

Minnesota e-Health Summit 2008: From Vision to Action

Thursday, June 26, 2008
Northland Inn, Brooklyn Park, MN

Vendor Expo Guide

Organization: Stratis Health

Contact: Susan Severson

Email: sseverson@stratishealth.org

Web: www.StratisHealth.org

Platinum Sponsor

Description: Stratis Health is a non-profit organization that leads collaboration and innovation in health care quality and safety, and serves as a trusted expert in facilitating improvement for people and communities. The organization, founded in 1971, has worked at improving the state's health care quality for more than 35 years. Under a federal contract, Stratis Health serves as Minnesota's Medicare Quality Improvement Organization (QIO). The organization also is involved in other statewide projects funded through state government contracts, foundation and corporate grants, and health system projects. Stratis Health helps advance e-health in Minnesota through its participation in the Minnesota e-Health Initiative and other national and state e-health efforts, including health information exchange.

Company: Covisint

Contact: Terry Boch

Email: tboch@covisint.com

Web: www.covisint.com

Silver Sponsor

Description: Covisint enables secure access to and improved visibility of health information. Leading healthcare organizations and communities across the health care continuum leverage Covisint technology to exchange information and support real-time collaboration, including the automation and streamlining of basic clinical and administrative processes that are generally paper-based transactions today.

Company: Intel

Contact: Tom Halter

Email: tom.halter@intel.com

Web: www.Intel.com

Silver Sponsor

Description: Intel's commitment to health care started in 1999 with the formation of the Proactive Health Research project, a multi-disciplinary team actively researching people's health care needs and integrated technology solutions. This project evolved into Intel's Health Research and Innovation Lab, an integrated team of social scientists, designers and systems engineers. Today, the Intel Digital Health Group is focused on three areas: 1) Health care Information Technology, 2) Personal Health Platforms, and 3) Research and Standards. Our first product, the mobile clinical assistant is on display today. This unique product was developed with feedback from clinicians to help busy medical staff in performing a vast array of important tasks.

Our mission is to enable individuals, their families, and clinicians to connect to the right information at the right time so they can make better and more informed health care decisions.

Company: eDocument Resources

Bronze Sponsor

Contact: Mark Rubin

Email: mrubin@edocumentresources.com

Web: www.edocumentresources.com

Description: eDocument Resources specializes in true electronic document and content management for the health care arena. Two of the most significant benefits are profound. First, OnBase, a single system, can support different parts or all of an entire organization, not just the clinical or non-clinical areas. Areas of implementation include Registration, HIM, patient accounting, HR, AP, pharmacy and the lab. Second, we can integrate with virtually every system on the market including, Meditech, Dairyland, CPSI, Epic, Lawson, Great Plains, Misys, and many, many more. If you are still evaluating an EMR system, we can be a bridge to an EMR while getting you electronic more quickly and less expensively. Alternatively, if an EMR has already been chosen or installed, OnBase can either facilitate the transition to EMR and/or augment any existing system dramatically. To learn more about how our products can improve your effectiveness and efficiency, please visit us at www.edocumentresource.com.

Company: MEDNETWorld.com (formerly MEDNET USA)

Bronze Sponsor

Contact: Joseph Baron

Email: Joseph.Baron@MEDNETWorld.com

Web: www.MEDNETWorld.com

Description: MEDNETWorld.com has created a national system allowing providers, payers, emergency rooms, public health, and other health care participants access to important health care and insurance information on patients, anytime and anywhere while fully protecting patient privacy. These services are available using our Record Locator Service (RLS) and Secure Credentialing Services, which enable the secure and reliable exchange and transfer of patient healthcare information regardless of provider, payer or location. The MEDNETWorld.com platform enables efficient patient record portability, while ensuring privacy and lowering healthcare provider costs.

Company: Axolotl

Exhibitor

Contact: Ed Novelli

Email: enovelli@axolotl.com

Web: www.axolotl.com

Description: Axolotl Corp provides communities, hospitals, and large healthcare systems with Web-based tools to electronically create, exchange, and distribute clinical information. Since the company's inception in 1995, Axolotl has expanded its clinical collaboration and data management offerings to meet the diverse and changing needs of today's health care communities. Axolotl's award-winning *Elysium* product suite uses second generation Web-based e2 technology to link, share, and exchange health information community-wide.

