September 27, 2007

James Birchem, Administrator
Minnesota Heritage House
211 First Street SE
Little Falls, MN 56345

Re: Results of State Licensing Survey

Dear Mr. Birchem:

The above agency was surveyed August 6 and 7, 2007, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston".

An equal opportunity employer

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: MINNESOTA HERITAGE HOUSE

HFID #: 21049

Date(s) of Survey: August 6 and 7, 2007

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0815 Subp. 4

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure that service plans were complete for six of six clients’ (A1, A2, A3, B1, B2, and B3) records reviewed. The findings include:

Clients A1, A2, A3, B1, B2, and B3 all received central storage of medications. Their service plans, dated August 28, 2006, February 12, 2007, June 19, 2006, May 24, 2007, December 12, 2006, and February 18, 2007, respectively, did not include central storage of medications. Clients B1, B2, and B3 had “medication self-administration assessments” done on May 16, 2006, November 16, 2006, and January 9, 2007, respectively. Each of the assessments indicated that the client required central storage of medications. Clients B1, B2 and B3’s Service Plans, which were authenticated on May 24, 2006, November 29, 2006 and January 9, 2007, respectively, lacked central storage of medications and the frequency of supervision and the person providing the service. When interviewed, August 7, 2007, the registered nurse stated she was unaware that central storage of medications needed to be included on the service plan.

2. MN Rule 4668.0855 Subp. 9**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to ensure that medication administration records were complete for one of five clients' (B1) records reviewed who were receiving assistance with medication administration. The findings include:

Client B1 received central storage of medications and medication administration by the facility unlicensed staff. The August 2007 medication record indicated client B1 was to receive Novulin R insulin, six (6) units every day at 5 p.m.; Novulin N insulin, nineteen (19) units every night at bedtime; and calcium with D 315/200, 1 tablet in the a.m. and 2 tablets at 5 p.m. On August 5, 2007, the 5 p.m. insulin was not initialed as given; on August 4, and 5, 2007, the bedtime insulin was not initialed as given; and the label for the calcium with D indicated the dosage that was being administered was 500/125, and the medication administration record indicated the client received one (1) tablet in the morning and two (2) tablets in the pm. The medication administration record lacked documentation of the reason the insulin and calcium were not administered as ordered. When interviewed, August 6, 2007, the licensed practical nurse stated that the unlicensed staff who administered the insulin on August 4 and 5, 2007, had given the insulin, however, she had not documented the administration of the medication. When interviewed, August 6, 2007, client B1 stated he thought he had received his insulin on August 4 and 5, 2007, at 5 p.m. and at bedtime. When interviewed, August 6, 2007, the LPN stated she had been unaware that client B1 had purchased the calcium with D over the counter and that the dosage was not the same as was documented on the medication administration record.

3. MN Rule 4668.0865 Subp. 3**INDICATOR OF COMPLIANCE: # 6**

Based on observation and interview the licensee failed to maintain a system that addressed the control of medications for one of two current clients' (A1) records reviewed at site A and one of two current clients' (B1) records reviewed at site B. The findings include:

Client A1 had a Doctor's order dated July 11, 2007 for "ASA EC 81 mg 1 po qd with food as heart preventative" and " Sanctura 20 mg po qd". The medications were not documented as being administered on the medication administration record. When interviewed, August 6, 2007, the licensed practical nurse (LPN)/manager stated the medications had been discontinued in December. She further stated that a system was needed to be certain that old orders were not included in the list of orders for the doctor to sign.

Client B1 received medication administration including insulin injections by the unlicensed staff. The July and August 2007 medication administration records (MAR) indicated the "nurse to set up insulin PRN". However, the MAR lacked documentation that the insulin was set up by the licensed practical nurse (LPN). When interviewed, August 6, 2007, the LPN stated that she drew up the insulin and was unaware that she needed to document setting up of the insulin syringes.

A draft copy of this completed form was left with Mary Barnard, LPN/Manager, at an exit conference on August 7, 2007. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
