Re: Results of State Licensing Survey

Dear Ms. Lilyquist:

The above agency was surveyed on March 4, 5, and 6, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston". The signature is written in a cursive style with a large, looped "J" and "N".

Jean Johnston, Program Manager

Class A Licensed-Only Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class A Licensed-Only Home Care Providers. Class A licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate with MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to describe to the MDH nurse what systems are in place to provide Class A Licensed-Only Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance. This form must be used in conjunction with a copy of the Class A Licensed-Only Home Care regulations. Any violations of the Class A licensing requirements are noted at the end of the survey form.

Name of Class A Licensee: SENIOR HELPERS

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings, of the focused survey may result in an expanded survey.

SURVEY RESULTS: ___ All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0150 Subp. 2**INDICATOR OF COMPLIANCE: # 6**

Based on observation, record review and interview, the licensee failed to ensure all medications administered were properly documented for one of one client (#1) record reviewed. The findings include:

Client #1's physician order dated January of 2009, ordered Zoloft 50 milligrams (mg) to be administered once per day. The client's medication bottle label indicated 50mg. tablets of Zoloft were in the medication bottle. A home health aide was observed administering the client's medications on March 6, 2009. When the home health aide was documenting the administration of the Zoloft, the March 2009 medication record was documented as 25 mg. of Zoloft had been administered for the five previous days, March 1, 2, 3, 4, and 5, 2009. The January medication administration record had been copied for use for the month of March 2009. The January medication administration record contained the client's previous dosage of Zoloft, which was 25 mg. and the medication record had not been updated to reflect the dosage change ordered by the physician on January 12, 2009. The February 2009, medication administration record listed the correct Zoloft dosage of 50 mg.

When interviewed March 6, 2006, the RN/owner, stated the client's March medication administration record for the Zoloft dosage was incorrect, and she verified with the current physician order that the correct dosage was 50 mg. per day as was reflected on the prescription medication label.

A draft copy of this completed form was faxed to Karen Lilyquist, Administrator, after an exit conference on March 6, 2009. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
