Re: Results of State Licensing Survey

Dear Ms. Jaeckels:

The above agency was surveyed on August 7, 8, and 9, 2007, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive style.

Jean Johnston, Program Manager

An equal opportunity employer

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: COUNTRY VIEW SENIOR COMMUNITY

HFID #: 23778

Date(s) of Survey: August 7, 8, and 9, 2007

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0815 Subp. 3

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure that the client or the client’s responsible person agreed in writing to a service plan modification for one of three clients’ (#2) records reviewed. The findings include:

Client #2’s service plan, dated March 2007, indicated that assistance with medication/ medication administration services were to be provided to the client. A review of the client’s medication administration records for March, April, May, June and July 2007 lacked documentation that the service was being provided.

When interviewed August 8, 2007, employees A and B indicated that they do not provide the client with assistance with medication and/or medication administration. The employees indicated that they just remind the client to take her medications. When interviewed August 8, 2007, client #2 indicated that she has been independently taking her medications ever since she returned from the hospital and nursing home. When interviewed August 8, 2007, the registered nurse indicated she was not aware that the client was taking her own medications.

2. MN Rule 4668.0815 Subp. 4**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to provide a complete service plan for two of three clients' (#1 and #3) records reviewed. The findings include:

Client #1's service plan, dated March 2007, indicated the client was to receive medication assistance/administration, supervision of glucose testing, supervision of insulin administration, safety checks by the universal worker four times per day, and a supervisory visit schedule of 14 and 62 days. There was no fee listed for any of the services.

Client #3's service plan, dated January 2006, indicated that bathing, behavior, orientation, self preservation, registered nurse (RN) supervision and "Ind. Socialization" services were provided. The service plan listed "EW (elderly waiver)" under the fees for services. When interviewed August 8, 2007, the RN indicated that she did not know what the fees would be.

3. MN Rule 4668.0835 Subp. 2**INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview, the licensee failed to ensure unlicensed persons performing delegated nursing services successfully completed training or demonstrated competency in the required topics for two of two unlicensed employees (#A and #B) reviewed. The findings include:

Employee #A and B were hired as universal workers in August 2006 and October 2006, respectively. Their records lacked documentation that they had been trained or passed a competency evaluation of the core curriculum topics. Their records indicated they had only received orientation to home care requirements.

When interviewed August 8, 2007, the registered nurse stated she was unaware of the need to do competency testing and was also not aware of the home health competency evaluation checklist that was in the facility's orientation packet.

4. MN Rule 4668.0855 Subp. 4**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to ensure that the registered nurse (RN) instructed unlicensed personnel on the procedures for assistance with self-administration of medications or medication administration for one of two unlicensed employees (B) reviewed. The findings include:

Employee B was hired as a universal worker in October 2006 and administers medications. Her records lacked documentation that she had been trained and demonstrated competency in the delegated task of self-administration or medication administration prior to providing the service.

When interviewed August 8, 2007, the RN indicated that she had trained employee B on medication administration prior to providing the delegated task, however she could not find documentation of the training. When interviewed August 8, 2007, employee B indicated that she had been trained by the RN nurse on medication administration.

5. MN Rule 4668.0855 Subp. 9

INDICATOR OF COMPLIANCE: # 6

Based on record review and interview, the licensee failed to ensure that medication records were complete for one of three clients' (#1) records reviewed. The findings include:

Client #1's medication records for June and July 2007 lacked initials that all medications had been administered at the specified dates and times. For example, the Calcium with D, Theophylline ER, Lorazepam, Furosemide, Lidocaine Patch, Serevent Diskus, Xopenex, Sinemet, Neurontin, Miralax, Potassium, Colace and Celexa were not always documented as given.

When interviewed August 8, 2007, the registered nurse indicated that at times the staff forgot to initial the medication administration record after giving the client the medications. When interviewed August 8, 2007, employee B indicated that she always gives the medications, but at times might forget to sign the medication administration record.

A draft copy of this completed form was left with Jane Nelsen, RN, at an exit conference on August 9, 2007. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
