

Protecting, Maintaining and Improving the Health of All Minnesotans

Electronically delivered September 17, 2020

Administrator Elim Home 701 First Street Princeton, MN 55371

RE: CCN: 245494 Cycle Start Date: July 20, 2020

Dear Administrator:

On August 6, 2020, we notified you a remedy was imposed. On September 8, 2020 the Minnesota Department of Health completed a revisit to verify that your facility had achieved and maintained compliance. We have determined that your facility has achieved substantial compliance as of August 25, 2020.

As authorized by CMS the remedy of:

• Discretionary denial of payment for new Medicare and Medicaid admissions effective September 20, 2020 did not go into effect. (42 CFR 488.417 (b))

However, as we notified you in our letter of August 6, 2020, in accordance with Federal law, as specified in the Act at § 1819(f)(2)(B)(iii)(I)(b) and § 1919(f)(2)(B)(iii)(I)(b), we notified you that your facility is prohibited from conducting Nursing Aide Training and/or Competency Evaluation Programs (NATCEP) for two years from July 20, 2020. This does not apply to or affect any previously imposed NATCEP loss.

The CMS Region V Office may notify you of their determination regarding any imposed remedies.

Feel free to contact me if you have questions.

Sincerely, alison Helm

Alison Helm, Enforcement Specialist Licensing and Certification Minnesota Department of Health P.O. Box 64970 Saint Paul, Minnesota 55164-0970 Phone: 651-201-4206 Email: alison.helm@state.mn.us

Re: Reinspection Results Event ID: 8VDD12

Dear Administrator:

On September 8, 2020 survey staff of the Minnesota Department of Health - Health Regulation Division completed a reinspection of your facility, to determine correction of orders found on the survey completed on September 8, 2020. At this time these correction orders were found corrected.

Please feel free to call me with any questions.

Sincerely,

alison Helm

Protecting, Maintaining and Improving the Health of All Minnesotans

Electronically Submitted August 6, 2020

Administrator Elim Home 701 First Street Princeton, MN 55371

RE: CCN: 245494 Cycle Start Date: July 20, 2020

Dear Administrator:

On July 20, 2020, survey was completed at your facility by the Minnesota Department of Health and Public Safety to determine if your facility was in compliance with Federal participation requirements for skilled nursing facilities and/or nursing facilities participating in the Medicare and/or Medicaid programs.

Your facility was not in substantial compliance with the participation requirements and the conditions in your facility constituted **both substandard quality of care and immediate jeopardy** to resident health or safety. This survey found the most serious deficiencies in your facility to be a pattern of deficiencies that constituted immediate jeopardy (Level K) whereby corrections were required. The Statement of Deficiencies (CMS-2567) is being electronically delivered.

REMOVAL OF IMMEDIATE JEOPARDY

On July 18, 2020, the situation of immediate jeopardy to potential health and safety cited at F0600 was removed. However, continued non-compliance remains at the lower scope and severity of E.

REMEDIES

As a result of the survey findings and in accordance with survey and certification memo 16-31-NH, this Department recommended the enforcement remedy listed below to the CMS Region V Office for imposition: The CMS Region V Office concurs and is imposing the following remedy and has authorized this Department to notify you of the imposition:

• Directed plan of correction (DPOC), Federal regulations at 42 CFR § 488.424. Please see electronically attached documents for the DPOC.

• Discretionary Denial of Payment for new Medicare and/or Medicaid Admissions, Federal regulations at 42 CFR § 488.417(a), effective September 20, 2020.

Elim Home August 6, 2020 Page 2

This Department is also recommending that CMS impose a civil money penalty (42 CFR 488.430 through 488.444). You will receive a formal notice from the CMS RO only if CMS agrees with our recommendation.

The CMS Region V Office will notify your Medicare Administrative Contractor (MAC) that the denial of payment for new admissions is effective September 20, 2020 (42 CFR 488.417 (b)). They will also notify the State Medicaid Agency that they must also deny payment for new Medicaid admissions effective September 20, 2020 (42 CFR 488.417 (b)).

