*Protecting, Maintaining and Improving the Health of Minnesotans*

CMS Certification Number (CCN): 245533

March 20, 2015

Ms. Brianne Wolters, Administrator  
Lakeside Health Care Center  
439 William Avenue East, P.O. Box 383  
Dassel, Minnesota 55325

Dear Ms. Wolters:

The Minnesota Department of Health assists the Centers for Medicare and Medicaid Services (CMS) by surveying skilled nursing facilities and nursing facilities to determine whether they meet the requirements for participation. To participate as a skilled nursing facility in the Medicare program or as a nursing facility in the Medicaid program, a provider must be in substantial compliance with each of the requirements established by the Secretary of Health and Human Services found in 42 CFR part 483, Subpart B.

Based upon your facility being in substantial compliance, we are recommending to CMS that your facility be recertified for participation in the Medicare and Medicaid program.

Effective February 27, 2015 the above facility is certified for or recommended for:

54 Skilled Nursing Facility/Nursing Facility Beds

Your facility's Medicare approved area consists of all 54 skilled nursing facility beds.

You should advise our office of any changes in staffing, services, or organization, which might affect your certification status.

If, at the time of your next survey, we find your facility to not be in substantial compliance your Medicare and Medicaid provider agreement may be subject to non-renewal or termination.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Kate Johnston", written in a cursive style.

Kate Johnston, Program Specialist  
Licensing and Certification Program  
Health Regulations Division

RE: Project Number S5533024

Dear Ms. Wolters:

On February 12, 2015, we informed you that we would recommend enforcement remedies based on the deficiencies cited by this Department for a standard survey, completed on February 5, 2015. This survey found the most serious deficiencies to be widespread deficiencies that constituted no actual harm with potential for more than minimal harm that was not immediate jeopardy (Level F) whereby corrections were required.

On March 18, 2015, the Minnesota Department of Health completed a Post Certification Revisit (PCR) and on February 23, 2015 the Minnesota Department of Public Safety completed a PCR to verify that your facility had achieved and maintained compliance with federal certification deficiencies issued pursuant to a standard survey, completed on February 5, 2015. We presumed, based on your plan of correction, that your facility had corrected these deficiencies as of February 27, 2015. Based on our PCR, we have determined that your facility has corrected the deficiencies issued pursuant to our standard survey, completed on February 5, 2015, effective February 27, 2015 and therefore remedies outlined in our letter to you dated February 12, 2015, will not be imposed.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Feel free to contact me if you have questions.

Sincerely,

A handwritten signature in black ink that reads "Kate Johnston". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

*Protecting, Maintaining and Improving the Health of Minnesotans*

Electronically delivered  
February 12, 2015

Ms. Brianne Wolters, Administrator  
Lakeside Health Care Center  
439 William Avenue East, P. O. Box 383  
Dassel, Minnesota 55325

RE: Project Number S5533024

Dear Ms. Wolters:

On February 5, 2015, a standard survey was completed at your facility by the Minnesota Departments of Health and Public Safety to determine if your facility was in compliance with Federal participation requirements for skilled nursing facilities and/or nursing facilities participating in the Medicare and/or Medicaid programs.

This survey found the most serious deficiencies in your facility to be widespread deficiencies that constitute no actual harm with potential for more than minimal harm that is not immediate jeopardy (Level F), as evidenced by the attached CMS-2567 whereby corrections are required. A copy of the Statement of Deficiencies (CMS-2567) is enclosed.

**Please note that this notice does not constitute formal notice of imposition of alternative remedies or termination of your provider agreement. Should the Centers for Medicare & Medicaid Services determine that termination or any other remedy is warranted, it will provide you with a separate formal notification of that determination.**

This letter provides important information regarding your response to these deficiencies and addresses the following issues:

**Opportunity to Correct - the facility is allowed an opportunity to correct identified deficiencies before remedies are imposed;**

**Electronic Plan of Correction - when a plan of correction will be due and the information to be contained in that document;**

**Remedies - the type of remedies that will be imposed with the authorization of the Centers for Medicare and Medicaid Services (CMS) if substantial compliance is not attained at the time of a revisit;**

**Potential Consequences - the consequences of not attaining substantial compliance 3 and 6**

**months after the survey date; and**

**Informal Dispute Resolution - your right to request an informal reconsideration to dispute the attached deficiencies.**

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

## **DEPARTMENT CONTACT**

Questions regarding this letter and all documents submitted as a response to the resident care deficiencies (those preceded by a "F" tag), i.e., the plan of correction should be directed to:

**Jessica Sellner, Unit Supervisor  
Minnesota Department of Health  
3333 West Division, #212  
St. Cloud, Minnesota 56301  
Telephone: (320)223-7343  
Fax: (320)223-7365**

