Re: Results of State Licensing Survey

Dear Mr. Carlson:

The above agency was surveyed on October 1, 2, and 6, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0810 Subp. 6

INDICATOR OF COMPLIANCE: # 4

Based on observation, record review and interview, the licensee failed to ensure services provided to the client were documented in the client’s record for one of one client’s (#1) record reviewed. The findings include:

Client #1’s service plan dated September 10, 2009, indicated the client was to wear a knee immobilizer and TED stocking daily. Client #1 was observed October 1, 2009, wearing the knee immobilizer and TED stockings. These services were not documented in the client’s record.

When interviewed October 2, 2009, the registered nurse confirmed the knee immobilizer and TED stockings were not documented in the client’s record as being provided.

2. MN Rule 4668.0825 Subp. 4**INDICATOR OF COMPLIANCE: # 5**

Based on observation, record review and interview, the licensee failed to retain documentation for demonstration of competency for delegated nursing tasks performed for one of one unlicensed employee's (B) record reviewed. The findings include:

Client #1's record indicated employee B provided services to the client on October 1, 2009. Client #1 was observed wearing the knee immobilizer on her right leg on October 1, 2009. There was no documentation indicating employee B had demonstrated competency for application of the knee immobilizer to the registered nurse. When interviewed October 2, 2009, the registered nurse stated employee B had been trained and demonstrated competency but she was unable to find the documentation. The unlicensed staff working on October 2, 2009, stated the registered nurse had trained them in the application of the knee immobilizer and showed this reviewer the written procedure.

3. MN Rule 4668.0855 Subp. 9**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to have complete medication records for one of one client's (#1) record reviewed. The findings include:

Client #1's PRN (pro re nata) medication record contained eight entries in May, June, September and October of 2009 which each indicated two Tylenol had been given. The documentation did not include the dosage of PRN Tylenol. When interviewed October 2, 2009, the registered nurse confirmed the documentation did not include the dosage of the Tylenol that had been given.

4. MN Rule 4668.0860 Subp. 2**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the agency failed to have a current prescriber order for medications for one of one client's (#1) record reviewed. The findings include:

Client #1's PRN (pro re nata) medication form indicated on September 23 and 30, 2009, and October 1, 2009, the client received two tablets of Tylenol for pain in addition to the Tylenol 325 mg two tablets the client was to receive three times a day at 8:00 a.m., 12:00 p.m. and 5:00 p.m. The client had a physician's order dated September 4, 2009, for Tylenol 325 mg two tablets three times a day. There was no physician's order for the additional PRN Tylenol. When interviewed October 2, 2009, the registered nurse confirmed there was no physician's order for the PRN Tylenol.

5. MN Rule 4668.0865 Subp. 2**INDICATOR OF COMPLIANCE: # 6**

Based on observation, record review and interview, the licensee failed to ensure service plans included central storage of medications for one of one client's (#1) record reviewed who received central storage of medications. The findings include:

Client #1's medications were observed October 1, 2009, to be stored in the medication cupboard in the kitchen. Client #1's service plan dated January 15, 2009, did not include central storage of medications. When interviewed October 2, 2009, the registered nurse confirmed the client's medications were in central storage and the client's service plan was not complete.

A draft copy of this completed form was left with Laura Conril at an exit conference on October 6, 2009. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. Re: Results of State Licensing Survey

Dear Mr. Carlson:

The above agency was surveyed on March 22 and 23, 2005 for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please feel free to call our office with any questions at (651) 215-8703.

Assisted Living Home Care Provider
LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use the Licensing Survey Form during an on-site visit to evaluate the care provided by Assisted Living home care providers (ALHCP). The ALHCP licensee may also use the form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview ALHCP staff, make observations, and review some of the agency's documentation. The nurses may also talk to clients and/or their representatives. This is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Assisted Living services. Completing the Licensing Survey Form in advance may expedite the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the ALHCP home care regulations. Any violations of ALHCP licensing requirements are noted at the end of the survey form.
