Re: Results of State Licensing Survey

Dear Ms. Larson:

The above agency was surveyed on November 19, 20, and 23, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston".

Jean Johnston, Program Manager

Class F Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class F home care providers (Class F). Class F licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate to MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, talk with clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to explain to the MDH nurse what systems are in place to provide Class F Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance box. This form must be used in conjunction with a copy of the Class F home care regulations. Any violations of Class F Home Care Provider licensing requirements are noted at the end of the survey form.

Name of CLASS F: OLD MAIN VILLAGE

***Please note:*** Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings of the focused licensing survey may result in an expanded survey.

**SURVEY RESULTS:**  All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

**1. MN Rule 4668.0815 Subp. 4**

**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to provide complete contingency plans for one of one client’s (#1) record reviewed. The findings include:

Client#1’s service plan, dated August 1, 2009, did not include information on the method for a client to contact a representative of the licensee whenever staff provided services.

When interviewed November 19, 2009, the registered nurse verified there was no method on the service plan for clients to contact a representative of the licensee when cares were being provided.

**2. MN Statute §144A.44 Subd. 1(2)**

**INDICATOR OF COMPLIANCE: # 2**

Based on record review and interview the licensee failed to provide medical or nursing services according to acceptable professional standards. The findings include:

Client #1 was admitted and began receiving services April 25, 2009. Physician orders, dated, May 1, 2009, included "Ibuprofen 400 mg by mouth, 1 tab 3 times daily," and "Percocet 5/325 mg every 6 hours as needed."

On September 6, 2009, the medication sheet indicated the Ibuprofen was changed to pro re nata (PRN) but no order was found for this change. The November 2009 communication book indicated unlicensed direct care staff addressed the client's pain. On November 6, 2009, client #1 had a clinic referral for a F/U (follow up.) There was no communication to the physician regarding the client's ongoing pain.

When interviewed, November 20, 2009, client #1 stated at times the pain "was fierce." There was no administration of the PRN Percocet in September, October or November 2009.

Physician orders dated, September 24, 2009, stated "Clindamycin HCL 150 mg PRN for pre dental work administer 4 tabs 1 hour prior to procedure to be discontinued on 9/25/09." On November 16, 2009, Clindamycin HCL 150 mg 4 caps were given 1 hour before a dental appointment for a fitting of a night bite guard. No order was found for the medication.

A clinic referral dated September 25, 2009, stated "restart Prednisone 10 mg po qid x 4 days." The October 2009, medication sheet indicated the Prednisone was not given as ordered but instead client #1 received, Prednisone 10 mg four times a day for four days, then 5 mg twice a day for two days, then 2.5 mg a day for 2 days.

A clinic referral dated November 6, 2009, stated, restart Prednisone. November 2009, medication sheet indicated the Prednisone was again tapered, as listed above without an order to taper.

When interviewed, November 19, 2009, the registered nurse (RN) was unable to find orders to taper the Prednisone or restart the antibiotic. No clarification was obtained. She stated a discussion was held with the physician, at an unknown date regarding the client #1's pain and he thought client #1 was using too much ibuprofen, so suggested they try it PRN. No verbal order was documented. When interviewed, November 20, 2009, the RN stated she needed to educate staff on the use of PRN medications.

---

A draft copy of this completed form was left with Marilyn Larson, RN, Executive Director, at an exit conference on November 23, 2009. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website. Class F Home Care Provider general information is available by going to the following web address and clicking on the Class F Home Care Provider link:
