Re: Results of State Licensing Survey

Dear Mr. Campion:

The above agency was surveyed on February 6, 7, and 8, 2007, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston".

Jean Johnston, Program Manager

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: LINDENWOOD ASSISTED LIVING

HFID #: 20735

Date(s) of Survey: February 6, 7 and 8, 2007

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0065 Subp. 3

INDICATOR OF COMPLIANCE: # 5

Based on record review and interview, the licensee failed to ensure annual infection control in-service training was provided for one of three employees (B) reviewed. The findings include:

Employee B was hired May 6 of 2000 as a licensed practical nurse. Documentation indicated that employee B last had infection control training on November 16, 2005. During an interview February 7, 2007, the registered nurse indicated that the training on November 16, 2005 was the only infection control training that employee B had provided to the facility.

2. MN Rule 4668.0815 Subp. 2

AREA OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) reviewed and/or revised the client’s service plan at least annually for two of two current clients’ (#1 and #2) records reviewed. The findings include:

Client #1's service plan was last reviewed October of 2001. There was no indication that the RN had reviewed and/or revised the client's service plan after October 5, 2001.

Client #2's service plan was signed by the resident director May 27, 2005. There was no indication that the RN had reviewed and/or revised the client's service plan. When interviewed February 6, 2007, the RN indicated that she had reviewed the service plan when she reviewed the quarterly functional assessment, however she had not documented the review.

3. MN Rule 4668.0815 Subp. 3

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure that that the client or the client's responsible person agreed in writing to a service plan modification for two of two current clients' (#1 and #2) records reviewed. The findings include:

Client #1's service plan was dated October of 2001. The service plan was modified August of 2004 and July 1, 2006 due to fee increases of \$692.00 and \$762.00 respectively. The fee changes had not been authenticated by the client.

Client #2's service plan was dated June of 2005. The service plan was modified January of 2007 due to a fee increase to \$2,015.00. The fee change had not been authenticated by the client. When interviewed February 6, 2007, the registered nurse stated she was not aware that a modification to the service plan needed to be done for a rate increase.

4. MN Rule 4668.0815 Subp. 4

AREA OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to assure a complete service plan for three of three clients' (#1, #2 and #3) records reviewed. The findings include:

Client #1 began receiving services October of 2001. The client's service plan did not have a contingency plan, which included the action to be taken by the assisted living home care provider licensee, client, and responsible person if scheduled services could not be provided.

Client #2 and client #3's service plans dated June of 2005 and February of 2005, respectively, indicated the clients received medication administration. Their service plans did not indicate the schedule or frequency of sessions of supervision and the contingency plans did not indicate what action would be taken if services could not be provided. When interviewed February 7, 2007, the registered nurse verified that the contingency plans were not specific and the schedule and frequency of supervision was not indicated on client #2 and #3's service plan.

5. MN Rule 4668.0845 Subp. 2**AREA OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to have a registered nurse (RN) supervise unlicensed personnel who perform services that require supervision for three of three clients' (#1, #2 and #3) records reviewed. The findings include:

Client #1 began receiving services, including central storage of medication and medication administration on October of 2001. Client #2 and client #3 began receiving central storage of medication and medication supervision and administration on June of 2005 and February of 2005, respectively.

There was no documentation in any of the clients' records of an RN supervisory visit within 14 days after the initiation of services or of any supervisory or monitoring visits thereafter. When interviewed February 6, 2007, the RN stated she had not documented any supervisory visits in the clients' records. She indicated that she used to document the visits, but has not done it for a while.

6. MN Rule 4668.0845 Subp. 3**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to have non nursing services supervised at the housing with services (HWS) for three of three clients' (#1, #2, and #3) records reviewed. The findings include:

Client #1's service plan, dated October of 2001, indicated that housekeeping and meal preparation were provided. Client #2 and client #3's service plan, dated June of 2005 and February of 2006, respectively, indicated that laundry, housekeeping and meal preparation were provided. The clients' service plans did not address a schedule of supervision for the non delegated tasks and there was no documentation in client #1, #2 and #3's record that supervisory visits were performed at the HWS. When interviewed February 7, 2007, the resident director was not aware that supervisory visit of unlicensed personnel need to be performed.

7. MN Rule 4668.0855 Subp. 5**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) was informed within 24 hours of administration when unlicensed personnel administered pro re nata (PRN, as needed) for one of three clients' (#1) records reviewed. The findings include:

Client #1 received Tylenol #3 (as needed) for pain three days in January of 2007 and two days in February of 2007. The RN was not informed of the PRN use of the narcotic analgesic. When interviewed February 6, 2007, the RN confirmed that she was not notified of the administration of the Tylenol #3. When interviewed February 7, 2007, employee C an unlicensed staff who administered medications indicated that she did not notify the RN when a PRN medication was given. She said that she documented the administration of the medication in the back of the medication book, stating the reason it was given and the results of the medication.

A draft copy of this completed form was left with Shelley Opdahl, RN, at an exit conference on February 8, 2007. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
