.</p> <p>On January 22, 2026, at 11:17 a.m., licensed assisted living director (LALD)-C stated they knew the licensee had completed competency evaluations of all staff for personal cares, but they could not locate them in the record or at the office. LALD-C stated they had recently moved office locations and believed they had gotten lost in the transition.</p> <p>On January 22, 2026, at 11:27 a.m., clinical nurse supervisor (CNS)-D and RN-F stated they had taught all staff on medication administration through a gastrostomy tube.</p> <p>On January 22, 2026, at 12:15 p.m., CNS-D and RN-E confirmed the personnel records did not contain competency evaluations for medication administration through a gastrostomy tube. CNS-D and RN-F stated they were aware personnel records needed to have all training and competency evaluations completed but thought the documentation was lost when the licensee had moved offices. CNS-D and RN-F stated Educare (common online training) did not have education material on administering medications through a gastrostomy tube, as they had to create their own education material.</p> <p>The licensee's Personnel Records policy dated August 21, 2025, indicated personnel records for an employee shall include records of competencies. The policy referenced 144A Statute and not 144G Statute.</p> <p>No further information was provided.</p> <p>TIME PERIOD FOR CORRECTION: Twenty-one (21) days</p> | 0 650 | | |

| 0 660 SS=F | <p>144G.42 Subd. 9 Tuberculosis prevention and control</p> <p>(a) The facility must establish and maintain a comprehensive tuberculosis infection control program according to the most current tuberculosis infection control guidelines issued by the United States Centers for Disease Control and Prevention (CDC), Division of Tuberculosis Elimination, as published in the CDC's Morbidity and Mortality Weekly Report. The program must include a tuberculosis infection control plan that covers all paid and unpaid employees, contractors, students, and regularly scheduled volunteers. The commissioner shall provide technical assistance regarding implementation of the guidelines.</p> <p>(b) The facility must maintain written evidence of compliance with this subdivision.</p> <p>This MN Requirement is not met as evidenced by: Based on interview and record review, the licensee failed to maintain a tuberculosis (TB) prevention and control program, based on the most current guidelines issued by the Centers for Disease Control and Prevention (CDC), to include an updated facility TB risk assessment. This had the potential to affect all residents, staff, and visitors.</p> <p>This practice resulted in a level two violation (a violation that did not harm a resident's health or safety but had the potential to have harmed a resident's health or safety, but was not likely to cause serious injury, impairment, or death) and was issued at a widespread scope (when problems are pervasive or represent a systemic failure that has affected or has the potential to affect a large portion or all of the residents).</p> | 0 660 | | |

| 01950 | <p>Continued From page 34</p> <p>- ADL Needs - Nutritional / Hydration Status - Nutritional status: note: resident has tube feeding and eats meals. The resident appears thin but gets most calories from tube feeding due to the resident refusing to eat meals. Hydration status: note: resident has dry mucous membranes and skin. Staff should encourage nectar thick liquids throughout the day. Risk for dehydration: note: the resident is at risk for dehydration due to purred (sp) (pureed) liquids which resident does not like. Staff will follow hydration orders. Current fluid intake pattern: note: staff should offer fluids (water, juice, etc) every two hours and continue to flush resident as ordered.</p> <p>ENTERAL FEEDING R2's order dated April 9, 2025, indicated R2 was to receive Promote 1800 calories per day via pump at a rate of 1496 ml/hr. The order was obtained from Corner Home Medical on January 22, 2026 (survey exit date). The order had a different enteral formula than the formula being administered by staff, which did not indicate if a comparable formula could be used in place of Promote; or if the formula should be with or without fiber. Also, the rate for the enteral feeding to be administered through the pump was different than the rate observed to be given by the surveyor; and the order did not clarify the route of administration or duration of the enteral feeding or if the feeding was to be administered overnight for increased oral intake.</p> <p>R2's Treatment Recap Summary - Monthly (TAR) dated January 2026, indicated Tube feeding at 7:00 a.m. and 5:00 p.m. The TAR did not indicate other instructions for R2's tube feeding, water flushes through G-tube, or dietary needs.</p> <p>On January 21, 2026, at 1:56 p.m., RN-F stated</p> | 01950 | | |