You should notify all Medicare/Medicaid residents admitted on, or after, this date of the restriction. The remedy must remain in effect until your facility has been determined to be in substantial compliance or your provider agreement is terminated. Please note that the denial of payment for new admissions includes Medicare/Medicaid beneficiaries enrolled in managed care plans. It is your obligation to inform managed care plans contracting with your facility of this denial of payment for new admissions.

SUBSTANDARD QUALITY OF CARE

Your facility's deficiencies with with one or more of the following: §483.10, Residents Rights, §483.12, Freedom from Abuse, Neglect, and Exploitation, §483.15, Quality of Life and §483.25, Quality of Care, 483.40 Behavioral Health Services, §483.45 Pharmacy Services, §483.70 Administration, or §483.80 Infection control has been determined to constitute substandard quality of care as defined at §488.301. Sections 1819(g)(5)(C) and 1919(g)(5)(C) of the Social Security Act and 42 CFR 488.325(h) require that the attending physician of each resident who was found to have received substandard quality of care, as well as the State board responsible for licensing the facility's administrator, be notified of the substandard quality of care. If you have not already provided the following information, you are required to provide to this agency within ten working days of your receipt of this letter the name and address of the attending physician of each resident found to have received substandard quality of care.

Please note that, in accordance with 42 CFR 488.325(g), your failure to provide this information timely will result in termination of participation in the Medicare and/or Medicaid program(s) or imposition of alternative remedies.

Federal law, as specified in the Act at Sections 1819(f)(2)(B) and 1919(f)(2)(B), prohibits approval of nurse assistant training programs offered by, or in, a facility which, within the previous two years, has been subject to an extended or partial extended survey as a result of a finding of substandard quality of care. Therefore, Elim Home is prohibited from offering or conducting a Nurse Assistant Training / Competency Evaluation Programs (NATCEP) or Competency Evaluation Programs for two years effective July 20, 2020. This prohibition remains in effect for the specified period even though substantial compliance is attained. Under Public Law 105-15 (H. R. 968), you may request a waiver of this prohibition if certain criteria are met. Please contact the Nursing Assistant Registry at (800) 397-6124 for specific information regarding a waiver for these programs from this Department.

ELECTRONIC PLAN OF CORRECTION (ePOC)

Within ten (10) calendar days after your receipt of this notice, you must submit an acceptable plan of correction (ePOC) for the deficiencies cited. An acceptable ePOC will serve as your allegation of compliance. Upon receipt of an acceptable ePOC, we will authorize a revisit to your facility to determine if substantial compliance has been achieved. The failure to submit an acceptable ePOC can lead to termination of your Medicare and Medicaid participation (42 CFR 488.456(b)).

To be acceptable, a provider's ePOC must include the following:

- How corrective action will be accomplished for those residents found to have been affected by the deficient practice.
- How the facility will identify other residents having the potential to be affected by the same deficient practice.
- What measures will be put into place, or systemic changes made, to ensure that the deficient practice will not recur.
- How the facility will monitor its corrective actions to ensure that the deficient practice is being corrected and will not recur.
- The date that each deficiency will be corrected.
- An electronic acknowledgement signature and date by an official facility representative.

DEPARTMENT CONTACT

Questions regarding this letter and all documents submitted as a response to the resident care deficiencies (those preceded by a "F" tag), and emergency preparedness deficiencies (those preceded by an "E" tag), i.e., the plan of correction should be directed to:

Susie Haben, Unit Supervisor St. Cloud A Survey Team Licensing and Certification Program Health Regulation Division Minnesota Department of Health 3333 West Division Street, Suite 212 St. Cloud, Minnesota 56301 Email: susie.haben@state.mn.us Phone: 320-223-7356

PRESUMPTION OF COMPLIANCE - CREDIBLE ALLEGATION OF COMPLIANCE

The facility's ePoC will serve as your allegation of compliance upon the Department's acceptance. In order for your allegation of compliance to be acceptable to the Department, the ePoC must meet the criteria listed in the plan of correction section above. You will be notified by the Minnesota Department of Health, Licensing and Certification Program staff and/or the Department of Public Safety, State Fire Marshal Division staff, if your ePoC for their respective deficiencies (if any) is acceptable.

