Re: Results of State Licensing Survey

Dear Ms. Hodges:

The above agency was surveyed on March 24, 25, and 26, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

Class A Licensed-Only Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class A Licensed-Only Home Care Providers. Class A licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate with MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to describe to the MDH nurse what systems are in place to provide Class A Licensed-Only Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance. This form must be used in conjunction with a copy of the Class A Licensed-Only Home Care regulations. Any violations of the Class A licensing requirements are noted at the end of the survey form.

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings, of the focused survey may result in an expanded survey.

SURVEY RESULTS: ___ All Indicators of Compliance listed above were met.

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0040 Subp. 2**INDICATOR OF COMPLIANCE: # 2**

Based on record review and interview, the licensee failed to provide clients with a complete written notice related to the procedure for making a complaint. The findings include:

A review of the licensee's "Notice of Privacy Practices" information that was provided to clients upon admission included a complaint procedure. The complaint procedure did not contain the statement regarding the right to complain to the Minnesota Department of Health, Office of Health Facility Complaints.

When interviewed March 24, 2009, employee B confirmed that the statement regarding the right to complain to the Minnesota Department of Health, Office of Health Facility Complaints was not in the material provided to the clients.

2. MN Rule 4668.0065 Subp. 3**INDICATOR OF COMPLIANCE: # 5**

Based on record review and interview, the licensee failed to ensure annual infection control in-service training was provided for one of two employees (A) reviewed. The findings include:

Employee A was hired February 22, 2007 as professional direct caregiver. Documentation indicated that employee A had infection control training on March 5, 2007.

When interviewed, employee A indicated she probably had taken infection control continuing education units, but she was unable to provide documentation of the training. When interviewed, employee C indicated the training was to be done according to the employee's anniversary hire date.

3. MN Rule 4668.0100 Subp. 2**INDICATOR OF COMPLIANCE: # 6**

Based on record review and interview, the licensee failed to ensure that unlicensed persons who performed delegated nursing tasks successfully completed training and demonstrated competency in the required topics, for one of one unlicensed employee (B) record reviewed. The findings include:

Employee B was hired January 10, 2008, as personal care attendant to perform delegated nursing tasks. When interviewed March 25, 2009, employee B indicated that she administered eye drops to client #1. She indicated that client #1 pulls down her lower eye lid and she (employee B) then instills the drop into the client's eye.

Employee B's training record, dated January 13, 2008, indicated she had received training for assistance with self administration of medications. There was no record of training or competency for administration of eye drops.

Nurses notes for client #1, dated February 13, 14, 23, and March 10 and 22, 2009, indicated three other employees had also administered eye drops to the client.

When interviewed March 25, 2009, employee C indicated the unlicensed employees had not been trained in the administration of eye drops, because they were not supposed to do it.

4. MN Rule 4668.0140 Subp. 2

INDICATOR OF COMPLIANCE: # 1

Based on record review and interview, the licensee failed to ensure that service agreements were complete for one of one client (#1) record reviewed. The findings include:

Client #1's service agreement, dated January 15, 2009, did not indicate the frequency of supervision for delegated nursing tasks. In addition, the service agreement did not include the method for clients to contact the licensee when staff was providing services.

When interviewed March 24, 2009, employee C confirmed the service agreements were incomplete.

A draft copy of this completed form was left with Kathleen Hodges, RN, at an exit conference on March 26, 2009. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
