Re: Results of State Licensing Survey

Dear Ms. Anderson:

The above agency was surveyed on March 7 and 8, 2007, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in cursive script that reads "Jean M. Johnston".

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: SERENITY ASSISTED LIVING INC

HFID #: 24327

Date(s) of Survey: March 7, & 8, 2007

Project #: QL24327002

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0815 Subp. 4

AREA OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to provide a complete service plan for two of two current clients (#1 and #2) records reviewed. The findings include:

Client #1’s service plan dated October of 2006, included medication administration, bathing, housekeeping, and insulin injections. Client #2’s service plan dated November of 2006 included medication administration, bathing and housekeeping. The service plans did not identify the persons providing the service, frequency of service and supervision, fees for service, or contingency plan if essential services can not be provided.

When interviewed March 7, 2007, the registered nurse confirmed both service plans were incomplete and the owner indicated she recently attended training and realized she needed to revise the service plans.

2. MN Rule 4668.0845 Subp. 2**AREA OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to have a registered nurse (RN) supervise unlicensed staff who performed services that required supervision for two of two current client (#1 and #2) records reviewed. The findings include:

Client #1 began receiving services October of 2006 which included of medication administration and insulin injections. Client #2 began receiving services November of 2006, that included medication administration and bathing. There was no documentation in either of the client's records of an RN supervising visit or monitoring visit within 14 days after initiation of services. When interviewed March 8, 2007, the RN stated she was unaware a supervisory visit within the 14 day period was required so had not been doing the 14 day supervisory visits since the home opened for services in April of 2006. She stated she had been doing the 62 day supervisory visits. When interviewed March 8, 2007, the owner confirmed the 14 day supervisory visits had not been done.

A draft copy of this completed form was faxed to Elaine and Tim Anderson and an exit conference by phone was conducted on March 9, 2007. Any correction orders issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
