

Baskets of Care Update Webinar

Tuesday, Oct. 27, 2009 * Noon – 1:00 p.m.

The concept of Baskets of Care that was included in the 2008 health reform law (MN Statutes 2008 62U.05) seeks to bundle payments for a set of health care services together in ways that will create incentives for health care providers to cooperate and develop innovative ways to deliver effective, high-quality and lower cost health care services. The Minnesota Department of Health (MDH) and its contractor for the baskets of care project, the Institute for Clinical Systems Improvement (ICSI), have facilitated a community-driven development process for the baskets of care. Since January 2009, much work has been done to define the baskets of care, determine how to measure their outcomes, and identify and propose solutions to operational and administrative challenges to implementing the baskets of care.

ICSI is holding this Webinar to bring medical groups, hospitals, health plans and employers up to date on the current status of the initiative.

The Webinar will address such topics as:

- Basket of Care Concept
- Criteria for Defined Baskets
- Operational and Administrative Issues
- Measurement
- Next Steps

Register:

To sign up for this free Webinar, contact georgette.susla@icsi.org, or call Georgette at 952-814-7064.

Background for Summit

Anyone interested in learning about the Baskets of Care concept and the activities to date of the MDH initiative are encouraged to participate in this Webinar. In addition, for those actively pursuing development and implementation of a basket, it is an excellent precursor for attending the MDH Baskets of Care Summit November 9. To learn more about the Summit, go to
