Re: Results of State Licensing Survey

Dear Ms. Seemann:

The above agency was surveyed on January 12, 13, and 14, 2010, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-5273.

Sincerely,

A handwritten signature in cursive script that reads "Patricia Nelson".

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

***Please note:*** Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

**SURVEY RESULTS:**  All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

**1. MN Rule 4668.0815 Subp. 2**

**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) reviewed and revised each client’s evaluation and service plan at least annually for one of one client (#1) record reviewed. The findings include:

Client #1’s initial evaluation and service plan, dated August 23, 2008, indicated the client received assistance with activities of daily living, medication set-up and administration, blood sugar checks and laundry and housekeeping services. There was no evidence that the RN had reviewed and/or revised the client’s evaluation and service plan since she started services in August of 2008.

When interviewed January 12, 2010, the RN confirmed client #1’s evaluation and service plan had not been reviewed since the client started services. The RN stated she was not aware of this requirement.

**2. MN Rule 4668.0815 Subp. 4****INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to provide a complete service plan for one of one client (#1) record reviewed. The findings include:

Client #1's service plan, dated August 23, 2008, indicated the client received assistance with activities of daily living, medication set-up and administration, blood sugar checks and laundry and housekeeping services. The service plan did not include the fees for these services. The client's service plan did not identify the person or category of persons that assisted the client with blood glucose checks nor did it include the frequency of supervision of the home health aides.

When interviewed January 12, 2010, the registered nurse confirmed client #1's service plan did not include all of the required information.

**3. MN Rule 4668.0825 Subp. 4****INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview, the licensee failed to retain documentation for demonstration of competency of blood glucose checks for two of two unlicensed employees' (B and C) records reviewed. The findings include:

Client #1's record indicated she received assistance with blood glucose checks on a daily basis from employees B or C. There was no documentation of training or demonstrated competency for employees B and C for the delegated task of blood glucose checks.

When interviewed January 13, 2010, employee B stated she was instructed on how to perform a blood glucose check by the registered nurse (RN) and demonstrated to the RN her ability to competently perform the procedure.

When interviewed January 13, 2010, the RN stated employees B and C were trained and demonstrated competency on how to perform blood glucose checks, but confirmed there was no documentation of this training and competency.

**4. MN Rule 4668.0835 Subp. 3****INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview, the licensee failed to ensure that unlicensed personnel who performed assisted living home care services, received eight hours of inservice training for each twelve months of employment for two of two employees' (B and C) records reviewed. The findings include:

Employees B and C were hired to perform assisted living home care services on June 23, 2001 and September 8, 2007, respectively. Employees B and Cs' inservice training records indicated they received five hours and thirty minutes of in-service training in 2008 and six hours and forty minutes in 2009.

When interviewed January 12, 2010, the registered nurse confirmed employees B and C did not have eight hours of in-service training for each twelve months of employment and stated she was not aware of this requirement.

#### **5. MN Rule 4668.0845 Subp. 2**

##### **INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to ensure a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for one of one client (#1) record reviewed. The findings include:

Client #1 began receiving services on August 23, 2008, which included assistance with activities of daily living, medication set-up and administration, blood sugar checks and laundry and housekeeping services. There was no evidence in client #1's record of a RN supervisory visit of the unlicensed staff within fourteen days after services started nor were there any RN supervisory visits every 62 days thereafter.

When interviewed January 13, 2010 the RN confirmed there were no supervisory visits in client #1's record. The RN stated she was not aware of this requirement.

#### **6. MN Rule 4668.0865 Subp. 8**

##### **INDICATOR OF COMPLIANCE: # 6**

Based on observation and interview, the licensee failed to ensure medications were stored in locked areas. The findings include:

The licensee provided central storage of medications for all the clients. Observations on January 12 and 13, 2010, revealed client #1's insulin and a bisacodyl suppository were stored on a shelf in an unlocked common use refrigerator in the kitchen. The storage area for the client's medications was in a laundry room with two doors. The medications for the clients were stored in bins on a shelf above the washing machine/dryer. One door to the medication storage/laundry room was off the kitchen, and the other door was off the bathroom. Both doors were not equipped with a key lock, but rather a lock that could be opened with any narrow straight metal object such as a paper clip. The metal object was kept on the door frame above the door to the kitchen. On January 13, 2010, a client was observed to unlock the door to the medication storage/laundry room and retrieve her laundry.

When interviewed January 13, 2010, the registered nurse (RN) confirmed refrigerated medications were not locked. The RN stated the medication storage area did not have key locks on the doors, and that a specific client periodically unlocked the door to retrieve her laundry.

**7. MN Rule 4668.0865 Subp. 9****INDICATOR OF COMPLIANCE: # 6**

Based on observation and interview, the licensee failed to ensure that controlled drugs were stored in a locked compartment permanently affixed to the physical plant. The findings include:

The licensee provided central storage of medications for all the clients. Observations on January 13, 2010, revealed medications such as hydrocodone, were stored in a box which was permanently affixed to the wall in the medication storage/laundry room. The box had a key in the key hole and was not locked. On January 13, 2010, a client was observed to unlock the door to the medication storage/laundry room and retrieve her laundry.

When interviewed January 13, 2010, the registered nurse confirmed the key for the box that contained the client's controlled substances was stored in the lock.

**8. MN Statute §144A.44****INDICATOR OF COMPLIANCE: # 2**

Based on record review and interview, the licensee failed to provide the current Minnesota Home Care Bill of Rights for Assisting Living Clients to one of one client (#1) record reviewed. The findings include:

Client #1 began receiving assisted living services from the licensee on August 23, 2008. Client #1 was provided a copy of the Minnesota Home Care Bill of Rights, but the content did not include the current language for assisted living clients in clause 16, which included the right to at least a thirty day advance notice of termination of a service by the provider.

When interviewed January 12, 2010 the registered nurse (RN) confirmed that all the clients under their Class F license received assisted living services. The RN stated she was not aware there was a version of the Home Care Bill of Rights specifically for clients that received assisted living services.

Re: Results of State Licensing Survey

Dear Ms. Seemanann:

The above agency was surveyed on June 02 and 03, 2004 for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please feel free to call our office with any questions at (651) 215-8703.

Assisted Living Home Care Provider  
**LICENSING SURVEY FORM**

Registered nurses from the Minnesota Department of Health (MDH) use the Licensing Survey Form during an on-site visit to evaluate the care provided by Assisted Living home care providers (ALHCP). The ALHCP licensee may also use the form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview ALHCP staff, make observations, and review some of the agency's documentation. The nurses may also talk to clients and/or their representatives. This is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Assisted Living services. Completing the Licensing Survey Form in advance may expedite the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the ALHCP home care regulations. Any violations of ALHCP licensing requirements are noted at the end of the survey form.
