Re: Results of State Licensing Survey

Dear Ms. Nagata:

The above agency was surveyed on March 13 and 14, 2008, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive style with a large, looped "J" and "N".

Jean Johnston, Program Manager

An equal opportunity employer

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: NAGOMI INC

HFID #: 25215

Date(s) of Survey: March 13 and 14, 2008

Project #: QL25215001

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0065 Subp. 1

INDICATOR OF COMPLIANCE: # 5

Based on record review and interview, the licensee failed to ensure that tuberculosis screening was completed for one of one licensed employees (# A) reviewed. The findings include:

Employee A began providing services to clients on June of 2007. There was no evidence in her record tuberculosis screening. When interviewed March 14, 2008 employee A stated that she thought there was documentation in her file of her most recent Mantoux test. She stated that she worked for another home care agency and would get a copy of her Mantoux test for her file.

2. MN Rule 4668.0815 Subp. 1

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview the licensee failed to have a registered nurse (RN) complete an individualized evaluation of the client’s needs no later than two weeks after initiation of assisted living home care services for one of one clients (#1) records reviewed. The findings include:

Client #1 began receiving services June of 2007. The RN implemented, signed and dated a home health aide care plan for the client on June of 2007. There was no documentation of an initial evaluation or assessment of the clients needs by the RN in the client record. When interviewed March 13, 2008 the RN stated that she did the care plan after admitting the client but she did not have an initial assessment form so there is no documentation of her assessment.

3. MN Rule 4668.0815 Subp. 4

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to provide a complete service plan for one of one client (#1) records reviewed. The findings include:

Client #1 began receiving services on June of 2007. There was a care plan in her record with a description of services to be provided but the plan lacked frequency of each service, identification of persons who are to provide the services, schedule of sessions for supervision, fees for each service and a plan for contingency action. This information was no where else in the record either. When interviewed March 13, 2008 the RN stated that she didn't realize that all those components needed to be on the service plan.

4. MN Rule 4668.0845 Subp. 2

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for one of one client (#1) records reviewed. The findings include:

Client #1 began receiving services June of 2007 including assistance with medication administration and glucose monitoring from unlicensed staff. There was no evidence of supervisory visits by the RN in her record. When interviewed March 13, 2008 the nurse stated that she saw the client once a week to see how she's doing, set up medications and address any problems. She stated she wasn't aware that she had to do the supervisory visits and document them.

5. MN Rule 4668.0865 Subp. 9

INDICATOR OF COMPLIANCE: # 6

Based on observation and interview, the licensee failed to provide a separate locked compartment that was permanently affixed to the physical plant for storage of schedule II drugs. The findings include:

During a tour of the medication storage area on March 13, 2008 it was observed that the schedule II drugs were placed in a separate locked container placed on a cabinet next to the desk. The home health aide stated that client #1 was on Vicodin which was kept in the locked container. The container was not permanently affixed to the cabinet surface or the wall. The findings were reviewed with the registered nurse via phone and the administrator on March 14, 2008.

A draft copy of this completed form was left with Shoichi Nagata at an exit conference on March 14, 2008. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
