**CDC Admits as Many as 30 Million Americans Could be at Risk for Cancer Due to Polio Vaccine**

[From _The Laws of the Pharmaceutical Industry_:]

**The main principles governing the pharmaceutical “business with disease.” ... the maintenance and expansion of diseases is a precondition for the financial growth of this industry.]**

"The chief, if not the sole, cause of the monstrous increase in cancer has been vaccination" - Dr. Robert Bell, once Vice President International Society for Cancer Research at the British Cancer Hospital

Dear Judge Lipman,

It is not enough to realize that the most ballyhooed of vaccines, the one which "makes" the argument for all the others - the polio vaccine - has been a monstrous debacle in terms of health. It is crucial to see the immense financial advantages of that disaster for those providing the vaccines.

**Cut Poison Burn Official Trailer - YouTube**

**Cut Poison Burn** is a searing film that illuminates the grim truth about America's so called War on Cancer.

[ytube.com/watch?v=SCmr2OGmMDQ](https://www.youtube.com/watch?v=SCmr2OGmMDQ)

Cancer, as the film indicates, is perhaps the largest **industry** in the world.

Vaccines generate that market. And the government, working for industry mandate them, and then go further, and have been blocking hundreds of painless treatments that cure, starting with savagely attacking Linus Pauling's work on cancer, now being revisited and decades and millions of deaths later, Pauling being vindicated.

Why, sir, in G-d's name, would you allow yourself to be party to forcing additional vaccines into infants and children?

On Mon, Jul 15, 2013 at 10:57 PM, Anne Sullivan <Ilcohencole@gmail.com> wrote:

Dear Judge Lipman,
I come from an upper middle class Jewish family in which we got few vaccines and my children only a few more. I had never heard of autism. Things have changed drastically.

In Atlanta, there are now special private schools filled with the autistic children of women like me.

And in San Antonio, across the street from my daughter is a family with a profoundly autistic boy of 5. He is a beautiful child, but he can't speak, wears diapers, can't play with anything, and flails his arms spastically when he is excited. I asked his grandmother in Spanish if he were always like that. She said no, seis meses vacunas - sixth month vaccines. Before that, he was a bright normal child.

I know a grandmother in San Antonio whose husband is involved in Texas politics. She babysits for her grandchildren. One came at six months after a doctor's appointment and had a seizure and had to rushed to the hospital. So the family waited until she was two for further vaccines. At two, with th next vaccine(s), she seized again.

I have spoken to parents in the grocery and one said she would never vaccinate her baby, because vaccines destroyed one of her other children. Before I could even respond, she said "You want to see videos of how normal he was before?"

Another mother said she had her child at home to avoid the Hep B vaccine and the child's grandmother was right there, a nurse. The grandmother said that she took her elderly parents for a well check up where they both got flu vaccines. That night they were hospitalized and in two weeks, they were both dead. She herself was forced, along with 3 other nurses in her unit, to get the flu vaccines. All four became extremely ill with temperatures over 102.

I used to trust vaccines but after meeting one family after another whose children have been maimed by vaccines or who have lost family members (I know of 5 people who died from the swine flu vaccines), I started doing a lot of reading.

You might be interested in the FOIA information on vaccines - beginning with the CDC refusing to turn over information when the swine flu vaccine came out, trying to stop a CBS investigation, and lying about the cases (99% of the cases reported to be swine flu in California, weren't - most were not even flu).  

But it is much worse than that. FOIA in the UK show that the government has known for 30 years that the vaccines don't work and cause the diseases they are supposed to prevent, and that in the US, the CDC has not responded in over 7 years to FOIA requests and when it got ordered to by a federal court, the Obama administration put out plans for a new FOIA law that would allow agencies to declare some documents "non-existent."  

The government has admitted that the hepatitis B vaccines cause Lupus.

US Government Concedes Hep B Vaccine Causes Systemic Lupus

I assume you are Jewish. Did you know the pharmaceutical industry is who put Hitler into office? The article is written by a German Jewish cardiologist.

