Re: Results of State Licensing Survey

Dear Mr. Thornton:

The above agency was surveyed on September 26, 29, and 30, 2008, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive style with a large, looped "J" and "N".

Jean Johnston, Program Manager

An equal opportunity employer

Class A Licensed-Only Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class A Licensed-Only Home Care Providers. Class A licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate with MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to describe to the MDH nurse what systems are in place to provide Class A Licensed-Only Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance. This form must be used in conjunction with a copy of the Class A Licensed-Only Home Care regulations. Any violations of the Class A licensing requirements are noted at the end of the survey form.

Name of Class A Licensee: IMANI HOSPITALITY HOMECARE LLC

HFID #: 23580

Dates of Survey: September 26, 29, 30, 2008

Project #: QL23580005

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings, of the focused survey may result in an expanded survey.

SURVEY RESULTS: ___ All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0030 Subp. 4**INDICATOR OF COMPLIANCE: # 2**

Based on record review and interview, the licensee failed to ensure clients received a copy of the Minnesota Home Care Bill of Rights that contained up to date information for one of one client's (#1) record reviewed. The findings include:

Client #1 began receiving services from the licensee January of 2008. The bill of rights provided to the client did not include the current telephone number of the Office of Health Facility Complaints, nor did it include the current address and telephone number of the Office of the Ombudsman for Older Minnesotans. When interviewed September 26, 2008, the owner confirmed the phone number and the address on the bill of rights were not up to date.

2. MN Rule 4668.0070 Subp. 2**INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview the licensee failed to retain documentation of competency testing for delegated nursing procedures for one of one unlicensed employee (B) record reviewed. The findings include:

When interviewed on September 29, 2008, unlicensed employee B stated she had been instructed by the agency registered nurse on colostomy and Foley catheter care for client #1 when she started to provide cares for the client. Employee B indicated the registered nurse observed her provide these cares to the client. The agency was unable to provide any documentation regarding the training and competency training for these tasks that had been delegated to employee B. When interviewed on September 26, 2008, the director of nursing verified she was not documenting the training and competency of the personal care attendants for colostomy and Foley catheter care.

3. MN Rule 4668.0100 Subp. 9**INDICATOR OF COMPLIANCE: # 1**

Based on record review and interview, the licensee failed to ensure that a registered nurse (RN) supervised unlicensed personnel who performed services that required supervision for one of one client (#1) record reviewed. The findings include:

Client #1 began receiving home health aide services January of 2008, which included bathing, transferring, range of motion, colostomy care and Foley catheter care. The client's record contained supervisory visits dated June 2008, August 12, 2008, August 30, 2008 and September 1, 2008. When interviewed, September 26, 2008, the registered nurse stated the agency had recently received the class A license on July 11, 2008 and she was not aware supervisory visits were required for the client every fourteen days.

4. MN Rule 4668.0130 Subp. 3**INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview the licensee failed to ensure that unlicensed personnel who performed home health aide tasks successfully completed a practical skill test administered by a registered nurse for one of one unlicensed employee's (B) record reviewed. The findings include:

Employee B was hired by the licensee as an unlicensed direct care staff November of 2007. Employee B provided cares to client #1 which included bathing, dressing, transferring, and range of motion. There was no evidence of competency testing. When interviewed on September 26, 2008, the owner confirmed that competency testing had not been completed since the agency recently had received their class A license and she was not aware that the personal care attendants had to be competency tested.

A draft copy of this completed form was left with Dontrell Thornton, Administrator, at an exit conference on September 30, 2008. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
