

MDH Refugee Health Lending Library

The Minnesota Department of Health Refugee Health Program currently holds over 180 videos about refugee populations and health issues.

These items are available for free loan (except for the cost of return postage) to any public health organization or community group in the United States. They make excellent resources for staff training sessions or educational presentations for students and clients.

Visit www.health.state.mn.us/refugee and select Refugee Health Lending Library from the menu options. The collection is searchable by topic and language.

Available topics include but are not limited to:

Alcohol, tobacco & other drugs	Human trafficking
American health care	Infectious disease
Cancer	Interpreting and translation
Chronic disease	Mental health
Cultural competence	Maternal and child health
Dental health	Resettlement
Disabilities	Safety
Environmental health	Refugee & immigrant populations