Elim Home August 6, 2020 Page 4 VERIFICATION OF SUBSTANTIAL COMPLIANCE

Upon receipt of an acceptable ePoC, a Post Certification Revisit (PCR), of your facility will be conducted to validate that substantial compliance with the regulations has been attained in accordance with your verification.

If substantial compliance has been achieved, certification of your facility in the Medicare and/or Medicaid program(s) will be continued and remedies will not be imposed. Compliance is certified as of the latest correction date on the approved ePoC, unless it is determined that either correction actually occurred between the latest correction date on the ePoC and the date of the first revisit, or correction occurred sooner than the latest correction date on the ePoC.

FAILURE TO ACHIEVE SUBSTANTIAL COMPLIANCE BY THE SIXTH MONTH AFTER THE LAST DAY OF THE SURVEY

We will also recommend to the CMS Region V Office and/or the Minnesota Department of Human Services that your provider agreement be terminated by January 20, 2021 (six months after the identification of noncompliance) if your facility does not achieve substantial compliance. This action is mandated by the Social Security Act at Sections 1819(h)(2)(C) and 1919(h)(3)(D) and Federal regulations at 42 CFR Sections 488.412 and 488.456.

Please note that this notice does not constitute formal notice of imposition of alternative remedies or termination of your provider agreement. Should the Centers for Medicare & Medicaid Services determine that termination or any other remedy is warranted, it will provide you with a separate formal notification of that determination.

APPEAL RIGHTS DENIAL OF PAYMENT

If you disagree with this action imposed on your facility, you or your legal representative may request a hearing before an administrative law judge of the Department of Health and Human Services, Departmental Appeals Board (DAB). Procedures governing this process are set out in 42 C.F.R. 498.40, et seq. You must file your hearing request electronically by using the Departmental Appeals Board's Electronic Filing System (DAB E-File) at https://dab.efile.hhs.gov no later than sixty (60) days after receiving this letter. Specific instructions on how to file electronically are attached to this notice. A copy of the hearing request shall be submitted electronically to:

Tamika.Brown@cms.hhs.gov

Requests for a hearing submitted by U.S. mail or commercial carrier are no longer accepted as of October 1, 2014, unless you do not have access to a computer or internet service. In those circumstances you may call the Civil Remedies Division to request a waiver from e-filing and provide an explanation as to why you cannot file electronically or you may mail a written request for a waiver along with your written request for a hearing. A written request for a hearing must be filed no later than sixty (60) days after receiving this letter, by mailing to the following address: Elim Home August 6, 2020 Page 5

> Department of Health & Human Services Departmental Appeals Board, MS 6132 Director, Civil Remedies Division 330 Independence Avenue, S.W. Cohen Building – Room G-644 Washington, D.C. 20201 (202) 565-9462

A request for a hearing should identify the specific issues, findings of fact and conclusions of law with which you disagree. It should also specify the basis for contending that the findings and conclusions are incorrect. At an appeal hearing, you may be represented by counsel at your own expense. If you have any questions regarding this matter, please contact Tamika Brown, Principal Program Representative by phone at (312) 353-1502 or by e-mail at Tamika.Brown@cms.hhs.gov.

APPEAL RIGHTS NURSE AIDE TRAINING PROHIBITION

Pursuant to the Federal regulations at 42 CFR Sections 498.3(b)(13)(2) and 498.3(b)(15), a finding of substandard quality of care that leads to the loss of approval by a Skilled Nursing Facility (SNF) of its NATCEP is an initial determination. In accordance with 42 CFR part 489 a provider dissatisfied with an initial determination is entitled to an appeal. If you disagree with the findings of substandard quality of care which resulted in the conduct of an extended survey and the subsequent loss of approval to conduct or be a site for a NATCEP, you or your legal representative may request a hearing before an administrative law judge of the Department of Health and Human Services, Department Appeals Board. Procedures governing this process are set out in Federal regulations at 42 CFR Section 498.40, et. Seq.

