

**MLS: Influenza Laboratory Update #9**  
**Opportunity to Provide Feedback to MDH Regarding H1N1 Response**  
**Action Requested**  
**February 25, 2010**

**Purpose of this Message**

To offer you an opportunity to provide feedback to MDH regarding the H1N1 response.

**Thank You**

Thank you for your efforts in responding to the H1N1 outbreak through most of 2009 and continuing into 2010. We know you are still working very hard. Since there is a decline in disease activity, the Minnesota Department of Health is conducting a survey of the Fall H1N1 response to enhance MDH's future response capacity. As a key Partner to MDH's H1N1 response you are being offered the opportunity to provide feedback about MDH's H1N1 efforts. We will use the information from this survey to identify those parts of the MDH H1N1 response that went well and activities that could have gone better.

***Please take a few moments to complete the on-line survey at:***

<https://survey.vovici.com/se.ashx?s=56206EE34837DA62>

We ask that you complete the survey no later than 3/12/2010. We will be using these data in the MDH H1N1 Fall Response - After Action Report and will post a summary on the MDH website when we have completed the process in early April.

Thank you for taking the time to assist us in improving our response efforts.

John Linc Stine  
Assistant Commissioner, MN Department of Health
