5. Women's Human Rights Film Series: Not For Sale and So Deep a Violence, February 13, 2008

The Minnesota Advocates for Human Rights and The Friends of the Saint Paul Public Library present: Women's Human Rights Film Series: Not For Sale and So Deep a Violence

Angela Bortel, Staff Attorney in the Women's Program working on our trafficking needs assessment for the State of Minnesota, will host the discussion afterwards.

12. New guide: Violence Against Women and HIV and AIDS

Violence against women plays a crucial and devastating role in increasing the risk to women of HIV infection. It is a key reason why women are more vulnerable to HIV infection than men. It is both a cause and a consequence of infection, and as such is a driving force behind the epidemic. The circumstances underlying the correlation between violence against women and HIV and AIDS are a complex weave of social, cultural, and biological conditions. This guide examines the links between violence against women (VAW) and HIV and AIDS, highlighting key issues, research and resources.
