CCN# 24-5342

On 02/24/14, a Post Certification Revisit (PCR) was completed by the Department of Health. Based on the PCR, it has been determined that the facility had achieved substantial compliance pursuant to the 01/09/14 standard survey, effective 01/15/14. Refer to the CMS 2567B for both health and life safety code.

Effective 01/15/14, the facility is certified for 70 skilled nursing facility beds.

MINNESOTA
MDH
DEPARTMENT OF HEALTH

Protecting, Maintaining and Improving the Health of Minnesotans

CMS Certification Number (CCN): 24-5342

April 10, 2014

Mr. Chad Ketcham, Administrator
Golden Livingcenter - Greeley
313 South Greeley Street
Stillwater, Minnesota 55082

Dear Mr. Ketcham:

The Minnesota Department of Health assists the Centers for Medicare and Medicaid Services (CMS) by surveying skilled nursing facilities and nursing facilities to determine whether they meet the requirements for participation. To participate as a skilled nursing facility in the Medicare program or as a nursing facility in the Medicaid program, a provider must be in substantial compliance with each of the requirements established by the Secretary of Health and Human Services found in 42 CFR part 483, Subpart B.

Based upon your facility being in substantial compliance, we are recommending to CMS that your facility be recertified for participation in the Medicare and Medicaid program.

Effective February 18, 2014, the above facility is certified for:

70 - Skilled Nursing Facility/Nursing Facility Beds

Your facility's Medicare approved area consists of all 70 skilled nursing facility beds.

You should advise our office of any changes in staffing, services, or organization, which might affect your certification status. If, at the time of your next survey, we find your facility to not be in substantial compliance your Medicare and Medicaid provider agreement may be subject to non-renewal or termination. Please contact me if you have any questions.

Sincerely,

Anne Kleppe

February 24, 2014

Ms. Kimberly Lyon, Administrator
Golden Livingcenter - Greeley
313 South Greeley Street
Stillwater, MN 55082

RE: Project Number S5342023

Dear Ms. Lyon:

On January 22, 2014, we informed you that we would recommend enforcement remedies based on the deficiencies cited by this Department for a standard survey, completed on January 9, 2014. This survey found the most serious deficiencies to be isolated deficiencies that constituted no actual harm with potential for more than minimal harm that was not immediate jeopardy (Level D) whereby corrections were required.

On February 24, 2014, the Minnesota Department of Health completed a Post Certification Revisit (PCR) by review of your plan of correction to verify that your facility had achieved and maintained compliance with federal certification deficiencies issued pursuant to a standard survey, completed on January 9, 2014. We presumed, based on your plan of correction, that your facility had corrected these deficiencies as of February 18, 2014. Based on our PCR, we have determined that your facility has corrected the deficiencies issued pursuant to our standard survey, completed on January 9, 2014, effective February 18, 2014 and therefore remedies outlined in our letter to you dated January 22, 2014, will not be imposed.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body. Enclosed is a copy of the Post Certification Revisit Form, (CMS-2567B) from this visit. Feel free to contact me if you have questions.

Sincerely,

Susanne Reuss

January 22, 2014

Ms. Kimberly Lyon, Administrator
Golden Livingcenter - Greeley
313 South Greeley Street
Stillwater, Minnesota 55082

RE: Project Number S5342023

Dear Ms. Lyon:

On January 9, 2014, a standard survey was completed at your facility by the Minnesota Departments of Health and Public Safety to determine if your facility was in compliance with Federal participation requirements for skilled nursing facilities and/or nursing facilities participating in the Medicare and/or Medicaid programs. This survey found the most serious deficiencies in your facility to be isolated deficiencies that constitute no actual harm with potential for more than minimal harm that is not immediate jeopardy (Level D), as evidenced by the attached CMS-2567 whereby corrections are required. A copy of the Statement of Deficiencies (CMS-2567) is enclosed.

Please note that this notice does not constitute formal notice of imposition of alternative remedies or termination of your provider agreement. Should the Centers for Medicare & Medicaid Services determine that termination or any other remedy is warranted, it will provide you with a separate formal notification of that determination.

