Re: Results of State Licensing Survey

Dear Ms. Tischer:

The above agency was surveyed on March 31 and April 1, 2008, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston".

Class A Licensed-Only Home Care Provider

LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class A Licensed-Only Home Care Providers. Class A licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate with MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to describe to the MDH nurse what systems are in place to provide Class A Licensed-Only Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance. This form must be used in conjunction with a copy of the Class A Licensed-Only Home Care regulations. Any violations of the Class A licensing requirements are noted at the end of the survey form.

Employee A was observed on April 1, 2008 giving client # 1 medications that had been set up by the RN. Employee A maintained current certified nurses assistant registration however there was no evidence of training and demonstration of competency for assistance with medication or administration of medications. When interviewed, April 1, 2008, employee A stated she had not been trained in assistance with self-administration of medication. She had been trained in locking and unlocking of the medication box for client #1.

2. MN Rule 4668.0140 Subp. 2**INDICATOR OF COMPLIANCE: # 6**

Based on observation, record review and interview, the licensee failed to maintain a complete service agreement for one of one client's (# 1) record reviewed. The findings include:

Employee A was observed on April 1, 2008 giving client # 1 medications that had been set up by the registered nurse from a locked box in the client's home. Client #1 had a diagnosis of Dementia. Client #1's service agreement, dated December of 2007, indicated the client received medication reminders by the unlicensed caregiver due to forgetfulness. There was no assistance with medication, medication administration, or locking of medications on client #1's service agreement. When interviewed, April 1, 2008, employee A stated that the client did not have keys to the box her medications were stored in, only staff did. When interviewed April 1, 2008 client #1 stated employee A routinely gave her medications to her.

3. MN Rule 4668.0160 Subp. 6**INDICATOR OF COMPLIANCE: # 6**

Based on observation, record review and interview, the licensee failed to have complete medication records for one of one client (#1) records reviewed. The findings include:

Employee A was observed on April 1, 2008 giving client # 1 medications that had been set up by the registered nurse (RN) from a locked box in the client's home. There was no documentation in client #1's record regarding the name, date, time and quantity of dosage of each medication that was set-up for the client.

When interviewed March 31, 2008, the RN stated she set-up the client's medication every fourteen days by checking the label on the pill bottle and putting the number of pills in the pill box as indicated by the label. She added that she did not document what medications she had set-up for the client.
