Re: Results of State Licensing Survey

Dear Ms. Melstrom:

The above agency was surveyed on September 22 and 23, 2008, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

## Class A Licensed-Only Home Care Provider

## LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class A Licensed-Only Home Care Providers. Class A licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate with MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to describe to the MDH nurse what systems are in place to provide Class A Licensed-Only Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance. This form must be used in conjunction with a copy of the Class A Licensed-Only Home Care regulations. Any violations of the Class A licensing requirements are noted at the end of the survey form.

***Please note:*** Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings, of the focused survey may result in an expanded survey.

**SURVEY RESULTS:** \_\_\_\_ All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

**1. MN Rule 4668.0100 Subp. 9****INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for one of one client (#1) records reviewed. The findings include:

Client #1 began receiving services on March of 2008. She became ill and received care in settings away from home from April of 2008 to August of 2008 when she resumed receiving home care services from the licensee. Client #1's record indicated that she received assistance with medication administration daily and intermittent catheterization from August 13- 15, 2008, performed by the home health aides. There was documentation in her record of skilled nursing visits by the registered nurse on August 7, 13 and 19, 2008 but there was no evidence that these were supervisory visits. The latest supervisory visit in the client record was dated April 3, 2008. There were no supervisory visits documented for September 2008.

When interviewed, September 23, 2008, the administrator stated that they were doing supervisory visits for all clients every sixty days. She stated she did not realize that clients who received certain delegated nursing procedures from the home health aides must be supervised every fourteen days. She stated that all skilled nursing visits include a supervisory visit but it was not documented as such.
