

The **A**THENS Project

The College of
St. Scholastica

Learning to Touch the World

The Time for Healthcare IT is Now

- Improve clinical processes or workflow efficiency
- Enhance timely sharing of patient information
- Facilitate clinical decision support
- Improve quality of care

Creating Healthcare's Bridge to Quality

... must involve “health professions education”

“All health professionals should be educated to deliver patient-centered care as members of an interdisciplinary team, emphasizing evidence-based practice, quality improvement approaches, and informatics.”

*Institute of Medicine. (2003). Health professions: a bridge to quality. Washington, DC: The National Academy Press
www.iom.edu*

The ATHENS Project: A Pioneering Initiative

- Integrates health information technology as a teaching/learning tool:
 - To build clinical competence and encourage efficient and evidence-based clinical practice
 - To facilitates point-of care & cross-disciplinary communications which encourages collaborative case management

ATHENS in the Classroom

Fall Semester 2004
