Re: Results of State Licensing Survey

Dear Mr. Boerboom:

The above agency was surveyed on January 5, 6, and 8, 2010, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me. If further clarification is necessary, an informal conference can be arranged.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-5273.

Sincerely,

A handwritten signature in black ink, appearing to read "Patricia Nelson", is written in a cursive style.

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS:

1. MN Rule 4668.0810 Subp. 6

INDICATOR OF COMPLIANCE: # 4

Based on record review and interview, the licensee failed to maintain a complete record for one of one client’s (#1) record reviewed. The findings include:

The facility communication log, which is not part of the permanent record, contained documentation on November 28, 2009, which indicated the daughter took client #1 to the emergency room because of vomiting and shortness of breath and that the client was admitted to the hospital.

Hospital discharge documents noted that client #1 was admitted to the hospital, November 28, 2009, with chronic obstructive pulmonary disease and pneumonia. His treatment consisted of intravenous antibiotics, oxygen, lung sounds, oxygen saturation tests (O2 sats), oral and respiratory medication and lab tests. The documents indicated that the client was discharged on December 2, 2009 and returned to the assisted living facility with treatment consisting of oral antibiotics, inhalers, nebulizers and oxygen.

When interviewed January 6, 2010, the LPN/administrator stated there was no documentation required about the client’s status and that when she was trained by the previous LPN/administrator she was told progress notes were not needed in assisted living facilities.

2. MN Rule 4668.0835 Subp. 3**INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview, the licensee failed to ensure that unlicensed personnel who performed assisted living home care services, received eight hours of in-service training for each twelve months of employment for one of one employee's (B) record reviewed. The findings include:

Employee B was hired September 11, 2007, as an unlicensed direct care staff. There was no documentation of in-service training for 2008 or 2009.

When interviewed January 8, 2010, the licensed practical nurse/administrator confirmed there was no documented in-service training hours in 2008 or 2009, but indicated it was done routinely.

3. MN Rule 4668.0855 Subp. 2**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) developed a service plan for the provision of assistance with medication administration for one of one client's (#1) record reviewed. The findings include:

Client #1 began receiving services on February 9, 2009, which included assistance with medication administration. The client's service plan, dated August 1, 2009, referred to an undated care plan. The care plan did not include assistance with medication administration.

When interviewed January 6, 2010, the licensed practical nurse/administrator did not know that medication administration needed to be included on the client's service plan.

4. MN Rule 4668.0855 Subp. 4**INDICATOR OF COMPLIANCE: # 6**

Based on observation, interview and record review, the licensee failed to ensure that a registered nurse (RN) instructed unlicensed personnel on the procedures for administration of medications for one of one unlicensed employee's (B) record reviewed. The findings include:

Employee B was hired September 11, 2007, as an unlicensed direct care staff. Employee B's medication administration training and competency document, dated December 9, 2008, was blank in the space designated for signature of the supervising RN. Medication administration training and observation of medication pass documents for employee B, dated January 16, 2009, were signed by the licensed practical nurse (LPN)/administrator. There was no evidence that the RN instructed employee B on the procedures for administration of medications.

When interviewed January 8, 2010, the LPN/administrator indicated the previous LPN/administrator instructed her to conduct the medication training in this manner for unlicensed staff. On January 6, 2010, the owner confirmed that unlicensed staff passed medications before the RN trained or competency tested them.

A draft copy of this completed form was left with Angie Thomas, LPN/Administrator, at a phone exit conference on January 12, 2010. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-5273. After review, this form will be posted on the MDH website. Assisted Living Home Care Provider
LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use the Licensing Survey Form during an on-site visit to evaluate the care provided by Assisted Living home care providers (ALHCP). The ALHCP licensee may also use the form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview ALHCP staff, make observations, and review some of the agency's documentation. The nurses may also talk to clients and/or their representatives. This is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Assisted Living services. Completing the Licensing Survey Form in advance may expedite the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the ALHCP home care regulations. Any violations of ALHCP licensing requirements are noted at the end of the survey form.

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other violations may be cited depending on what systems a provider has or fails to have in place and/or the severity of a violation. Also, the results of the focused licensing survey may result in an expanded survey where additional interviews, observations, and documentation reviews are conducted.

Survey Results:

_____ All Indicators of Compliance listed above were met.

Re: Results of State Licensing Survey

Dear Mr. Campion:

The above agency was surveyed on October 20, 21, and 22, 2004 for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please feel free to call our office with any questions at (651) 215-8703.

Sincerely,

Jean Johnston, Program Manager

Assisted Living Home Care Provider
LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use the Licensing Survey Form during an on-site visit to evaluate the care provided by Assisted Living home care providers (ALHCP). The ALHCP licensee may also use the form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview ALHCP staff, make observations, and review some of the agency's documentation. The nurses may also talk to clients and/or their representatives. This is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Assisted Living services. Completing the Licensing Survey Form in advance may expedite the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the ALHCP home care regulations. Any violations of ALHCP licensing requirements are noted at the end of the survey form.

#1	MN Rule 4668.0815, Subp.4 Contents of Service Plan	X	X	<p>Based on record review and interview, the agency failed to provide contingency plans for two of two clients (#1 and #2) reviewed. The findings include:</p> <p>Client #1's service plan dated January 2004 indicated the client received assisted living services including skilled nursing, medication storage and administration and blood sugar monitoring twice daily. The contingency plan for essential services stated, "We are a 24 hour service provider." No other information was provided. Services will be provided. It is not clear how it will be provided. Client #2's service plan dated June 2004 indicated the client received assisted living services including skilled nursing, medication storage, and vital sign and weight monitoring. The contingency plan for essential services stated, "We are a 24 hour service provider." No other information was provided.</p> <p>When interviewed October 20, 2004 the Housing Director stated, that if staff calls in sick or would not be able to come to work, then they would call another staff from a list of names posted in the medication room. She confirmed the client contingency plans did not contain the information required by the Rule.</p> <p><u>Education:</u> Provided</p>

#8	MN Rule 4668.0855, Subp. 9 Medication Records	X	X	<p>Based on record review and interview the agency failed to administer a medication as prescribed for one of two clients (#2) reviewed. The findings include:</p> <p>Client # 2 had a physician's order September 2004 for Duragesic Patch 25 mcg., every three days. Prior to this it had been ordered August 2004 as Duragesic Patch 25 mcg. every three days as needed (PRN). The October 2004 medication administration record indicated Duragesic Patch 25 mcg. every three days PRN. The medication was documented as administered October 7, 12th, and 20th. There was no documentation of refusal or other information on why it had not been administered as ordered in the record. The record did not indicate any follow up procedures were provided. When interviewed October 20, 2004 the RN and Housing director indicated that due to the cost of medications, client #2 refused to have the patch changed every 3 days.</p> <p><u>Education:</u> Provided</p>
