MDH
Minnesota Department of Health

PROTECTING, MAINTAINING AND IMPROVING THE HEALTH OF ALL MINNESOTANS

CMS Certification Number (CCN): 245229

September 9, 2016

Ms. Jennifer Bever, Administrator
Friendship Village Of Bloomington
8100 Highwood Drive
Bloomington, Minnesota 55438

Dear Ms. Bever:

The Minnesota Department of Health assists the Centers for Medicare and Medicaid Services (CMS) by surveying skilled nursing facilities and nursing facilities to determine whether they meet the requirements for participation. To participate as a skilled nursing facility in the Medicare program or as a nursing facility in the Medicaid program, a provider must be in substantial compliance with each of the requirements established by the Secretary of Health and Human Services found in 42 CFR part 483, Subpart B.

Based upon your facility being in substantial compliance, we are recommending to CMS that your facility be recertified for participation in the Medicare and Medicaid program.

Effective June 21, 2016 the above facility is certified for:

66 Skilled Nursing Facility Beds

Your facility's Medicare approved area consists of all 66 skilled nursing facility beds.

You should advise our office of any changes in staffing, services, or organization, which might affect your certification status.

If, at the time of your next survey, we find your facility to not be in substantial compliance your Medicare and Medicaid provider agreement may be subject to non-renewal or termination.

Feel free to contact me if you have questions related to this eNotice.

Sincerely,

Mark Meath

RE: Project Number S5229026

Dear Ms. Bever:

On May 23, 2016, we informed you that we would recommend enforcement remedies based on the deficiencies cited by this Department for a standard survey, completed on May 12, 2016. This survey found the most serious deficiencies to be widespread deficiencies that constituted no actual harm with potential for more than minimal harm that was not immediate jeopardy (Level F), whereby corrections were required.

On July 12, 2016, the Minnesota Department of Health completed a Post Certification Revisit (PCR) by review of your plan of correction and on June 21, 2016 the Minnesota Department of Public Safety completed a PCR to verify that your facility had achieved and maintained compliance with federal certification deficiencies issued pursuant to a standard survey, completed on May 12, 2016. We presumed, based on your plan of correction, that your facility had corrected these deficiencies as of June 21, 2016. Based on our PCR, we have determined that your facility has corrected the deficiencies issued pursuant to our standard survey, completed on May 12, 2016, effective June 21, 2016 and therefore remedies outlined in our letter to you dated May 23, 2016, will not be imposed.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Feel free to contact me if you have questions related to this eNotice.

Sincerely,

Mark Meath

PROTECTING, MAINTAINING AND IMPROVING THE HEALTH OF ALL MINNESOTANS

Electronically delivered
May 23, 2016

Ms. Jennifer Bever, Administrator
Friendship Village Of Bloomington
8100 Highwood Drive
Bloomington, Minnesota 55438

RE: Project Number S5229026

Dear Ms. Bever:

On May 12, 2016, a standard survey was completed at your facility by the Minnesota Departments of Health and Public Safety to determine if your facility was in compliance with Federal participation requirements for skilled nursing facilities and/or nursing facilities participating in the Medicare and/or Medicaid programs.

This survey found the most serious deficiencies in your facility to be widespread deficiencies that constitute no actual harm with potential for more than minimal harm that is not immediate jeopardy (Level F), as evidenced by the attached CMS-2567 whereby corrections are required. A copy of the Statement of Deficiencies (CMS-2567) is enclosed.

Please note that this notice does not constitute formal notice of imposition of alternative remedies or termination of your provider agreement. Should the Centers for Medicare & Medicaid Services determine that termination or any other remedy is warranted, it will provide you with a separate formal notification of that determination.