This letter provides important information regarding your response to these deficiencies and addresses the following issues:

<u>Opportunity to Correct</u> - the facility is allowed an opportunity to correct identified deficiencies before remedies are imposed;

<u>Plan of Correction</u> - when a plan of correction will be due and the information to be contained in that document;

<u>Remedies</u> - the type of remedies that will be imposed with the authorization of the Centers for Medicare and Medicaid Services (CMS) if substantial compliance is not attained at the time of a revisit;

<u>Potential Consequences</u> - the consequences of not attaining substantial compliance 3 and 6 months after the survey date; and

<u>Informal Dispute Resolution</u> - your right to request an informal reconsideration to dispute the attached deficiencies.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

DEPARTMENT CONTACT

Questions regarding this letter and all documents submitted as a response to the resident care deficiencies (those preceded by a "F" tag), i.e., the plan of correction should be directed to:

Susanne Reuss, Unit Supervisor
Minnesota Department of Health
P.O. Box 64900
St. Paul, Minnesota 55108-2970
Telephone: (651) 201-3793
Fax: (651) 201-3790

OPPORTUNITY TO CORRECT - DATE OF CORRECTION - REMEDIES

As of January 14, 2000, CMS policy requires that facilities will not be given an opportunity to correct before remedies will be imposed when actual harm was cited at the last standard or intervening survey and also cited at the current survey. Your facility does not meet this criterion. Therefore, if your facility has not achieved substantial compliance by February 18, 2014, the Department of Health will impose the following remedy:

- State Monitoring. (42 CFR 488.422)

PLAN OF CORRECTION (PoC)

A PoC for the deficiencies must be submitted within **ten calendar days** of your receipt of this letter. Your PoC must:

- Address how corrective action will be accomplished for those residents found to have been affected by the deficient practice;

- Address how the facility will identify other residents having the potential to be affected by the same deficient practice;

- Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur;

- Indicate how the facility plans to monitor its performance to make sure that solutions are sustained. The facility must develop a plan for ensuring that correction is achieved and sustained. This plan must be implemented, and the corrective action evaluated for its effectiveness. The plan of correction is integrated into the quality assurance system;

- Include dates when corrective action will be completed. The corrective action completion dates must be acceptable to the State. If the plan of correction is unacceptable for any reason, the State will notify the facility. If the plan of correction is acceptable, the State will notify the facility. Facilities should be cautioned that they are

ultimately accountable for their own compliance, and that responsibility is not alleviated in cases where notification about the acceptability of their plan of correction is not made timely. The plan of correction will serve as the facility's allegation of compliance; and,

- Include signature of provider and date.

The state agency may, in lieu of a revisit, determine correction and compliance by accepting the facility's PoC if the PoC is reasonable, addresses the problem and provides evidence that the corrective action has occurred.

If an acceptable PoC is not received within 10 calendar days from the receipt of this letter, we will recommend to the CMS Region V Office that one or more of the following remedies be imposed:

- Optional denial of payment for new Medicare and Medicaid admissions (42 CFR 488.417 (a));

- Per day civil money penalty (42 CFR 488.430 through 488.444).

Failure to submit an acceptable PoC could also result in the termination of your facility's Medicare and/or Medicaid agreement.

PRESUMPTION OF COMPLIANCE - CREDIBLE ALLEGATION OF COMPLIANCE

The facility's PoC will serve as your allegation of compliance upon the Department's acceptance. Your signature at the bottom of the first page of the CMS-2567 form will be used as verification of compliance. In order for your allegation of compliance to be acceptable to the Department, the PoC must meet the criteria listed in the plan of correction section above. You will be notified by the Minnesota Department of Health, Licensing and Certification Program staff and/or the Department of Public Safety, State Fire Marshal Division staff, if your PoC for the respective deficiencies (if any) is acceptable.

VERIFICATION OF SUBSTANTIAL COMPLIANCE

Upon receipt of an acceptable PoC, an onsite revisit of your facility may be conducted to validate that substantial compliance with the regulations has been attained in accordance with your verification. A Post Certification Revisit (PCR) will occur after the date you identified that compliance was achieved in your plan of correction.