A written request for a hearing must be filed no later than 60 days from the date of receipt of this letter. Such a request may be made to the Centers for Medicare and Medicaid Services (formerly Health Care Financing Administration) at the following address:

> Department of Health & Human Services Departmental Appeals Board, MS 6132 Director, Civil Remedies Division 330 Independence Avenue, S.W. Cohen Building – Room G-644 Washington, D.C. 20201

A request for a hearing should identify the specific issues and the findings of fact and conclusions of law with which you disagree. It should also specify the basis for contending that the findings and conclusions are incorrect. You do not need to submit records or other documents with your hearing request. The Departmental Appeals Board (DAB) will issue instructions regarding the proper submittal of documents for the hearing. The DAB will also set the location for the hearing, which is likely to be in Minnesota or in Chicago, Illinois. You may be represented by counsel at a hearing at your own expense.

Elim Home August 6, 2020 Page 6

INFORMAL DISPUTE RESOLUTION (IDR) / INDEPENDENT INFORMAL DISPUTE RESOLUTION (IIDR)

In accordance with 42 CFR 488.331, you have one opportunity to question cited deficiencies through an informal dispute resolution process. You are required to send your written request, along with the specific deficiencies being disputed, and an explanation of why you are disputing those deficiencies, to:

Nursing Home Informal Dispute Process Minnesota Department of Health Health Regulation Division P.O. Box 64900 St. Paul, Minnesota 55164-0900

This request must be sent within the same ten days you have for submitting an ePoC for the cited deficiencies. All requests for an IDR or IIDR of federal deficiencies must be submitted via the web at: <u>https://mdhprovidercontent.web.health.state.mn.us/ltc_idr.cfm</u>

You must notify MDH at this website of your request for an IDR or IIDR within the 10 calendar day period allotted for submitting an acceptable plan of correction. A copy of the Department's informal dispute resolution policies are posted on the MDH Information Bulletin website at: <u>https://www.health.state.mn.us/facilities/regulation/infobulletins/ib04_8.html</u>

Please note that the failure to complete the informal dispute resolution process will not delay the dates specified for compliance or the imposition of remedies.

Feel free to contact me if you have questions.

Sincerely,

alison Helm

Alison Helm, Enforcement Specialist Licensing and Certification Minnesota Department of Health P.O. Box 64970 Saint Paul, Minnesota 55164-0970 Phone: 651-201-4206 Email: alison.helm@state.mn.us

TMA-A then released R9's wrists and yelled, "I'm so done" as she walked away from R9. NA-A proceeded to help R9 to use a bathroom on the opposite end of the unit and R9 was upset immediately following the incident, R9 even voiced she thought TMA-A had left bruising on her. NA-A completed R9's cares and then reported the allegation and incident to the working supervisor who subsequently reported it to the DON. NA-A voiced TMA-A was not allowed to complete her shift the night of the incident involving R9 as she was sent home; however, expressed significant concern as TMA-A had subsequently returned to work on the dementia unit on an unsupervised basis. NA-A expressed following TMA-A's return to work, a second incident had happened where TMA-A had potentially abused residents. NA-A stated she knew R11 had expressed concern to a homemaker (HMK)-A that she (R11) had observed TMA-A to place her hands on and shout at another resident (R10) in the memory care unit just a few days after the incident with R9 on 6/27/20. NA-A stated, to her knowledge, HMK-A and R11 did report these concerns to the registered nurse unit manager (RN)-B; however, added she was concerned as, "I don't know if they even looked into that much." NA-A stated she had known TMA-A to be "verv aggressive" at times with residents with her tone of voice; however, had never witnessed her be physically abusive with residents until the incident on 6/27/20, adding, "I saw what I saw." Further, NA-A reiterated she was concerned TMA-A would continue to potentially abuse residents on the locked memory care unit as TMA-A continued to

