March 12, 2009

Gary Hjelmstad, Administrator Catered Care Services 400 Evans Avenue Elk River, MN 55330

Re: Results of State Licensing Survey

Dear Mr. Hjelmstad:

The above agency was surveyed on January 30 and February 2, 3, and 4, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

Jean Johnston, Program Manager

Jean M. Johnston

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: CATERED CARE SERVICES

<u>Please note</u>: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0825 Subp. 4

INDICATOR OF COMPLIANCE: #5

Based on record review and interview the licensee failed to retain documentation of demonstrated competency of an unlicensed personnel to perform a delegated nursing service for two of two unlicensed direct care staff (AA and BB) records reviewed. The findings include:

Client A1's Home Health Aid Task form for January 25 through January 31, 2009 indicated the care assistants were to do "Bed Time Visit' as per special instruction in green book". The special instruction sheet indicated that the "bed time visit" consisted of: verbal reminders to take evening pills; fill portable oxygen tank; turn large oxygen tank off; bring portable oxygen tank into the bedroom and dial to two liters and see that client was hooked up to it. On August 27, 2008, employee AB, an unlicensed direct care staff, indicated with her initials that she performed this "bed time visit." Employee AB's record lacked evidence of training and demonstrated competency to perform oxygen tasks.

When interviewed, February 2, 2009, employee AB stated the registered nurse had trainer her on oxygen administration "last summer." When interviewed, February 3, 2009, the registered nurse (RN) stated she knew the staff had been trained but she could not provide documentation of this training or the demonstrated competency for employee AB.

Client B1's Home Health Aid Task form for February 1, 2009 through February 7, 2009, indicated the client received medication assistance in the morning and at bedtime. The instructions for insulin administration stated; "client is to administer insulin herself, ok to verbally guide her." Employee BB assisted client B with self administration of insulin on February 3, 2009. Employee BB's record lacked evidence of training and demonstrated competency to perform assistance with administration of insulin.

When interviewed, February 3, 2009, employee BB stated that she assisted client B1 with checking her blood sugar and then handed her the pre-filled insulin syringe for the client to self-inject. Employee BB stated she had been instructed by the registered nurse on the administration of insulin. When interviewed, February 3, 2009, the registered nurse stated the care assistants had been instructed on assisting with the administration of the insulin, however, she did not have documentation of employee BB's demonstrated competency.

2. MN Statute §626.557 Subd. 14(b)

INDICATOR OF COMPLIANCE: #3

Based on record review and interview the licensee failed to develop an individual abuse prevention plan for two of two client (A1 and B1) records reviewed. The findings include:

Client A1's client assessment, dated July of 2008, indentified "susceptibility to abuse: physical handicap, physical limitations, weak, and debilitated" as vulnerabilities. The record lacked a plan of specific measures to be taken to minimize the risk of abuse to the client.

Client B1's client assessment, dated October of 2008, indentified "susceptibility to abuse: physical limitations, weak, debilitated, lives alone" as vulnerabilities. The record lacked a plan of specific measures to be taken to minimize the risk of abuse to the client.

When interviewed, February 2, 2009, the registered nurse confirmed the plans were missing.

A draft copy of this completed form was faxed to <u>Katrina Kolasa, RN</u>, at an exit conference on <u>February 4, 2009</u>. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website. Re: Telephone Interview

Dear Mr. Hjelmstaf:

The information discussed during a telephone interview conducted by staff of the Minnesota Department of Health, Case Mix Review Program, on (date) is summarized in the enclosed documents listed below:

<u>Telephone Interview and Education Assessment form</u>

A summary of the items discussed during the phone interview and a listing of the education provided during the interview

Resource Sheet for Home Care Providers

A listing of web-sites and documents useful to home care providers in assuring compliance with home care regulations

Please note, it is your responsibility to share the information contained in this letter and the information from this interview with your direct care staff and the President of your facility's Governing Body.

If you have any questions, please feel free to call our office at (651) 201-4301.

Sincerely,

Jean Johnston, Program Manager Case Mix Review Program

Class A and Class F Home Care

Telephone Interview and Education Assessment

Registered nurses from the Minnesota Department of Health (MDH) use this form to document telephone interviews and education of newly licensed Class F and Class A (licensed only) Home Care Providers as well as other providers who have not been surveyed by Case Mix Review staff.

Licensing requirements listed below were reviewed during a telephone interview. Information from this interview along with other data will be considered when making decisions regarding the timing of an on site survey. The noted topics were discussed during the telephone interview and education was provided in the checked areas.

Name of Home Care Licensee: Catered Care Services