If substantial compliance has been achieved, certification of your facility in the Medicare and/or Medicaid program(s) will be continued and remedies will not be imposed. Compliance is certified as of the latest correction date on the approved PoC, unless it is determined that either correction actually occurred between the latest correction date on the PoC and the date of the first revisit, or correction occurred sooner than the latest correction date on the PoC.

Original deficiencies not corrected

If your facility has not achieved substantial compliance, we will impose the remedies described above. If the level of noncompliance worsened to a point where a higher category of remedy may be imposed, we will recommend to the CMS Region V Office that those other remedies be imposed.

Original deficiencies not corrected and new deficiencies found during the revisit

If new deficiencies are identified at the time of the revisit, those deficiencies may be disputed through the informal dispute resolution process. However, the remedies specified in this letter will be imposed for original deficiencies not corrected. If the deficiencies identified at the revisit require the imposition of a higher category of remedy, we will recommend to the CMS Region V Office that those remedies be imposed.

Original deficiencies corrected but new deficiencies found during the revisit

If new deficiencies are found at the revisit, the remedies specified in this letter will be imposed. If the deficiencies identified at the revisit require the imposition of a higher category of remedy, we will recommend to the CMS Region V Office that those remedies be imposed. You will be provided the required notice before the imposition of a new remedy or informed if another date will be set for the imposition of these remedies.

FAILURE TO ACHIEVE SUBSTANTIAL COMPLIANCE BY THE THIRD OR SIXTH MONTH AFTER THE LAST DAY OF THE SURVEY

If substantial compliance with the regulations is not verified by April 9, 2014 (three months after the identification of noncompliance), the CMS Region V Office must deny payment for new admissions as mandated by the Social Security Act (the Act) at Sections 1819(h)(2)(D) and 1919(h)(2)(C) and Federal regulations at 42 CFR Section 488.417(b). This mandatory denial of payments will be based on the failure to comply with deficiencies originally contained in the Statement of Deficiencies, upon the identification of new deficiencies at the time of the revisit, or if deficiencies have been issued as the result of a complaint visit or other survey conducted after the original statement of deficiencies was issued. This mandatory denial of payment is in addition to any remedies that may still be in effect as of this date.

We will also recommend to the CMS Region V Office and/or the Minnesota Department of Human Services that your provider agreement be terminated by July 9, 2014 (six months after the identification of noncompliance) if your facility does not achieve substantial compliance. This action is mandated by the Social Security Act at Sections 1819(h)(2)(C) and 1919(h)(3)(D) and Federal regulations at 42 CFR Sections 488.412 and 488.456.

INFORMAL DISPUTE RESOLUTION

In accordance with 42 CFR 488.331, you have one opportunity to question cited deficiencies through an informal dispute resolution process. You are required to send your written request, along with the specific deficiencies being disputed, and an explanation of why you are disputing those deficiencies, to:

Nursing Home Informal Dispute Process
Minnesota Department of Health
Division of Compliance Monitoring
P.O. Box 64900
St. Paul, Minnesota 55164-0900

This request must be sent within the same ten days you have for submitting a PoC for the cited deficiencies. All requests for an IDR or IIDR of federal deficiencies must be submitted via the web at:
http://www.health.state.mn.us/divs/fpc/profinfo/ltc/ltc_idr.cfm

You must notify MDH at this website of your request for an IDR or IIDR within the 10 calendar day period allotted for submitting an acceptable plan of correction. A copy of the Department's informal dispute resolution policies are posted on the MDH Information Bulletin website at:
http://www.health.state.mn.us/divs/fpc/profinfo/infobul.htm

Please note that the failure to complete the informal dispute resolution process will not delay the dates specified for compliance or the imposition of remedies.