F 610	 (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION) Continued From page 24 was provided during the survey demonstrating it had been investigated. A completed Nursing Home Incident Reporting - Incident Report Summary 33157, printed 7/16/20, identified the facility had submitted a report to the State agency (SA) on 11/14/19, involving R6. The report outlined an allegation of, "Emotional or Mental Abuse," and described an incident where it had been identified a nursing assistant (NA) was potentially transferring R6 inappropriately and not in accordance with her care plan. The NA was re-educated, however, it was alleged the NA went back into R6's room at a later date and voiced, "Thanks a lot. I might be losing my job because of you." This caused R6 to become upset and cry. A corresponding undated Verification of Investigation (VOI) form identified the 11/14/19 incident involving the NA and R6. The report identified R6 was interviewed and expressed concern for "possibly costing [the NA] her job because she had told the [night] supervisor that [the NA] always transferred her in the 2 pt [point] lift by herself." The report identified the administrator and SA were notified of the allegation. A section labeled, "Witnesses," was 		F 6	\$10	DEFICIENCY)

FORM APPROVED **CENTERS FOR MEDICARE & MEDICAID SERVICES** OMB NO. 0938-0391 STATEMENT OF DEFICIENCIES (X1) PROVIDER/SUPPLIER/CLIA (X2) MULTIPLE CONSTRUCTION (X3) DATE SURVEY AND PLAN OF CORRECTION **IDENTIFICATION NUMBER:** COMPLETED A. BUILDING С 245494 B. WING 07/20/2020 NAME OF PROVIDER OR SUPPLIER STREET ADDRESS, CITY, STATE, ZIP CODE 701 FIRST STREET ELIM HOME PRINCETON, MN 55371 SUMMARY STATEMENT OF DEFICIENCIES PROVIDER'S PLAN OF CORRECTION (X5) COMPLETION ID (X4) ID (EACH DEFICIENCY MUST BE PRECEDED BY FULL **PRÉFIX** PREFIX (EACH CORRECTIVE ACTION SHOULD BE DATE REGULATORY OR LSC IDENTIFYING INFORMATION) CROSS-REFERENCED TO THE APPROPRIATE TAG TAG DEFICIENCY) F 610 Continued From page 26 F 610 plans were being followed. The DON voiced she would speak to the unit manager and follow-up. A subsequent interview was held with the DON on 7/17/20, at 12:35 p.m. and she voiced investigation(s) typically included other resident interviews to help determine the scope of the allegation and see if additional allegations are identified. The DON expressed these interviews are done using an audit tool, and provided some completed "Customer Service Audits" for a total of three other residents which were used as part of their investigation in to R6's allegation. However, all of these provided audits were dated 11/22/19 (four days after the investigation was completed and submitted to the SA). The DON stated she was "not aware" why they were done after the investigation was completed and the NA identified had already returned to work. Further, the DON verified R6 was to have two people present for transfers per her care plan which was in-effect at the time of the incident on 11/14/19. The NA was re-educated: however, there was no documented evidence she could find demonstrating any subsequent monitoring or audits had been completed of the NA's care since to ensure care plans were being followed. The facility' Vulnerable Adult - MN policy, revised 10/31/19, identified all staff members must report suspected or alleged abuse immediately and added, "The administrator is responsible for the implementation of the policy." The policy directed all reports of suspected or alleged abuse would be " ... promptly and thoroughly investigated," which included collecting data around the incident, a physical examination of the resident(s) for signs of abuse and interviews with other residents and staff members. The policy directed, "Document the results of the investigation," and