| 01950 | Continued From page 39 Registered Nurse. The policy referenced 144A Statute and not 144G Statute. No further information was provided. TIME PERIOD FOR CORRECTION: Seven (7) days | 01950 | | |
| 01970 SS=F | 144G.72 Subd. 6 Treatment and therapy orders There must be an up-to-date written or electronically recorded order from an authorized prescriber for all treatments and therapies. The order must contain the name of the resident, a description of the treatment or therapy to be provided, and the frequency, duration, and other information needed to administer the treatment or therapy. Treatment and therapy orders must be renewed at least every 12 months. This MN Requirement is not met as evidenced by: Based on observation, interview, and record review, the licensee failed to ensure written or electronic treatment orders were maintained for one of one resident (R2) who had treatments related to gastrostomy tube (G-tube) that included enteral feeding, oral diet needs, and G-tube flushes. This practice resulted in a level two violation (a violation that did not harm a resident's health or safety but had the potential to have harmed a resident's health or safety, but was not likely to cause serious injury, impairment, or death) and was issued at a widespread scope (when problems are pervasive or represent a systemic failure that has affected or has the potential to affect a large portion or all of the residents). | 01970 | | |

| 01970 | <p>Continued From page 40</p> <p>The findings include:</p> <p>On January 21, 2026, at 12:07 p.m., the surveyor observed unlicensed personnel (ULP)-A get a new 1,200 milliliter (ml) enteral feeding pump bag set with tubing and fill the bag with Jevity 1.2 Cal (type of enteral formula). ULP-A stated they were told to put the whole bottle in the bag and then prime the tubing. The surveyor observed kangaroo pump was set at a rate of 100 ml per (/) hour (hr). ULP-A disconnected the enteral feeding, connected a 60 ml syringe and poured purified water into the syringe and let the water go through the enteral tube by gravity (method used to deliver formulas). ULP-A stated they were not flushing (method used to clean the feeding tube to prevent clogging and maintain hygiene after each feeding, medication or as directed by healthcare provider) R2's G-tube, just giving water to hydrate. ULP-A stated they give R2 one 16 oz (473 ml) bottled water every day at noon. ULP-A connected R2's enteral feeding to R2's G-tube via kangaroo pump at a rate of 100 ml/hr after giving water.</p> <p>On January 22, 2026, at 12:01 p.m., upon entry to R2's room, the surveyor observed R2's enteral feeding was disconnected from R2's G-tube. The enteral tubing had a full bag of formula already prepared and was actively dripping onto the floor from the end of the tubing. ULP-G connected a 60 ml syringe and poured half of a 16 oz bottle of purified water (approximately 236 ml) into the syringe and let the water go through the G-tube by gravity (method used to deliver formulas). ULP-G connected R2's enteral feeding to G-tube via kangaroo pump at a rate of 100 ml/hr.</p> <p>R2 was admitted to the licensee on April 15,</p> | 01970 | | |

| 01970 | <p>Continued From page 43</p> <p>with all active medications and treatments as identified on the attached medication list created by the licensee.</p> <p>R2's order dated April 9, 2025, indicated R2 was to receive Promote 1800 calories per day via pump at a rate of 1496 ml/hr. The order was obtained from Corner Home Medical on January 22, 2026 (survey exit date). The order had a different enteral formula than the formula being administered by staff, which did not indicate if a comparable formula could be used in place of Promote; or if the formula should be with or without fiber. Also, the rate for the enteral feeding to be administered through the pump was different than the rate observed to be given by the surveyor; and the order did not clarify the route of administration or duration of the enteral feeding or if the feeding was to be administered overnight for increased oral intake.</p> <p>R2's record lacked orders for flushing R2's G-tube with purified water; and lacked orders for R2's oral diet needs with G-tube and/or mechanical diet (modified diet designed for individuals who have difficulty chewing or swallowing helping to prevent choking and aspiration) needs.</p> <p>On January 21, 2026, at 1:56 p.m., registered nurse (RN)-F stated R2's orders had not changed since they moved into the facility. RN-F stated they did get "side orders" for R2's G-tube. RN-F stated at one point in time, R2 had been trying to eat food orally but had to revert back to just getting their nutrition from the enteral feedings. RN-F confirmed R2 had been nothing per oral (NPO) since 2024.</p> <p>On January 21, 2026, at 2:13 p.m., ULP-A stated</p> | 01970 | | |