Questions regarding all documents submitted as a response to the Life Safety Code deficiencies (those preceded by a "K" tag), i.e., the plan of correction, request for waivers, should be directed to:

Interim Executive Director — 2/3/14

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 246	Continued From page 1 During initial observation on 1/7/14, at 9:52 a.m., R5 was seated in her wheelchair near the foot of the bed. The call light was clipped to the bed frame at the head of the bed, behind R5. A tray table and walker were between the resident and the call light, posing a barrier to the call light. When asked, R5 was able to state the correct purpose of a call light, to press down the button when staff help was needed. On 1/8/14, at 9:20 a.m. R5's nursing assistant, (NA)-A, was observed assisting R5 to recline in her bed. The call light was on the side of the garbage container farthest from the bed. The garbage container was a few inches away from the bed and slightly above head level for R5. The resident and call light remained in the same location during random observations at 9:35 a.m. and 9:45 a.m. No device was near R5 to assist her in reaching the call light. At 11:02, the call light was observed on the floor. R5 remained resting in bed. The director of nursing, (DON), confirmed observation at this time, picked up the call light from the floor and clipped it on the blanket next to R5. DON reported the call light should be placed in reach and fastened near the resident using a clip on the call light. At 11:27 a.m., at the request of the DON, the call light was placed on the garbage container, in approximately the same location as it was during observations at 9:20 a.m. until 9:45 a.m. R5 was positioned in her bed in approximately the same location as she was during observations between 9:20 a.m. and 9:45 a.m. When asked to reach the call light, R5 reached her arm out for it. However, her hand remained several inches from the call light. R5 reported it would be difficult for her to reach the call light. The DON confirmed the call	F 246	**allegation of compliance.** **F 246** *** Call Light was placed within reach of R5 upon discovery that it was not within her reach.** *** Facility will provide education to all staff regarding appropriate placement of call lights.** *** Audit Tool Created and implemented for audit of all residents to ensure call light is placed appropriately.** *** Random Audits will be completed at least weekly to ensure appropriate call light placement.** *** The facility QAPI committee will review the audit results for 2 months and then determine the need further recommendations and continuation, if necessary.** *** The date of completion is 2-18-14.**

K 000	INITIAL COMMENTS FIRE SAFETY A Life Safety Code Survey was conducted by the Minnesota Department of Public Safety. At the time of this survey, Greeley Healthcare Center was found in substantial compliance with the requirements for participation in Medicare/Medicaid at 42 CFR, Subpart 483.70(a), Life Safety from Fire, and the 2000 edition of National Fire Protection Association (NFPA) Standard 101, Life Safety Code (LSC), Chapter 19 Existing Health Care. Greeley Healthcare Center is a 1-story building with a partial basement. The building was constructed at 3 different times. The original building was constructed in 1964 and was determined to be of Type 2(111) construction. In 1988, an addition was constructed to the west side of the building that was determined to be of Type II(111)construction. In 1997, an addition was constructed to the north and south sides of the building that was determined to be of Type V(111)construction. Because the original building and the additions meet the construction type allowed for existing buildings, the facility was surveyed as one building as Type V(111) construction. The building is fully fire sprinkler protected. The facility has a complete fire alarm system with smoke detection in the corridors and spaces open to the corridor that is monitored for automatic fire department notification. Also system smoke detection is in all resident rooms. The facility has a licensed capacity of 70 beds and had a census of 57 at the time of the survey.	K 000

2 000	Initial Comments *****ATTENTION****** NH LICENSING CORRECTION ORDER In accordance with Minnesota Statute, section 144A.10, this correction order has been issued pursuant to a survey. If, upon reinspection, it is found that the deficiency or deficiencies cited herein are not corrected, a fine for each violation not corrected shall be assessed in accordance with a schedule of fines promulgated by rule of the Minnesota Department of Health. Determination of whether a violation has been corrected requires compliance with all requirements of the rule provided at the tag number and MN Rule number indicated below. When a rule contains several items, failure to comply with any of the items will be considered lack of compliance. Lack of compliance upon re-inspection with any item of multi-part rule will result in the assessment of a fine even if the item that was violated during the initial inspection was corrected. You may request a hearing on any assessments that may result from non-compliance with these orders provided that a written request is made to the Department within 15 days of receipt of a notice of assessment for non-compliance. INITIAL COMMENTS: On January 6, 7, 8, and 9, 2014, surveyors of this Department's staff, visited the above provider and the following correction orders are issued. When corrections are completed, please sign and date, make a copy of these orders and return the original to the Minnesota Department of Health, Division of Compliance Monitoring, Licensing and	2 000 2/5/14 SER	Minnesota Department of Health is documenting the State Licensing Correction Orders using federal software. Tag numbers have been assigned to Minnesota state statutes/rules for Nursing Homes.
