

Diverse Community Media Directory 2017

Local Community Press, Radio, and
TV Programs in Minnesota

Compiled by the Refugee and
International Health and STD-HIV
Programs of the Minnesota
Department of Health

About Using This Resource

The 2017 Diverse Community Media Directory was compiled by the Minnesota Department of Health's Refugee and International Health Program. It was created to be a quick reference for individuals working to identify appropriate media channels that reach a broad cross section of diverse groups including populations of color, American Indians, GLBT, people with disabilities, immigrants and refugees in the Twin Cities metro area and, to a limited extent, in greater Minnesota.

Listings are divided by type of media (press, radio, and TV). Each media type is then subdivided into different target audiences (African American, Asian, Latino, GLBT, Multicultural, American Indian, etc.). Specific programs and journals are listed alphabetically under each subdivision.

The printed version of this guide is updated biennially. The online version is updated quarterly and can be accessed in PDF format at:

www.health.state.mn.us/refugee.

Click on "Directories for Organizations Serving Refugees."

Hard copies of this guide can be requested from the address and phone number on the back cover.