The History of the "Business With Disease"

The most powerful German economic corporate emporium in the first half of this century
was the Interessengemeinschaft Farben or IG Farben, for short. Interessengemeinschaft stands for "Association of Common Interests" and was nothing more than a powerful cartel of BASF, Bayer, Hoechst, and other German chemical and pharmaceutical companies. IG Farben was the single largest donor to the election campaign of Adolph Hitler. One year before Hitler seized power, IG Farben donated 400,000 marks to Hitler and his Nazi party. Accordingly, after Hitler's seizure of power, IG Farben was the single largest profiteer of the German conquest of the world, the Second World War.

The pharmaceutical departments of the IG Farben cartel used the victims of the concentration camps in their own way: thousands of them died during human experiments such as the testing of new and unknown vaccines.

**Have Rabbis Forgotten The Experiments on Jewish Women at Auschwitz?**

Today, rabbis across the US are silent as the Nuremberg Code is being dismantled. From *Nurses and the sterilization experiments of Auschwitz: a postmodernist perspective*:

"The Nuremberg code originated because of some of humanity’s darkest deeds. .... these principles — though now expanded several times in the Declarations of Helsinki (1964 and 1975, with further revisions in 1983 and 1989) and the Belmont Report (1979) — were created to protect people from inhumane treatment carried out in the name of scientific research. If these principles are fully adhered to, people should be protected from experiments without scientific merit and without full understanding and consent."

.... "Auschwitz was the largest and one of the most infamous of the camps and the site of numerous ‘medical’ experiments. This historical study uses primary source documents obtained from archives in England and Germany to describe one type of experiment carried out at Auschwitz — the sterilization experiments...

"Dr Adolf Pokorny, a Nazi physician wrote to Himmler in October 1941: "Should we succeed in obtaining a method, permitting as quickly as possible to sterilize people without their knowledge, then we would get hold of a new, most effective weapon. ...."

"A California law removes the rights of parents to consent in having their minor children vaccinated and even their right to have knowledge they are being vaccinated. Instead, the law gives the state the right to "offer" vaccines (even those not yet invented for that purpose) for sexually transmitted diseases to children as young as 12 years old, and prior to being offered the vaccines, the children are exposed to movies of people dying from cancer. (see: *The Canary Party: California 12 Year Olds to be Vaccinated with out Parental Knowledge - wellspere.com*)

"Gardasil and Hepatitis B vaccine are two vaccines that 12 year old children may now "consent" to. Both are Merck products.

"Records show the Merck pharmaceutical company received a major share of the Nazi "flight capital" at the close of World War II when its president, George W. Merck, was America's biological weapons industry director. These facts were revealed by Norman Covert, Army public relations director at Fort Detrick in Frederick, MD, and veteran news correspondent Paul Manning in his book "Martin Bormann: Nazi in Exile" (Lyle Stuart, Inc,
1981)." (see: Nazi connections to Allopathy)

Are you aware that every single one of the mandated vaccines for children, as well as the flu vaccines which is increasingly mandated, contains polysorbate 80, a known sterilizing agent? This following patent refers to it.

#5) On the World Intellectual Property Organization, a patent application for a "fertility impairing vaccine". The University of Georgia Research Foundation is listed as the patent applicant.

In the description section of the patent application, Tween 80 (Polysorbate 80) is listed as a preferred ingredient:

"In a preferred embodiment the vaccine comprises oil, preferably a biodegradable oil such as squalene oil, in an amount of about 2.5% to about 15%, preferably about 8% to about 12%. In preparing the vaccine it is advantageous to combine a concentrated oily adjuvant composition with an aqueous solution of the antigen, pZP glycoprotein. Typically, the vaccine is prepared using an adjuvant concentrate which contains lecithin (about 5% to about 15% wt/vol, preferably about 12% wt/vol) and STDCM (preferably about 25 mg/mL to about 50 mg/mL) in squalene oil. The term % wt/vol means grams per 100 mL of liquid. The aqueous solution containing the isolated pZP glycoprotein is typically a phosphate-buffered saline (PBS) solution, and additionally preferably contains Tween 80 (about 0.2% vol/vol to about 0.8% vol/vol, preferably about 0.4% vol/vol)."

In 2011 alone, Bill Gates' polio campaign in India paralyzed nearly 50,000 children. This horror was covered up by the WHO which simply filed the paralysis under "non-polio" paralysis.