This letter provides important information regarding your response to these deficiencies and addresses the following issues:

> **Opportunity to Correct - the facility is allowed an opportunity to correct identified deficiencies before remedies are imposed;**
>
> **Electronic Plan of Correction - when a plan of correction will be due and the information to be contained in that document;**
>
> **Remedies - the type of remedies that will be imposed with the authorization of the Centers for Medicare and Medicaid Services (CMS) if substantial compliance is not attained at the time of a revisit;**

Potential Consequences - the consequences of not attaining substantial compliance 3 and 6 months after the survey date; and

Informal Dispute Resolution - your right to request an informal reconsideration to dispute the attached deficiencies.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

DEPARTMENT CONTACT

Questions regarding this letter and all documents submitted as a response to the resident care deficiencies (those preceded by a "F" tag), i.e., the plan of correction should be directed to:

Gayle Lantto, Unit Supervisor
Metro D Survey Team
Licensing and Certification Program
Health Regulation Division
Minnesota Department of Health
Email: gayle.lantto@state.mn.us
Phone: (651) 201-3794 Fax: (651) 215-9697

OPPORTUNITY TO CORRECT - DATE OF CORRECTION - REMEDIES

As of January 14, 2000, CMS policy requires that facilities will not be given an opportunity to correct before remedies will be imposed when actual harm was cited at the last standard or intervening survey and also cited at the current survey. Your facility does not meet this criterion. Therefore, if your facility has not achieved substantial compliance by June 21, 2016, the Department of Health will impose the following remedy:

- State Monitoring. (42 CFR 488.422)

In addition, the Department of Health is recommending to the CMS Region V Office that if your facility has not achieved substantial compliance by June 21, 2016 the following remedy will be imposed:

- Per instance civil money penalty. (42 CFR 488.430 through 488.444)

ELECTRONIC PLAN OF CORRECTION (ePoC)

An ePoC for the deficiencies must be submitted within **ten calendar days** of your receipt of this letter. Your ePoC must:

- Address how corrective action will be accomplished for those residents found to have been affected by the deficient practice;

- Address how the facility will identify other residents having the potential to be affected by the same deficient practice;

- Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur;

- Indicate how the facility plans to monitor its performance to make sure that solutions are sustained. The facility must develop a plan for ensuring that correction is achieved and sustained. This plan must be implemented, and the corrective action evaluated for its effectiveness. The plan of correction is integrated into the quality assurance system;

- Include dates when corrective action will be completed. The corrective action completion dates must be acceptable to the State. If the plan of correction is unacceptable for any reason, the State will notify the facility. If the plan of correction is acceptable, the State will notify the facility. Facilities should be cautioned that they are ultimately accountable for their own compliance, and that responsibility is not alleviated in cases where notification about the acceptability of their plan of correction is not made timely. The plan of correction will serve as the facility's allegation of compliance; and,

- Submit electronically to acknowledge your receipt of the electronic 2567, your review and your ePoC submission.

If an acceptable ePoC is not received within 10 calendar days from the receipt of this letter, we will recommend to the CMS Region V Office that one or more of the following remedies be imposed:

- Optional denial of payment for new Medicare and Medicaid admissions (42 CFR 488.417 (a));

- Per day civil money penalty (42 CFR 488.430 through 488.444).

Failure to submit an acceptable ePoC could also result in the termination of your facility's Medicare and/or Medicaid agreement.

PRESUMPTION OF COMPLIANCE - CREDIBLE ALLEGATION OF COMPLIANCE

The facility's ePoC will serve as your allegation of compliance upon the Department's acceptance. Your signature at the bottom of the first page of the CMS-2567 form will be used as verification of compliance. In order for your allegation of compliance to be acceptable to the Department, the ePoC must meet the criteria listed in the plan of correction section above. You will be notified by the Minnesota Department of Health, Licensing and Certification Program staff and/or the Department of Public Safety, State Fire Marshal Division staff, if your ePoC for the respective deficiencies (if any) is acceptable.

VERIFICATION OF SUBSTANTIAL COMPLIANCE

Upon receipt of an acceptable ePoC, an onsite revisit of your facility may be conducted to validate that substantial compliance with the regulations has been attained in accordance with your verification. A Post Certification Revisit (PCR) will occur after the date you identified that compliance was achieved in your plan of correction.

If substantial compliance has been achieved, certification of your facility in the Medicare and/or Medicaid program(s) will be continued and remedies will not be imposed. Compliance is certified as of the latest correction date on the approved ePoC, unless it is determined that either correction actually occurred between the latest correction date on the ePoC and the date of the first revisit, or correction occurred sooner than the latest correction date on the ePoC.

