Re: Results of State Licensing Survey

Dear Mr. Melin:

The above agency was surveyed on August 6, 7, and 8, 2007, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in cursive script that reads "Jean M. Johnston".

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

***Please note:*** Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

**SURVEY RESULTS:**  All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

**1. MN Rule 4668.0815 Subp. 2**

**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) reviewed each client’s evaluation and service plan at least annually for one of two clients’ (A1) records reviewed. The findings include:

Client A1’s record indicated client A1’s service plan was last reviewed by the RN in January 2005. When interviewed, August 7, 2007, the RN confirmed the service plan had not been reviewed annually.

**2. MN Rule 4668.0815 Subp. 4**

**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to ensure a complete service plan was provided for two of two current clients’ (A1 and A2) records reviewed. The findings include:

Client A1 and A2's service plans indicated the following services were provided with the rent; three meals plus snacks, housekeeping, bath, medication administration, laundry, health assessment at start and annually, professional nurse supervision, monthly wellness clinic, transportation to appointments, and activities. Client A1 and A2's service plans did not include a list of the services the client actually received, the frequency of the services or who was to provide the service. Client A1 and A2's service plans did not contain a contingency plan. When interviewed, August 7, 2007, the registered nurse confirmed the service plans were not complete.

### 3. MN Rule 4668.0860 Subp. 2

#### **INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to have written prescriber orders for medications for one of three clients' (A3) records reviewed. The findings include:

Client A3 started receiving services on March 30, 2007. Client A3's medication administration records for March, April, May, and June 2007 indicated client A3 received four medications including an antihypertensive medication. Client A3's record lacked evidence of prescriber orders for these medications. When interviewed on August 7, 2007, the registered nurse confirmed there were not prescriber orders for these medications.

### 4. MN Statute 626.557 Subd. 14 (b)

#### **INDICATOR OF COMPLIANCE: # 3**

Based on record review and interview the licensee failed to ensure a plan was developed to address areas of vulnerability for two of two current clients' (A1 and A2) records reviewed. The findings include:

Clients A1 and A2's records contained vulnerable adult assessments that indicated clients A1 and A2 had a potential for substance abuse, that they had areas of vulnerability and that they had potential to abuse others. Clients A1 and A2's records lacked a plan to address the identified areas of vulnerability and potential to abuse others. When interviewed on August 7, 2007, the registered nurse confirmed there was not a plan to minimize risk of abuse to other clients or staff.