See: Hiding Vaccine-Induced Polio In India

The Polio Game

The WHO's current trick to cover up the reality of the polio vaccines is a continuation of the statistical tricks used when the vaccines first came out.

“Polio cases were predetermined to decrease when the medical definition of polio was changed. Cases of polio were more often reported as aseptic meningitis after the vaccine was introduced, skewing efficacy rates. Source: The Los Angeles County Health Index: Morbidity and Mortality, Reportable Diseases.

“The fact that dubious tactics were used to fabricate efficacy rates was corroborated by Dr. Bernard Greenberg, chairman of the Committee on Evaluation and Standards of the American Public Health Association during the 1950s. ... He credited the “decline” of polio cases not to the vaccine, but rather to a change in the way doctors were required to report cases ... Furthermore, diagnostic procedures have continued to be refined. Coxsackie virus infections and aseptic meningitis have been distinguished from poliomyelitis… Thus, simply by changes in diagnostic criteria, the number of paralytic cases was predetermined to decrease… [52:96,97]
This next article is by another Jewish cardiologist, who says that we have the absolute means to kill every virus for which shots are given so why are we subjecting infants and children to vaccines which may maim or kill some children?

**The Shots That Keep Shooting**

The evidence to be presented here will support a number of disturbing findings [which repeat much of what the UK FOIAs showed the government knew - and the vaccines are the same here], including:

- Vaccines often fail in protecting from the targeted disease, or they may offer only a temporary immunity, in contrast to the permanence of a natural immunity.
- Vaccines can cause the very disease for which protection is sought.
- Vaccines often severely damage the immune system, causing any of many other diseases.
- Nearly all of the feared infectious diseases had largely disappeared when vaccines were introduced.
- Vaccines can implant latent or "slow viruses" that can manifest years later as degenerative diseases, often neurological.
- Vaccines appear to have significantly decreased the intellectual or cognitive abilities of several generations.
- Vaccines have been linked to learning and behavioral disorders of "unknown cause," such as autism, dyslexia, hyperactivity, and minimal brain dysfunction.

"Much of Europe is completely free from mandatory vaccination. ....

"Statistically speaking, the data regarding DPTvaccinated infants is absolutely frightening. The death rate is eight times greater than normal within only three days of receiving a DPT shot.\(^{12}\) The dreaded Sudden Infant Death Syndrome (SIDS) clusters very strongly around the typical time frame of DPT shot administration."

Finally, from the scientists themselves, including from Maurice Hillerman, Merck's lead vaccine scientist, who have said that all the vaccines are contaminated. Hillerman also said their contaminated vaccines were responsible for AIDS in the US.

**ALL the Vaccines Are Contaminated - Every Last One of Them**

"The chief, if not the sole, cause of the monstrous increase in cancer has been vaccination" - Dr. Robert Bell, once Vice President International Society for Cancer Research at the British Cancer Hospital

"Donald W. Scott, the editor of The Journal of Degenerative Diseases and the co-founder of the Common Cause Medical Research Foundation, links vaccines to AIDS (as did Hillerman) and to US bio-weapons research, and says they are contaminated with mycoplasma, a primitive bacteria that takes apart cell walls.

"Perhaps the highest scientific authority saying vaccines are contaminated is Garth Nicolson. He is a cell biologist and editor of the Journal of Clinical and Experimental Metastasis, and the Journal of Cellular Biochemistry. He is one of the most cited scientists in the world, having published over 600 medical and scientific peer-reviewed papers, edited over 14 books, and served on the editorial boards of 28 medical and scientific journals. He is not just
saying that vaccines are contaminated with mycoplasma but is warning the US that they are. Nicolson goes further and says that we are all being damaged by them and contracting chronic degenerative diseases that.

That damage translates into lifelong patients (and thus life-long profit) for the pharmaceutical industry making the vaccines and he says doesn't appear to be accidental.

[From The Laws of the Pharmaceutical Industry:

The main principles governing the pharmaceutical “business with disease.” It is not in the financial interests of the pharmaceutical industry to prevent common diseases – the maintenance and expansion of diseases is a precondition for the financial growth of this industry.]

According To CIA Statistics: As Shots Increase, U.S. Lifespan Is DECREASING

1980: 9 vaccines, autism is rare
2009: 36 vaccines before age 5
2010: 55 vaccines before age 6