Original deficiencies not corrected

If your facility has not achieved substantial compliance, we will impose the remedies described above. If the level of noncompliance worsened to a point where a higher category of remedy may be imposed, we will recommend to the CMS Region V Office that those other remedies be imposed.

Original deficiencies not corrected and new deficiencies found during the revisit

If new deficiencies are identified at the time of the revisit, those deficiencies may be disputed through the informal dispute resolution process. However, the remedies specified in this letter will be imposed for original deficiencies not corrected. If the deficiencies identified at the revisit require the imposition of a higher category of remedy, we will recommend to the CMS Region V Office that those remedies be imposed.

Original deficiencies corrected but new deficiencies found during the revisit

If new deficiencies are found at the revisit, the remedies specified in this letter will be imposed. If the deficiencies identified at the revisit require the imposition of a higher category of remedy, we will recommend to the CMS Region V Office that those remedies be imposed. You will be provided the required notice before the imposition of a new remedy or informed if another date will be set for the imposition of these remedies.

FAILURE TO ACHIEVE SUBSTANTIAL COMPLIANCE BY THE THIRD OR SIXTH MONTH AFTER THE LAST DAY OF THE SURVEY

If substantial compliance with the regulations is not verified by August 12, 2016 (three months after the identification of noncompliance), the CMS Region V Office must deny payment for new admissions as mandated by the Social Security Act (the Act) at Sections 1819(h)(2)(D) and 1919(h)(2)(C) and Federal regulations at 42 CFR Section 488.417(b). This mandatory denial of payments will be based on the failure to comply with deficiencies originally contained in the Statement of Deficiencies, upon the identification of new deficiencies at the time of the revisit, or if deficiencies have been issued as the

result of a complaint visit or other survey conducted after the original statement of deficiencies was issued. This mandatory denial of payment is in addition to any remedies that may still be in effect as of this date.

We will also recommend to the CMS Region V Office and/or the Minnesota Department of Human Services that your provider agreement be terminated by November 12, 2016 (six months after the identification of noncompliance) if your facility does not achieve substantial compliance. This action is mandated by the Social Security Act at Sections 1819(h)(2)(C) and 1919(h)(3)(D) and Federal regulations at 42 CFR Sections 488.412 and 488.456.

INFORMAL DISPUTE RESOLUTION

In accordance with 42 CFR 488.331, you have one opportunity to question cited deficiencies through an informal dispute resolution process. You are required to send your written request, along with the specific deficiencies being disputed, and an explanation of why you are disputing those deficiencies, to:

Nursing Home Informal Dispute Process
Minnesota Department of Health
Health Regulation Division
P.O. Box 64900
St. Paul, Minnesota 55164-0900

This request must be sent within the same ten days you have for submitting an ePoC for the cited deficiencies. All requests for an IDR or IIDR of federal deficiencies must be submitted via the web at: http://www.health.state.mn.us/divs/fpc/profinfo/ltc/ltc_idr.cfm

You must notify MDH at this website of your request for an IDR or IIDR within the 10 calendar day period allotted for submitting an acceptable electronic plan of correction. A copy of the Department's informal dispute resolution policies are posted on the MDH Information Bulletin website at: http://www.health.state.mn.us/divs/fpc/profinfo/infobul.htm

Please note that the failure to complete the informal dispute resolution process will not delay the dates specified for compliance or the imposition of remedies.

Questions regarding all documents submitted as a response to the Life Safety Code deficiencies (those preceded by a "K" tag), i.e., the plan of correction, request for waivers, should be directed to:

Mr. Tom Linhoff, Fire Safety Supervisor
Health Care Fire Inspections
Minnesota Department of Public Safety
State Fire Marshal Division
Email: tom.linhoff@state.mn.us
Telephone: (651) 430-3012 Fax: (651) 215-0525

Feel free to contact me if you have questions related to this eNotice.