LPN-A stated sometimes the family will take them, otherwise they go to off campus appointments using a "HandiVan" service which the HUC will arrange. LPN-A verified staff members do not routinely attend appointments with cognitively impaired residents and stated someone from the nursing home should be contacting family prior to the appointment to ensure someone is going to be there; however, LPN-A acknowledged she "[didn't] know if that actually happens." LPN-A voiced she could "vaguely remember" an episode in the past where a resident had been sent to an appointment and did not know why they were there when they arrived. LPN-A stated she could not recall any revisions or re-education being completed since that incident; however, expressed it was important to ensure someone was with residents at their appointments to advocate for them and ensure accurate reporting is provided to the physicians. On 7/16/20. at 11:45 a.m. HUC-A was interviewed and verified she made the appointments for the residents residing on the Rum River Unit. HUC-A explained "depending on [a resident's] cognitivity" they will call family and set-up appointments with them to ensure someone meets them at the site. HUC-A voiced she did not make the decision on who did or did not need to be accompanied to appointments, as that was the unit manager' responsibility. HUC-A stated she typically makes a note on the resident's appointment card regarding if family is meeting someone or not, however, these are not saved or placed in the medical record. Further,

FORM APPROVED **CENTERS FOR MEDICARE & MEDICAID SERVICES** OMB NO. 0938-0391 STATEMENT OF DEFICIENCIES (X1) PROVIDER/SUPPLIER/CLIA (X2) MULTIPLE CONSTRUCTION (X3) DATE SURVEY AND PLAN OF CORRECTION **IDENTIFICATION NUMBER:** COMPLETED A. BUILDING С 245494 B. WING 07/20/2020 NAME OF PROVIDER OR SUPPLIER STREET ADDRESS, CITY, STATE, ZIP CODE 701 FIRST STREET ELIM HOME PRINCETON, MN 55371 SUMMARY STATEMENT OF DEFICIENCIES PROVIDER'S PLAN OF CORRECTION (X5) COMPLETION ID (X4) ID (EACH DEFICIENCY MUST BE PRECEDED BY FULL **PRÉFIX** PREFIX (EACH CORRECTIVE ACTION SHOULD BE DATE REGULATORY OR LSC IDENTIFYING INFORMATION) CROSS-REFERENCED TO THE APPROPRIATE TAG TAG DEFICIENCY) F 684 Continued From page 36 F 684 planning becomes the clinic's responsibility and not the nursing homes. RN-B stated there were some residents on the locked memory care unit she "would hesitate" to send alone to appointments, and voiced while the HUC and her do speak about residents and appointments. there was no formal system to decide who needs supervision and who doesn't for appointments. RN-B added, "It's not our policy to make sure somebody's with them." RN-B then reviewed R5's incident from 11/8/19. RN-B explained R5 had dementia and could self-propel in his wheelchair. RN-B stated R5 was a resident who probably should have had family or a staff member present with him at off campus appointments as he would likely not give the physician accurate information on his condition(s), RN-B recalled R5's 11/8/19 appointment and stated the clinic had contacted her via telephone when he arrived and she remembered them "being upset" and questioning why R5 was at the clinic. RN-B stated clinic's calling and not having adequate information or having situations where the resident is unable to provide the necessary input for the physician had happened before; however, RN-B felt it was "very rarely." When guestioned on her follow-up actions to ensure a similar situation like R5's incident on 11/8/19 did not reoccur, RN-B stated she did "probably nothing;" however, in hindsight, should have brought the clinic' concerns to someone's attention so they could review their system for sending people to appointments. On 7/16/20, at 2:26 p.m. the director of nursing (DON) and RN-B were interviewed. The DON voiced the nursing home's responsibility was to setup the appointment and arrange transportation

