Champlin, MN 55316

Re: Results of State Licensing Survey

Dear Mr. Wings:

The above agency was surveyed on March 2, 3, and 4, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive style with a large, looped initial "J".

An equal opportunity employer

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: CHAMPLIN COMFORTS OF HC LLC

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0815 Subp. 4

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to provide complete contingency plans for one of one client’s (#1) records reviewed. The findings include:

Client’s #1’s service plan, dated December of 2008, did not include information on the method for a client or the client’s responsible person to contact a representative of the assisted living home care provider licensee whenever staff was providing services.

When interviewed March 3, 2009, the registered nurse verified the contingency plan did not contain this information.

2. MN Rule 4668.0855 Subp. 9

INDICATOR OF COMPLIANCE: # 6

Based on record review and interview the licensee failed to ensure that medications were administered and documented as prescribed for one of one client’s (#1) records reviewed. The findings include:

On January 29, 2009 client #1's MAR documentation lacked evidence of administration of two 8 PM medications, including insulin. On January 31, 2009, MAR documentation lacked evidence of administration of one 12 PM medications. Client #1's February 2009 medication administration record (MAR) indicated that the client received seven medications daily including insulin. The February 22, 2009 MAR documentation lacked evidence of administration of one 4 PM, one 6 PM and four 8 PM medications.

When interviewed, March 3, 2009, the licensed practical nurse (LPN), who set up the medications for client #1, stated that if the medications remained in the medi-planner at the end of the seven days, she would interview the unlicensed personnel who were to administer the medications on that day to determine if the client had refused them or if they had not been administered. The LPN stated that the medi-planner for client #1 did not have remaining medications in them for the above dates, which would indicate that the medications were administered and not documented. However, the ibuprofen was a liquid medication that the unlicensed personnel set-up and administered and the triamcinolone was a cream. The LPN stated she could not determine if these medications were administered and not documented or not administered and not documented. The record lacked documentation as to why the medications were not administered as ordered.

3. MN Rule 4668.0860 Subp. 7

INDICATOR OF COMPLIANCE: # 6

Based on record review and interview the licensee failed to obtain a prescriber's signature on orders for one of one client (#1) record reviewed. The findings include:

Client #1 had telephone orders for medications and treatments, dated October 31, 2008, August 22, 2008, August 18, 2008, August 5, 2008, July 25, 2008, and June 10, 2008 that were not signed by a prescriber.

When interviewed March 3, 2009, the registered nurse stated that client #1's hospice nurse had obtained these telephone orders from the physician and had not obtained the physician signatures on these orders.

A draft copy of this completed form was faxed to Kyndra Lamberth, RN and Tawnee Lorenzo, Housing Director, at an exit teleconference on March 4, 2009. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website. Re: Telephone Interview

Dear Mr. Winges,

The information discussed during a telephone interview conducted by staff of the Minnesota Department of Health, Case Mix Review Program, on May 6, 2008, is summarized in the enclosed documents listed below:

Telephone Interview and Education Assessment form

A summary of the items discussed during the phone interview and a listing of the education provided during the interview

Resource Sheet for Home Care Providers

A listing of web-sites and documents useful to home care providers in assuring compliance with home care regulations

Please note, it is your responsibility to share the information contained in this letter and the information from this interview with your direct care staff and the President of your facility's Governing Body.

If you have any questions, please feel free to call our office at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston".

Jean Johnston, Program Manager
Case Mix Review Program

Class A and Class F Home Care
Telephone Interview and Education Assessment

Registered nurses from the Minnesota Department of Health (MDH) use this form to document telephone interviews and education of newly licensed Class F and Class A (licensed only) Home Care Providers as well as other providers who have not been surveyed by Case Mix Review staff.

Licensing requirements listed below were reviewed during a telephone interview. Information from this interview along with other data will be considered when making decisions regarding the timing of an on site survey. The noted topics were discussed during the telephone interview and education was provided in the checked areas.