## **OPPORTUNITY TO CORRECT - DATE OF CORRECTION - REMEDIES**

As of January 14, 2000, CMS policy requires that facilities will not be given an opportunity to correct before remedies will be imposed when actual harm was cited at the last standard or intervening survey and also cited at the current survey. Your facility does not meet this criterion. Therefore, if your facility has not achieved substantial compliance by March 17, 2015, the Department of Health will impose the following remedy:

- State Monitoring. (42 CFR 488.422)

In addition, the Department of Health is recommending to the CMS Region V Office that if your facility has not achieved substantial compliance by March 17, 2015 the following remedy will be imposed:

- Per instance civil money penalties. (42 CFR 488.430 through 488.444)

## **ELECTRONIC PLAN OF CORRECTION (ePoC)**

An ePoC for the deficiencies must be submitted within **ten calendar days** of your receipt of this letter. Your ePoC must:

- Address how corrective action will be accomplished for those residents found to have been affected by the deficient practice;
- Address how the facility will identify other residents having the potential to be affected by the same deficient practice;

- Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur;
- Indicate how the facility plans to monitor its performance to make sure that solutions are sustained. The facility must develop a plan for ensuring that correction is achieved and sustained. This plan must be implemented, and the corrective action evaluated for its effectiveness. The plan of correction is integrated into the quality assurance system;
- Include dates when corrective action will be completed. The corrective action completion dates must be acceptable to the State. If the plan of correction is unacceptable for any reason, the State will notify the facility. If the plan of correction is acceptable, the State will notify the facility. Facilities should be cautioned that they are ultimately accountable for their own compliance, and that responsibility is not alleviated in cases where notification about the acceptability of their plan of correction is not made timely. The plan of correction will serve as the facility's allegation of compliance; and,
- Submit electronically to acknowledge your receipt of the electronic 2567, your review and your ePoC submission.

If an acceptable ePoC is not received within 10 calendar days from the receipt of this letter, we will recommend to the CMS Region V Office that one or more of the following remedies be imposed:

- Optional denial of payment for new Medicare and Medicaid admissions (42 CFR 488.417 (a));
- Per day civil money penalty (42 CFR 488.430 through 488.444).

Failure to submit an acceptable ePoC could also result in the termination of your facility's Medicare and/or Medicaid agreement.

### **PRESUMPTION OF COMPLIANCE - CREDIBLE ALLEGATION OF COMPLIANCE**

The facility's ePoC will serve as your allegation of compliance upon the Department's acceptance. Your signature at the bottom of the first page of the CMS-2567 form will be used as verification of compliance.

In order for your allegation of compliance to be acceptable to the Department, the ePoC must meet the criteria listed in the plan of correction section above. You will be notified by the Minnesota Department of Health, Licensing and Certification Program staff and/or the Department of Public Safety, State Fire Marshal Division staff, if your ePoC for the respective deficiencies (if any) is acceptable.

### **VERIFICATION OF SUBSTANTIAL COMPLIANCE**

Upon receipt of an acceptable ePoC, an onsite revisit of your facility may be conducted to validate that substantial compliance with the regulations has been attained in accordance with your verification. A Post Certification Revisit (PCR) will occur after the date you identified that compliance was achieved in your plan of correction.

If substantial compliance has been achieved, certification of your facility in the Medicare and/or

Medicaid program(s) will be continued and remedies will not be imposed. Compliance is certified as of the latest correction date on the approved ePoC, unless it is determined that either correction actually occurred between the latest correction date on the ePoC and the date of the first revisit, or correction occurred sooner than the latest correction date on the ePoC.

**Original deficiencies not corrected**

If your facility has not achieved substantial compliance, we will impose the remedies described above. If the level of noncompliance worsened to a point where a higher category of remedy may be imposed, we will recommend to the CMS Region V Office that those other remedies be imposed.

**Original deficiencies not corrected and new deficiencies found during the revisit**

If new deficiencies are identified at the time of the revisit, those deficiencies may be disputed through the informal dispute resolution process. However, the remedies specified in this letter will be imposed for original deficiencies not corrected. If the deficiencies identified at the revisit require the imposition of a higher category of remedy, we will recommend to the CMS Region V Office that those remedies be imposed.

**Original deficiencies corrected but new deficiencies found during the revisit**

If new deficiencies are found at the revisit, the remedies specified in this letter will be imposed. If the deficiencies identified at the revisit require the imposition of a higher category of remedy, we will recommend to the CMS Region V Office that those remedies be imposed. You will be provided the required notice before the imposition of a new remedy or informed if another date will be set for the imposition of these remedies.

