Re: Results of State Licensing Survey

Dear Mr. Bloemke:

The above agency was surveyed on November 1, 2, and 3, 2006, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive, flowing style.

Jean Johnston, Program Manager

Assisted Living Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Assisted Living home care providers (ALHCP). ALHCP licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Assisted Living Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the ALHCP home care regulations. Any violations of ALHCP licensing requirements are noted at the end of the survey form.

Name of ALHCP: WELCOME HOME HEALTH CARE

HFID #: 21855

Date(s) of Survey: November 1, 2, and 3, 2006

Project #: QL21855001

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other violations may be cited depending on what systems a provider has or fails to have in place and/or the severity of a violation. Also, the results of the focused licensing survey may result in an expanded survey where additional interviews, observations, and documentation reviews are conducted.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0065 Subp. 1

AREA OF COMPLIANCE: # 5

Based on record review and interview, the licensee failed to ensure that tuberculosis screening was completed for one of two unlicensed employee's (#2) records reviewed. The findings include:

Employee B began employment for the licensee, as a direct care provider, May of 2006. There was no evidence of tuberculosis screening for employee B. When interviewed, November 2, 2006, the registered nurse (RN) stated employee B informed her that she had obtained a Mantoux at the local clinic however; she did not go back to the clinic to have it read. The RN stated employee B told her she had her mother, who is a nurse read it and it was negative.

2. MN Rule 4668.0815 Subp. 4

AREA OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to provide a complete service plan for three of three clients' (#1, #2 and #3) records reviewed. The findings include:

Clients #1, #2 and #3's service plans, dated January of 2006; September of 2003; and March of 2004, respectively, lacked the action to be taken by the assisted living home care provider licensee, client, and responsible person if scheduled services could not be provided.

Additionally, client #2's care plan, which was last reviewed by the registered nurse (RN) October of 2006, indicated the client had been receiving medication administration four times a day since May of 2005. A modification to the Service Plan (no date) had been made to include "medication administration" four times a day; however, the documentation lacked the date the service was to be initiated, the schedule or frequency of sessions of supervision and the fee for this service.

When interviewed, November 2, 2006, the housing director stated that the facility would always have staff available to provide services. On November 2, 2006, the registered nurse stated she inadvertently missed the date on the modification to the service plan for the service and was unaware the fee and supervision schedule needed to be included on the modification.

3. MN Rule 4668.0860 Subp. 2

AREA OF COMPLIANCE: # 6

Based on record review and interview the licensee failed to have a written prescriber order for medication for one of three clients' (#1) records reviewed. The findings include:

Client #1's February 2006 medication administration record indicated the client had received medication administration of twelve medications including insulin from early in February of 2006 onward. The record lacked any prescriber's orders for medications until seventeen days later in February of 2006. When interviewed, November 1, 2006, the registered nurse stated staff provided assistance with all medication administration for client #1 since her admission on February 3, 2006. She stated that orders had not been obtained from the physician because the client had transferred from another area and had been in the process of switching to a local physician, who would not write the medication orders until the client had been seen by the physician. She confirmed there were no orders for medications until the date that was seventeen days later in February of 2006.

A draft copy of this completed form was left with Barbara Gerber RN, and Susan Jutz, Housing Director, at an exit conference conducted by teleconference on November 3, 2006. Any correction orders issued as a result of the on-site visit and the final Licensing Survey Form will arrive by certified mail to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After supervisory review, this form will be posted on the MDH website. General information about ALHCP is also available on the MDH website:
