

ACO Qualifications

<u>Areas of consensus</u>	<u>Issues requiring more discussion</u>	<u>Next steps</u>
<p>There is a continuum; a need for different levels, types. Flexibility is most important.</p> <p>Focused on outcomes.</p> <p>Timely clinical and administrative data readily available.</p> <p>This is a major cultural shift for both consumers and providers.</p>	<p>How to avoid gatekeeping reputation. How to demonstrate value.</p> <p>How do we define continuum.</p> <p>How to define risk adjustment (both social determinants as well as co-morbidities).</p>	<p>Be proactive about how to describe what ACOs are for both providers and consumers.</p> <p>Hear from the state how data can be more readily exchanged.</p> <p>Let Provider Peer Grouping roll out.</p>