**FAILURE TO ACHIEVE SUBSTANTIAL COMPLIANCE BY THE THIRD OR SIXTH MONTH AFTER THE LAST DAY OF THE SURVEY**

If substantial compliance with the regulations is not verified by May 5, 2015 (three months after the identification of noncompliance), the CMS Region V Office must deny payment for new admissions as mandated by the Social Security Act (the Act) at Sections 1819(h)(2)(D) and 1919(h)(2)(C) and Federal regulations at 42 CFR Section 488.417(b). This mandatory denial of payments will be based on the failure to comply with deficiencies originally contained in the Statement of Deficiencies, upon the identification of new deficiencies at the time of the revisit, or if deficiencies have been issued as the result of a complaint visit or other survey conducted after the original statement of deficiencies was issued. This mandatory denial of payment is in addition to any remedies that may still be in effect as of this date.

We will also recommend to the CMS Region V Office and/or the Minnesota Department of Human Services that your provider agreement be terminated by August 5, 2015 (six months after the identification of noncompliance) if your facility does not achieve substantial compliance. This action is mandated by the Social Security Act at Sections 1819(h)(2)(C) and 1919(h)(3)(D) and Federal regulations at 42 CFR Sections 488.412 and 488.456.

## INFORMAL DISPUTE RESOLUTION

In accordance with 42 CFR 488.331, you have one opportunity to question cited deficiencies through an informal dispute resolution process. You are required to send your written request, along with the specific deficiencies being disputed, and an explanation of why you are disputing those deficiencies, to:

Nursing Home Informal Dispute Process  
Minnesota Department of Health  
Health Regulation Division  
P.O. Box 64900  
St. Paul, Minnesota 55164-0900

This request must be sent within the same ten days you have for submitting an ePoC for the cited deficiencies. All requests for an IDR or IIDR of federal deficiencies must be submitted via the web at: [http://www.health.state.mn.us/divs/fpc/profinfo/ltc/ltc\\_idr.cfm](http://www.health.state.mn.us/divs/fpc/profinfo/ltc/ltc_idr.cfm)

You must notify MDH at this website of your request for an IDR or IIDR within the 10 calendar day period allotted for submitting an acceptable electronic plan of correction. A copy of the Department's informal dispute resolution policies are posted on the MDH Information Bulletin website at: <http://www.health.state.mn.us/divs/fpc/profinfo/infobul.htm>

Please note that the failure to complete the informal dispute resolution process will not delay the dates specified for compliance or the imposition of remedies.

Questions regarding all documents submitted as a response to the Life Safety Code deficiencies (those preceded by a "K" tag), i.e., the plan of correction, request for waivers, should be directed to:

F 241 SS=D	483.15(a) DIGNITY AND RESPECT OF INDIVIDUALITY  The facility must promote care for residents in a manner and in an environment that maintains or enhances each resident's dignity and respect in full recognition of his or her individuality.  This REQUIREMENT is not met as evidenced by: Based on observation, interview, and document review, the facility failed to accommodate activity preferences and communicate cares being provided prior to assisting 1 of 1 observed resident (R50) with bathing. Findings include: R50's quarterly Minimum Data Set (MDS) dated 11/5/14, identified the resident had moderately impaired and required extensive assistance from staff for most activities of daily living (ADLs). R50's care plan dated 12/29/14, identified self-care deficits in dressing, bathing, and personal hygiene related to forgetfulness, muscle weakness, unsteady gait, and a history of right hip fracture. R50 required assistance with getting in and out of the bathtub, washing/ drying her body, and propelling her wheelchair long distances. R50 was very hard of hearing, with severe short term memory loss. Interventions included encouragement for small group programs; Provision of cues and supervision as	F 241	F241- Dignity and Respect for Individuality  Augustana Lakeside works to promote care for residents in a manner and in an environment that maintains or enhances each resident's dignity and respect in full recognition of his or her individuality.  Staff was immediately re- educated regarding the isolated incident  Augustana Lakeside will re-educate direct care staff on best practices for compliance related to resident dignity for all residents who reside at the facility.  Periodic dignity rounds will be made.  The Director of Nursing will monitor for compliance and the Quality improvement	2/27/15

