Re: Results of State Licensing Survey

Dear Mr. Mowbray:

The above agency was surveyed on June 28 and July 2, 3, and 13, 2007, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in cursive script that reads "Jean M. Johnston".

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: ACCESSIBLE SPACE ASI METRO 1

HFID #: 24380

Date(s) of Survey: June 28, July 2, 3 and 13, 2007

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0805 Subp. 2

INDICATOR OF COMPLIANCE: # 3

Based on record review and interview, the licensee failed to ensure orientation to home care requirements was complete for three of three employees' (A, B and C) records reviewed. The findings include:

There was no documented evidence of orientation to home care in employee's (B) record. When interviewed July 2 and 3, 2007, employee (B) stated that she had no documented evidence of orientation to home care. Employees A, and C had evidence of having training related to orientation to home care. On July 9, 2007, the agency faxed information on employees A, B and C including a copy of the training materials covered in orientation to home care which lacked the required content related to the home care statutes, home care rules, the Vulnerable Adult Act and handling of emergencies.

2. MN Rule 4668.0815 Subp. 4**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to provide a complete service plan for three of three clients' (#1, #2 and #3) records reviewed. The findings include:

Client #1 began receiving services October of 2006, the service plan dated October of 2006, and modified January of 2007, stated he was to receive medication administration assistance with set-up and reminders, assistance with bathing, grooming and dressing. The service plan did not include the persons who would provide the service, the frequency of the services or a contingency plan.

Client #2 began receiving services October of 2006, the service plan dated October of 2006, stated that he received assistance with medication administration set up, dressing, bathing and transferring. The service plan did not include the person who would provide the services or a contingency plan.

Client #3 began receiving services March of 2007, the service plan dated March of 2007, stated he received assistance with medication administration set-up, bathing, grooming and dressing. The service plan did not include the person who would provide the service or a contingency plan.

When interviewed July 2, 2007, the registered nurse verified that the services plans did not consistently include the person who would provide the service frequency of services or a contingency plan and stated she began the process of revising the service plan to include the required documentation.

3. MN Rule 4668.0845 Subp. 2**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for three of three clients' (#1, #2 and #3) records reviewed. The findings include:

Client #1 began receiving services October of 2006. The service plan dated October of 2006, and modified January 31, 2007, stated he was to receive medication administration assistance with set-up and reminders, assistance with bathing, grooming and dressing. There were supervisory visits documented by the registered nurse (RN) on December 12, 2006, April 16 2007 and June 11, 2007 however these supervisory visit notes stated that unlicensed staffs are not present during the supervisory visits. There was no evidence of staff presence for supervision by the RN.

Client #2 began receiving services October of 2006. The service plan dated October of 2006, read that he was to receive medication administration assistance set up, dressing, bathing and transferring. There were supervisory visits documented by the RN on January of 2007, February of 2007, April of 2007 and June of 2007 however these supervisory visit notes stated that unlicensed staffs are not present during the supervisory visits. These supervisory visits contained limited documentation that only stated that client #2 was independent with medication administration or were left blank. The record contained an assessment, by the RN, for the need for medication reminders and assistance dated November of 2006. It indicated that client #2 required assistance with self administration of medication. The supervisory visit notes stated that unlicensed employees were not present during the supervisory visits.

When interviewed, July 2, 2007, the RN stated, that she did not involve unlicensed staff members as part of the supervisory visits with the clients.

A draft copy of this completed form was faxed to Timothy Mowbray, Chief Operating Office, and Lynda Adams, Contract Administrator on July 13, 2007. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