Company: Emdeon

Exhibitor

Contact: Robb Larsen

Email: rlarsen@emdeon.com

Web Address: <http://www.emdeon.com/ProviderSolutions/clinician/index.php>

Description: Emdeon is a leading provider of Clinical Management Solutions connecting thousands of laboratories, hospitals, pharmacies, and physicians. The Emdeon Clinician family of services enhances physician office productivity, improves patient care and reduces costs, all by streamlining electronic orders, reports and prescription management. Its interoperable design breaks down the barriers of communication between different systems, helping connect to virtually any third party EHR solution. Once set up, Clinician consolidates and simplifies:

- Electronic hospital and lab orders
- Reports and results distribution
- ePrescribing - prescriptions and refills

Company: eMDs

Exhibitor

Contact: Karen Denslow

Email: kdenslow@e-mds.com

Web: www.e-mds.com

Description: e-MDs Solution Series is an integrated suite of administrative, financial, workflow, and clinical software solutions which help create an efficient paperless medical practice. e-MDs software solutions help transform your medical office by improving workflow and increasing physician income, while creating an environment that fosters optimum patient care.

Company: Merck & Co., Inc.

Exhibitor

Contact: Amy Double

Email: amy_double@merck.com

Web: www.merck.com

Description: Merck & Co., Inc., is a global research-driven pharmaceutical company dedicated to putting patients first. Established in 1891, Merck discovers, develops, manufactures and markets vaccines and medicines to address unmet medical needs. The company devotes extensive efforts to increase access to medicines through far-reaching programs that not only donate Merck medicines but help deliver them to the people who need them. Merck also publishes unbiased health information as a not-for-profit service.

Company: MMIC

Exhibitor

Contact: Brian Salzman

Email: brian.salzman@mmihc.com

Web: www.mmicgroup.com

Description: Technology Solutions, subsidiary company of The MMIC Group, is your *total solution* for your health care information technology needs. We are NextGen's #1 Value-Added Reseller of Electronic Medical Records, and also provide network design and support, web site development and hosting, as well as physician billing and collection services, and excellent technical and customer service support. Company: Sage Software

Exhibitor

Contact: Brian Paulson

Email: brian.paulson@sage.com

Web: www.sagehealth.com

Description: Sage Software Healthcare Division, formerly Emdeon Practice Services, is a leading provider of business, technology, and information solutions that transform the clinical, financial, and business aspects of healthcare delivery. Sage Healthcare provides practice management and electronic health record software and services, as well as accounting and human resources solutions for the business needs of practices. The Intergy® suite of software offers electronic health records (EHR) with task management, imaging, and point-of-care documentation; scheduling; billing; electronic data interchange (EDI); business intelligence; radiology workflow; and web-based PACS (powered by Dynamic Imaging's IntegradWeb). www.sagehealth.com or 877.932.6301

Company: SISU Medical Systems

Exhibitor

Contact: Jessica Schiff

Email: jschiff@sisunet.org

Web: www.sisunet.org

Description: SISU Medical Systems provides cost effective information technology to provider-based health care organizations. Classified as a 501c non-profit corporation, SISU has operated as a consortium of medical facilities in Minnesota since 1998. Current membership includes more than 16 health care facilities across the state comprising more than 10 percent of rural Minnesota hospitals as members. SISU members collaborate on various technology-related projects and enjoy the cost-saving benefits of group purchasing and licensing power. SISU assists its members in the conversion and/or migration process to the integrated MEDITECH C/S platform as their HCIS, and continues to support the MEDITECH software for each member. Currently, SISU is assisting its members with enabling interoperability between hospitals and outlying clinics.

Company: SunGard

Exhibitor

Contact: Brett Johnson

Email: brett.johnson@sungard.com

Web: www.sungard.com

Description: SunGard Availability Services is the pioneer and leading provider of information availability solutions, helping to ensure that 10,000 customers in North America and Europe have access to their critical information systems. With four million square feet of operations space, SunGard offers a complete range of information availability solutions that include managed hosting, professional, and business continuity services. SunGard provides services to support an always-on production environment, as well as over 30 technology platforms to support customers who require a traditional 24-48 hour recovery time frame. SunGard also has technology and systems management services for application and data center outsourcing, as well as business continuity consulting services and planning software. For more information about SunGard Availability Services, please contact Brett Johnson, Healthcare Account Executive, at 651-238-6062 or brett.johnson@sungard.com.
