Re: Results of State Licensing Survey

Dear Ms. Devolites:

The above agency was surveyed on September 29, 30, and October 1, 2009, for the purpose of assessing compliance with state licensing regulations. State licensing deficiencies, if found, are delineated on the attached Minnesota Department of Health (MDH) correction order form. The correction order form should be signed and returned to this office when all orders are corrected. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact me, or the RN Program Coordinator. If further clarification is necessary, I can arrange for an informal conference at which time your questions relating to the order(s) can be discussed.

A final version of the Licensing Survey Form is enclosed. This document will be posted on the MDH website.

Also attached is an optional Provider questionnaire, which is a self-mailer, which affords the provider with an opportunity to give feedback on the survey experience.

Please note, it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call our office with any questions at (651) 201-4301.

Sincerely,

A handwritten signature in black ink that reads "Jean M. Johnston".

Class A Licensed-Only Home Care Provider
LICENSING SURVEY FORM

Registered nurses from the Minnesota Department of Health (MDH) use this Licensing Survey Form during on-site visits to evaluate the care provided by Class A Licensed-Only Home Care Providers. Class A licensees may also use this form to monitor the quality of services provided to clients at any time. Licensees may use their completed Licensing Survey Form to help communicate with MDH nurses during an on-site regulatory visit.

During an on-site visit, MDH nurses will interview staff, clients and/or their representatives, make observations and review documentation. The survey is an opportunity for the licensee to describe to the MDH nurse what systems are in place to provide Class A Licensed-Only Home Care services. Completing this Licensing Survey Form in advance may facilitate the survey process.

Licensing requirements listed below are reviewed during a survey. A determination is made whether the requirements are met or not met for each Indicator of Compliance. This form must be used in conjunction with a copy of the Class A Licensed-Only Home Care regulations. Any violations of the Class A licensing requirements are noted at the end of the survey form.

Please note: Although the focus of the licensing survey is the regulations listed in the Indicators of Compliance boxes above, other rules and statutes may be cited depending on what system a provider has or fails to have in place and/or the severity of a violation. The findings, of the focused survey may result in an expanded survey.

SURVEY RESULTS:

For Indicators of Compliance not met, the rule or statute numbers and the findings of deficient practice are noted below.

1. MN Rule 4668.0150 Subp. 2**INDICATOR OF COMPLIANCE: # 6**

Based on observation, record review and interview, the licensee failed to ensure all medications were properly prepared for one of one client (#1) record reviewed. The findings include:

Client #1's weekly medication set-up container (medi-set) was checked by the reviewer on September 30, 2009. The evening slot in the medi-set container for September 30, 2009, did not contain a tablet of K-Dur 20 meq. (The client had a current physician's order for K-Dur 20 meq to be administered in the evening). However, the client's September, 2009, medication administration set up record documented K-Dur had been set up in the medi-set.

When interviewed on September 30, 2009, the licensed practical nurse (LPN) stated she made an error and failed to put a tablet of K-Dur in evening medi-set time slot for September 30, 2009.

2. MN Rule 4668.0160 Subp. 6**INDICATOR OF COMPLIANCE: # 4**

Based on observation, record review and interview, the licensee failed to have complete medication records for one of one client (#1) record reviewed. The findings include:

Client #1's current physician orders dated 6/11/09 included orders for Diltiazem ER 180 mg twice per day, Ferrous Sulfate 325 mg once per day, Rantadine 150 mg once per day and Colace once per day.

The client's September 2009, medication administration record lacked documentation the following medications were administered as ordered: Diltiazem 180 mg at 9 am on 9/26/2009; Ferrous Sulfate at 9 pm on 9/21 and 9/27/ 2009; Rantadine 150 mg at 9 am on 9/10/09; and Colace at 9 am on 9/26/2009.

When interviewed on September 30, 2009, the registered nurse stated it was the policy of the licensee for the licensed practical nurse (LPN) to weekly monitor the medication administration record for each client for blank spaces. A blank space denoted a staff member failed to document the administration of a medication to a client.

A draft copy of this completed form was faxed to Vicki Rorie, RN, prior to a telephone exit conference on October 1, 2009. Any correction order(s) issued as a result of the on-site visit and the final Licensing Survey Form will be sent to the licensee. If you have any questions about the Licensing Survey Form or the survey results, please contact the Minnesota Department of Health, (651) 201-4301. After review, this form will be posted on the MDH website.