F 241	Continued From page 1 needed; Making sure she could hear and understand when spoken to by using a pocket talker (an adaptive hearing device) as needed; Reorienting her to the day, year, month, meals and activities; Avoiding distractions; Not rushing her when she was trying to remember something; Facing R50 when speaking to her, and repeating phrases as needed/ re-phrasing if necessary. The care plan noted R50 was a retired teacher who enjoyed reminiscing reading groups, church, and bible study. During observation on 2/4/15, at 1:10 p.m. R50 was seated at a table in the facility activity room. She was surrounded by approximately four other residents while activities (A)-A read a story about a man who had a near-death experience. Approximately ten minutes into the story, nursing assistant (NA)-A entered the activity room and approached R50 from behind her wheelchair, grasped the handles to the back of her wheelchair and began to propel R50 backwards, while stating to A-A, "I'm just gonna take her for a while." NA-A maneuvered R50 backwards around another resident's wheelchair, and pivoted R50 in her wheelchair and proceeded to propel her forward out of the activity room and down the hall. NA-A did not greet R50, alert her to her presence, explain her purpose, or ask permission to remove her from the activity. NA-A continued to propel R50 to the West-wing tub room at the opposite end of the facility. NA-A's did not communicate to R50 at all after removing her from the activity. NA-A brought R50 to the tub room and began to run water for the tub. As this writer greeted R50, she looked around the room and stated, "Am I getting a bath? ...It's not time for my bath." NA-A confirmed she was preparing R50 for a bath, and stated she removed R50 from the activity because the tub room on the facility's	F 241	council will monitor the correction process  Completion date: 2/27/2015

F 241	<p>Continued From page 2</p> <p>East-wing was out-of-order and R50 was not able to receive her bath that morning, prior to getting dressed for the day. NA-A stated she had approached R50 after lunch and informed her she was going to assist her with a bath later that afternoon. R50 again repeated, "Hey, am I getting a bath?" NA-A acknowledged R50's memory was not intact, and stated R50 often asked repeated questions, forgetting she had already asked them. NA-A stated, "I know, I should have talked to her first," before removing R50 from an activity and coming up behind her and pushing her wheelchair.</p> <p>During interview on 2/5/15, at 9:22 a.m. the director of nursing (DON) stated her expectations included approaching a resident face-to-face, and addressing them and ensuring the resident was aware of a staff's intentions prior to moving a cognitively impaired resident in their wheelchair. The DON stated staff were expected to provide resident cares by working around activities that were important to a resident whenever possible.</p> <p>The facility's guidelines for dignified care identified in the undated, Best Practices For Compliance Related To Resident Dignity In Skilled Nursing Facilities, developed by the Agency for Health Care Administration indicated, "The manner in which staff relates to persons for whom they are caring has the potential for great impact on the individual resident's sense of self and well-being." Respecting care needs, addressing residents as individuals and honoring their activity choices were included as examples of best practice to ensure resident dignity.</p>	F 241

K 000	Continued From page 1 3. The name and/or title of the person responsible for correction and monitoring to prevent a reoccurrence of the deficiency  Lakeside Health Care Center is a 1-story building with no basement. The building was constructed at 4 different times. The original building was constructed in 1963 and was determined to be of Type II(111) construction. In 1978, an addition was constructed and was determined to be of Type II(111) construction. In 1984, an addition was constructed and was determined to be of Type II(111) construction. The most recent addition was constructed in 1993 and was determined to be of Type II(111) construction. Because the original building and the 3 additions met the construction type allowed for existing buildings, the facility was surveyed as one building.  The building is fully sprinklered. The facility has a fire alarm system with smoke detection in the corridors and spaces open to the corridors that is monitored for automatic fire department notification. The facility has a capacity of 54 beds and had a census of 49 at time of the survey.	K 000		
K 144 SS=F	The requirement at 42 CFR, Subpart 483.70(a) is NOT MET. NFPA 101 LIFE SAFETY CODE STANDARD Generators are inspected weekly and exercised under load for 30 minutes per month in accordance with NFPA 99. 3.4.4.1.	K 144		2/13/15

K 144	Continued From page 2  This STANDARD is not met as evidenced by: Based on documentation review and staff interview, the facility failed to inspect the emergency generator in accordance with the requirements of 2000 NFPA 101 - 9.1.3 and 1999 NFPA 110 Chapter 6-4.1. The deficient practice could affect all 49 residents.  Findings include:  On facility tour between 09:30am and 12:30 PM on 02/05/2015, documentation review of the weekly inspection logs of the diesel generator showed incomplete emergency generator testing requirements for January 2014 through January 2015.  This deficient practice was confirmed by the Director of Enviromental Services (LN) at the time of discovery.	K 144	Life Safety Code K144  Lakeside Care Center's generator will be inspected weekly and exercised under load for 30 minutes per month in accordance with NFPA 99 3.4.4.1.  The Maintenance Director will monitor the completion by checking the weekly and monthly generator logs.  The safety committee will follow up with any concerns  Completion date : 2/13/2015
