Olivia, MN 56277

Re: Results of State Licensing Survey

Dear Ms. Hatch:

The above agency was surveyed on February 5, 6, and 7, 2008, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive style.

Jean Johnston, Program Manager

An equal opportunity employer

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: EVERGREEN PLACE INC - ROSEWOOD

HFID #: 25225

Date(s) of Survey: February 5, 6 and 7, 2008

Project #: QL25225001

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

SURVEY RESULTS: All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0815 Subp. 1

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to have a registered nurse (RN) establish a service plan for three of three client's (#1, #2 and #3) records reviewed. The findings include:

The service plans for client # 1, #2 and #3 dated July of 2007, June of 2007, and July of 2007, respectively were all established by the owner/administrator, not a RN. When interviewed February 6, 2008, the owner stated that she did the admission packet, and service agreements for the clients.

2. MN Rule 4668.0815 Subp. 4

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure service plans were complete for two of three clients' (#1 and # 2) records reviewed. The findings include:

Clients #1 and #2 both received central storage of medications, medication administration and assistance with dressing, grooming, bathing, transferring and wheeling. Their service plans, dated July of 2007 and June of 2007, respectively, did not include these services. When interviewed February 6, 2008, the owner confirmed the service plans were incomplete.

3. MN Rule 4668.0845 Subp. 2

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for two of three clients' (#1 and #3) records reviewed. The findings include:

Client #1's RN re-evaluation sheet, dated June 7, 2007 noted she was a total care client. The most recent supervisory visit documented was dated July 6, 2007.

Client #3's discharged summary record dated September 29, 2007 indicated that she was a total care client. The services provided were medication administration, central storage of medications, food preparation, housekeeping, and personal laundry service. The only RN supervisory visit in the record was dated July 6, 2007.

During an interview February 6, 2008, the licensed practical nurse confirmed that supervisory and/or monitoring visits had not been done every 62 days for the clients. Via telephone on February 6, 2008, the registered nurse confirmed that she missed supervisory visits.

4. MN Rule 4668.0855 Subp. 9

INDICATOR OF COMPLIANCE: # 6

Based on record review and interview, the licensee failed to have complete medication records for three of three clients' (#1, #2 and #3) records reviewed. The findings include:

Current clients' #1, #2 and discharged client #3 had weekly medication set-up by the licensed practical nurse. The licensed practical nurse that performed the weekly set-up of medication did not document the medication set-up.

Client #2's medication administration record dated January, 2008 indicated that Furosemide 20 mg and Tylenol 1000 mg were not signed off on January 20, at 8 p.m. and Duoneb treatment was not signed off 6 times during the month. There was no documentation as to why the medication was not given or any follow up procedures that were provided.

When interviewed, February 6, 2008, the licensed practical nurse verified that she had not sign off the medications that she had set up and that some initials of the unlicensed staffs were missing in the medication administration record for January, 2008.

5. MN Rule 4668.0865 Subp. 9**INDICATOR OF COMPLIANCE: # 6**

Based on observation and interview, the licensee failed to ensure that controlled medications were kept in a separate locked compartment that was permanently affixed to the physical plant for one of three current client (#4) records reviewed. The findings include:

During a tour of the medication storage area on February 6, 2008, it was observed that client # 4's Tylenol # 3 was kept in the same plastic bag of medications that was in a locked box but was not permanently affixed to the physical plant.

When interviewed, February 6, 2008, the licensed practical nurse indicated that she forgot to lock the medication in the narcotic box which is a separate compartment that is permanently affixed to the physical plant.

A draft copy of this completed form was left with Dolores Hatch at an exit conference on February 7, 2008. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
