March 28, 2008

Pa Yang, Administrator Express Home Health Care 367 Earl Street St Paul, MN 55106

Re: Results of State Licensing Survey

Dear Ms. Yang:

The above agency was surveyed on March 12 and 13, 2008, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

Jean M. Johnston

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class A Licensed-Only Home Care Providers. Class A licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate with MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to describe to the MDH nurse what systems are in place to provide Class A Licensed-Only Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance. This form must be used in conjunction with a copy of the Class A Licensed-Only Home Care regulations. Any violations of the Class A licensing requirements are noted at the end of the survey form.

Name of Class A Licensee: EXPRESS HOME HEALTH CARE

<u>Please note</u>: Although the focus of the licensing survey is the regulations listed in the Indicators of *Compliance* boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings, of the focused survey may result in an expanded survey.

SUR<u>VEY RESULTS:</u> All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1). MN Rule 4668.0065 Subp. 1

INDICATOR OF COMPLIANCE: #5

Based on record review and interview, the licensee failed to ensure tuberculosis screening was completed for one of two employee (#B) records reviewed. The findings include:

Employee B began working for the agency December of 2006 as a direct care staff. The licensee was unable to provide any evidence employee B had the results of tuberculosis screening before employment with the agency. When interviewed on March 12, 2008, the administrator stated she was unaware a tuberculosis screening was required for employees of the agency.

2). MN Rule 4668.0075 Subp. 1

INDICATOR OF COMPLIANCE: #5

Based on record review and interview, the licensee failed to provide orientation to home care as required for employees prior to providing direct care for two of two employees' (A and B) records reviewed. The findings include:

Employees A and B began working for the agency October of 2006 and December of 2006 respectively, as direct care staff. There was no evidence employee A or B received orientation to the home care requirements prior to providing home care services. When interviewed, March 12, 2008, the administrator stated that employees A and B had not received any orientation to the home care requirements because she was unaware of this requirement.

3). MN Rule 4668.0100 Subp. 9

INDICATOR OF COMPLIANCE: #1

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for one of one client (#1) records reviewed. The findings include:

Client #1 began receiving services February 22, 2006 which included assistance with bathing grooming, transfers, and medication reminders. There was no supervisory visit by a licensed nurse between August 1, 2007 and November 13, 2007. When interviewed March 12, 2008, the administrator stated the agency did not employ a licensed nurse from August 2007 until November 2007. The administrator also stated at the time of the survey the licensee did not employ a registered nurse, but interviews had been scheduled.

4). MN Rule 4668.0130 Subp. 2

INDICATOR OF COMPLIANCE: #5

Based on observation, record review and interview, the licensee failed to ensure that two of two unlicensed employees (A and B), who performed delegated nursing functions, had successfully completed training and passed a competency evaluation. The findings include:

Employees A and B began working for the agency October 25, 2006 and December 18, 2006 respectively, as direct care staff. There was no evidence employee A or B received training and passed a competency evaluation.

When interviewed on March 12, 2008, the administrator stated the agency provided the training/competency program for employees hired as personal care attendants. The administrator provided this reviewer with a training packet identified as the complete training provided to each unlicensed employee upon hire. The training packet lacked training in the required topics of orientation to home care; maintenance of a clean, safe and healthy environment; medication reminders; appropriate and safe techniques for client personal hygiene and grooming, care of teeth and gums, care of oral prosthetic devices and assisting with toileting; adequate nutrition and fluid intake; communication skills; reading and recording temperature, pulse and respiration; basic elements of body functioning; physical, emotional and developmental needs of clients; practical skills test for safe transfer, ambulation, range of motion and positioning. When interviewed on March 12, 2008, the administrator confirmed the training lacked the required components.

5). MN Statute §626.557 Subd. 14(b)

INDICATOR OF COMPLIANCE: #3

Based on record review and interview, the licensee failed to assess and develop and individual abuse prevention plan for one of one client (#1) record reviewed. The findings include:

Client #1 began receiving services February 22, 2006 which included assistance with bathing grooming, transfers, and medication reminders. Client #1's record did not contain an individualized assessment of client vulnerabilities as required by this subdivision. When interviewed on March 12, 2008, the administrator stated she was unaware clients of the agency were required to be assessed for vulnerabilities and a plan developed.

A draft copy of this completed form was left with <u>Pa Yang, Administrator</u>, at an exit conference on <u>March 13, 2008</u>. Any correction orders issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