Further, HVD stated since the incident with R5, he had never been contacted by the nursing home to discuss the situation or revise any procedures to ensure residents are met by family or kept safe when left unsupervised at the clinic. On 7/16/20, at 1:25 p.m. registered nurse unit manager (RN)-B was interviewed. RN-B explained family was always able to attend appointments with residents; however, added "a lot of the times they do go alone." RN-B voiced the HandiVan driver(s) typically waited for the residents at the clinic to her understanding, and added once they're checked in to the clinic appointments, the resident' safety and care planning becomes the clinic's responsibility and not the nursing homes. RN-B stated there were some residents on the locked memory care unit she "would hesitate" to send alone to appointments, and voiced while the HUC and her do speak about residents and appointments, there was no formal system to decide who needs supervision and who doesn't for appointments. RN-B added, "It's not our policy to make sure somebody's with them." RN-B then reviewed R5's incident from 11/8/19. RN-B explained R5 had dementia and could self-propel in his wheelchair. RN-B added, at times, she recalled R5 as someone who did become confused and search for people to take him to various places. RN-B stated R5 was a resident who probably should have had family or a staff member present with him at off campus appointments as he would likely not give the physician accurate information on his condition(s). RN-B stated she didn't think much, if any, information on activities of daily

On 7/16/20, at 2:01 p.m. RN-B was interviewed and verified she was R1's care manager during the last months of her life at the nursing home. RN-B explained when a resident displays behavior(s), the staff attempt to observe the behavior and try to intervene by coming up with "things they like." The unit used to have behavior meetings which helped in this process, however, they had not had a meeting for "a few months" as other things took priority. RN-B stated the facility typically accomplished the behavioral assessment by discussing them "informally." On 7/17/20, at 9:08 a.m. a subsequent interview was held with RN-B. The last time R1 had been reviewed at the behavior meetings, at least to which RN-B could find evidence supporting, was in July 2019. They decided at the meeting to implement a "calming activities" intervention, however, RN-B voiced it had never been added to the care plan and should have been. Further, RN-B reviewed the medical record and verified there was no comprehensive assessment completed regarding R1's behaviors, despite the implemented interventions being listed as not effective and R1 continuing to have the same behaviors, and reiterated the system in place for assessing behaviors was the monthly meetings which had "fallen by the wayside." A provided Behavioral Health Services policy, dated 5/31/19, identified behavioral health encompasses a resident's whole emotional and mental well-being. The facility was to use " ... a comprehensive assessment process for

Re: State Nursing Home Licensing Orders Event ID: 8VDD11

Dear Administrator:

The above facility was surveyed on July 16, 2020 through July 20, 2020 for the purpose of assessing compliance with Minnesota Department of Health Nursing Home Rules and Statutes. At the time of the survey, the survey team from the Minnesota Department of Health - Health Regulation Division noted one or more violations of these rules or statutes that are issued in accordance with Minn. Stat. § 144A.10. If, upon reinspection, it is found that the deficiency or deficiencies cited herein are not corrected, a civil fine for each deficiency not corrected shall be assessed in accordance with a schedule of fines promulgated by rule and/or statute of the Minnesota Department of Health.

To assist in complying with the correction order(s), a "suggested method of correction" has been added. This provision is being suggested as one method that you can follow to correct the cited deficiency. Please remember that this provision is <u>only a suggestion</u> and you are not required to follow it. Failure to follow the suggested method will not result in the issuance of a penalty assessment. You are reminded, however, that regardless of the method used, correction of the order within the established time frame is required. The "suggested method of correction" is for your information and assistance only.

You have agreed to participate in the electronic receipt of State licensure orders consistent with the Minnesota Department of Health Informational Bulletin 14-01, available at https://www.health.state.mn.us/facilities/regulation/infobulletins/ib04_8.html. The State licensing orders are delineated on the Minnesota Department of Health State Form and are being delivered to you electronically. The Minnesota Department of Health is documenting the State Licensing Correction Orders using federal software. Tag numbers have been assigned to Minnesota state statutes/rules for Nursing Homes.

The assigned tag number appears in the far left column entitled "ID Prefix Tag." The state statute/rule number and the corresponding text of the state statute/rule out of compliance is listed in the "Summary Statement of Deficiencies" column and replaces the "To Comply" portion of the correction order. This column also includes the findings that are in violation of the state statute or rule after the

Elim Home August 6, 2020 Page 2

statement, "This MN Requirement is not met as evidenced by." Following the surveyors findings are the Suggested Method of Correction and the Time Period For Correction.

