Re: Results of State Licensing Survey

Dear Ms. Taylor:

The above agency was surveyed on September 23 and 28, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive style with a large, looped "J" and "N".

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

***Please note:*** Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

**SURVEY RESULTS:**  All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

**1. MN Rule 4668.0815 Subp. 1**

**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to ensure that the client’s service plan was authenticated by the licensee and the client or client’s responsible party for one of one client’s (#1) record reviewed. The findings include:

Client # 1 was admitted to the agency on September 2, 2005. The service plan was not dated and lacked authentication by the licensee or the client or client’s responsible party. When interviewed September 23, 2009, the manager verified that client #1’s service plan lacked the date and signatures. She stated the client’s daughter had a copy of the service plan.

**2. MN Rule 4668.0835 Subp. 4****INDICATOR OF COMPLIANCE: # 5**

Based on observation, record review and interview the licensee failed to ensure that employees had successfully completed training and passed a competency evaluation for one of one unlicensed employee's (A) record reviewed who performed delegated nursing functions. The findings include:

Employee A was hired May 2006 to provide direct care and perform delegated nursing functions including medication administration and insulin administration for clients. There was no documentation in the employee's file of training and competency evaluation.

When interviewed September 28, 2009, the registered nurse confirmed that employee A had training but did not have the documentation for the competency evaluations.

**3. MN Rule 4668.0845 Subp. 2****INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for one of one client's (#1) record reviewed. The findings include:

Client #1 began receiving services September 2, 2005. Client #1's service plan noted she was receiving shower assistance two times a week, assistance with catheter care, medication administration (including insulin administration) and personal laundry service. There was no evidence of RN supervisory visits in the record.

When interviewed September 23, 2009, the manager confirmed that supervisory and/or monitoring visits had not been done for the clients.