Sincerely,

Mark Meath

F 156	Continued From page 3 written on the form. During an interview on 5/10/16, at 2:25 p.m. the assistant director of nursing (ADON) stated she was responsible for issuing denial notices and appeal rights to residents when Medicare benefits ended. She explained R22's last covered day (LCD) for Medicare benefits was 2/9/16. A progress note dated 2/9/16, at 9:58 p.m. confirmed the ADON reviewed last day of Medicare coverage and right to appeal was discussed with R22's husband on 2/9/16. R22's daughter and power of attorney (POA) agreed and signed the NOMNC in the ADON's presence. The ADON further verified the guidance from Centers for Medicare Services (CMS) required no less than a two day notice was to have been provided when Medicare services were withdrawn. She stated she believed she had a conversation with R22's husband on 2/7/15, but could not verify any contact with R22's husband or POA. The director of nursing stated in an interview on 5/12/16, at 10:57 a.m. "The process is that the resident gets at least a 48 hour notice for LCD and appeals rights notice." She further explained that the facility was planning a process of change to include hand-written information on the NONMC form in the "Additional Information" box and progress notes to include specific information regarding communication and process. The Form Instructions for the Notice of Medicare Non-Coverage (NOMNC) CMS-10123, approved 10/31/11 stated: "A Medicare provider or health plan must give in advance a completed copy of the NOMNC to beneficiaries/enrollees receiving	F 156	Date certain 5/12/16

F 441	Continued From page 5 infection. This REQUIREMENT is not met as evidenced by: Based on observation, interview and document review the facility failed to sanitary storage of a glucometer for 1 of 1 resident (R46) whose glucometer was not sanitized prior to use and potentially for two additional residents who shared the glucometer. Findings include: R46's blood sugar level was tested using a shared glucometer on 5/11/16 at 7:43 a.m. by a licensed practical nurse (LPN)-A. LPN-A removed the test strip after testing, and without disinfecting the glucometer, placed the device inside a cup in the medication cart. LPN-A was asked about cleaning the glucometer after use. LPN-A said it had been "cleaned on the night shift," and she would clean it before using it on the next resident. R46's medication medication administration record included orders for blood glucose monitoring scheduled four times daily, with an injection of Lantus insulin scheduled daily at 7:30 a.m. for type II diabetes. On 5/11/16, at 7:54 a.m. a registered nurse (RN)-A explained the facility's procedure for cleaning glucometers was to use Super Sani-Cloth wipe (purple dispenser), and then allow the machine to air dry for two minutes. The shared glucometer was used for multiple residents, and staff was to disinfect it between each resident's use.	F 441	F441 It is the policy of Friendship Village of Bloomington to insure the glucometers are properly sanitized according to manufacture instructions. Regarding R46, immediate retraining was conducted with LPN-A regarding following manufactures instruction for sanitizing glucometer. Licensed nurses will be re-educated by June 21st, 2016 regarding manufactures instruction relating to sanitizing glucometers. To ensure future and on-going compliance, audits will be conducted in the 3rd Quarter, 2016 regarding proper sanitation of the glucometer and reviewed at upcoming Quality Assurance Performance Improvement (QAPI) committee. The Director of Nursing, ADON and RN Supervisors will be responsible to ensure future compliance. Date certain 6/21/16

F 441	Continued From page 6 During an interview on 5/11/16 at 7:54 a.m. RN-A explained that LPN-A should have used the "purple wipes" to clean the glucometer before storage or use on the next resident. RN-A added, "I would expect employees to follow [the facility's policy]...No, I feel we should be cleaning it right before use, not without cleaning because the night shift did it." The Arkray glucometer product information sheet included Super Sani-Cloth wipes among acceptable products, and to "follow product label instructions to disinfect the meter." The Super Sani-wipes label instructions indicated a wipe should have been used to remove heavy soil, then, "Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full two (2) minutes. Use additional wipe(s) if needed to assure continuous two (2) minute wet contact time. Let air dry." The facility's Nursing Alert! glucometer cleaning/disinfecting policy directed staff as follows: "Glucometers will be disinfected (not cleaned) after each resident use," by wiping all surfaces of the glucometer with a Sani-Cloth and allowing to dry for a minimum of two minutes.