| 01970 | <p>Continued From page 44</p> <p>R2 had not had any food or liquid per oral for about the last two years. ULP-A stated they try to give R2 foods like Cream of Wheat, yogurt, or mashed potatoes but R2 does not take this. ULP-A stated they needed to continue to offer R2 food as it was still in the system directing them to do so.</p> <p>On January 22, 2026, at 11:08 a.m., clinical nurse supervisor (CNS)-C stated they had contacted R2's provider (after the initiation of survey) who oversaw R2's enteral G-tube feeding but found the provider had retired. CNS-D stated R2 had established care with another doctor in November, which at that time they needed to get new orders for the pharmacy as well. CNS-D stated they were still waiting for a fax on the current orders from the doctor's office.</p> <p>On January 22, 2026, at 11:41 a.m., CNS-D stated they considered enteral feeding to be a treatment.</p> <p>On January 22, 2026, at 12:21 p.m., CNS-D showed the surveyor previous orders for R2 dated January 16, 2024 (R2's Provider Contact). CNS-D confirmed staff should administer 240 ml /day of water two times per day. CNS-D stated they were not aware that staff administered water three times per day and could see additional training was needed along with more specific instructions.</p> <p>On January 22, 2026, at 12:28 p.m., CNS-D stated the plan is to offer R2 food and nectar thickened liquids (type of modified diet). CNS-D confirmed the licensee did not have the original orders for R2's enteral feeding, water flushes or R2's oral dietary needs, just the form that was sent to the MD office on January 16, 2024, for</p> | 01970 | | |

|-------------------------------------------------------------------------------|------------------------|
| Project No: SL39424016 | Date: 1/21/2026 |
| Facility Name: Hopeville Homes | |
| Facility Address: 4801 78 th lane N, Brooklyn Park MN 55443 | |

TAG IDENTIFICATION: 0780

SCOPE/ SEVERITY: Level 1; Widespread

TIME PERIOD OF CORRECTION: Seven (7) days

1. Smoke alarms interconnected so that actuation of one alarm causes all alarms in the individual dwelling or sleeping unit to operate where more than one smoke alarm is required within an individual dwelling or sleeping unit. [Minn. Stat. 144G.45 subd.2]

Comments: The facility was equipped with hard wired smoke alarms that were interconnected, and battery operated smoke alarms that are interconnected in all required locations. Licensed assisted living director (LALD)-C stated that the two systems are not interconnected with each other and was not sure why their maintenance person had installed a second interconnected smoke alarm system.

TAG IDENTIFICATION: 0810

SCOPE/ SEVERITY: Level 2; Widespread

TIME PERIOD OF CORRECTION: Twenty One (21) days

1. Each assisted living facility shall develop and maintain fire safety and evacuation plans that include employee actions to be taken in the event of a fire or similar emergency. [Minn. Stat. 144G.45 subd.2]

Comments: The FSEP included standard employee procedures but failed to provide specific employee actions to take in the event of a fire or similar emergency relative to the facility's building layout and environmental risks. The plan included the acronym R.A.C.E. (Rescue, Alarm, Confine, and Extinguish or Evacuate) but the plan was designed for a building with life safety systems such as fire doors and smoke compartments. The policy had not been updated to provide complete actions for employees to take in the event of a fire or similar emergency at the licensed facility which did not have life safety systems or a fire-resistant construction type.

2. Each assisted living facility shall develop and maintain fire safety and evacuation plans that include fire protection procedures necessary for residents. [Minn. Stat. 144G.45 subd.2]

Comments: The FSEP did not identify specific fire protection actions for residents. There was no section in the policy that addressed the responsibilities or basic evacuation procedures that residents should follow in case of a fire or similar emergency.

3. Residents who are capable of assisting in their own evacuation shall be trained on the proper actions to take in the event of a fire to include movement, evacuation, or relocation. The training shall be made available to residents at least once per year. [Minn. Stat. 144G.45 subd.2]

Comments: LALD-C stated that resident training on the FSEP is verbal and provided no training documentation to review.