PLEASE DISREGARD THE HEADING OF THE FOURTH COLUMN WHICH STATES, "PROVIDER'S PLAN OF CORRECTION." THIS APPLIES TO FEDERAL DEFICIENCIES ONLY. THIS WILL APPEAR ON EACH PAGE.

THERE IS NO REQUIREMENT TO SUBMIT A PLAN OF CORRECTION FOR VIOLATIONS OF MINNESOTA STATE STATUTES/RULES.

Although no plan of correction is necessary for State Statutes/Rules, please enter the word "corrected" in the box available for text. You must then indicate in the electronic State licensure process, under the heading completion date, the date your orders will be corrected prior to electronically submitting to the Minnesota Department of Health. We urge you to review these orders carefully, item by item, and if you find that any of the orders are not in accordance with your understanding at the time of the exit conference following the survey, you should immediately contact:

Susie Haben, Unit Supervisor St. Cloud A Survey Team Licensing and Certification Program Health Regulation Division Minnesota Department of Health 3333 West Division Street, Suite 212 St. Cloud, Minnesota 56301 Email: susie.haben@state.mn.us Phone: 320-223-7356

You may request a hearing on any assessments that may result from non-compliance with these orders provided that a written request is made to the Department within 15 days of receipt of a notice of assessment for non-compliance.

Please note it is your responsibility to share the information contained in this letter and the results of this visit with the President of your facility's Governing Body.

Please feel free to call me with any questions.

alison Helm

Alison Helm, Enforcement Specialist Licensing and Certification Minnesota Department of Health P.O. Box 64970 Saint Paul, Minnesota 55164-0970 Phone: 651-201-4206 Email: alison.helm@state.mn.us

	When interviewed on 7/16/20, at 12:09 p.m. the HandiVan driver (HVD) stated he picks residents up from the nursing home and typically is given an envelope which he provides to the reception desk at the clinic or hospital. He expressed his service was basically a "desk to desk" service, and someone from the clinic takes over after he checks them in. HVD voiced family, at times, will meet residents from the nursing home at the clinic; however, it was only "maybe 60/40 [percent]" of the time. HVD stated he recalled "a hair memory" of the incident with R5 and, from what he could recall, thought he dropped him off at the clinic on 11/8/19, and R5's son or responsible party was not there so he brought him inside, but did not remain with him. Further, HVD stated since the incident with R5, he had never been contacted by the nursing home to discuss the situation or revise any procedures to ensure residents are met by family or kept safe when left unsupervised at the clinic.					
	manager (RN)-B we explained family we appointments with lot of the times they the HandiVan drive residents at the clin	5 p.m. registered nurse unit as interviewed. 	there was no formal system to decide who needs supervision and who doesn't for appointments. RN-B added, "It's not our policy to make sure somebody's with them." RN-B then reviewed R5's incident from 11/8/19. RN-B explained R5 had dementia and could self-propel in his wheelchair. RN-B stated R5 was a resident who probably should have had family or a staff member present with him at off campus appointments as he would likely not give the physician accurate information on his condition(s). RN-B recalled R5's 11/8/19 appointment and stated the clinic had contacted her via telephone when he arrived and she remembered "being upset" and questioning why R5 was at the clinic. RN-B stated clinic's calling and not having adequate information or having situations where the resident is unable to provide the necessary input for the physician had happened before; however, RN-B felt it was "very rarely." When questioned on her follow-up actions to ensure a similar situation like R5's incident on 11/8/19 did not reoccur, RN-B stated she did "probably nothing;" however, in hindsight, should have brought the clinic' concerns to someone's attention so they could review their system for sending people to appointments.					
	(DON) and RN-B w voiced the nursing setup the appointm and she "cannot ve home contacts fam attending with the r assume they would	p.m. the director of nursing ere interviewed.
