Cunugaaga Ma Maqlaaya waxaad odhanays id *“anigu waan ku jeclahay?”*

**Aslan!** Anagu cunugaaga waxaan siinay wax aad u fudud, weliba aad loo hubiyey tijaabada maqalka iyo cunugaaga sii qurux badan ayuu ugu guulaystay. Ma ogtahay – in cunugaaga uu maqli karo waxaad ku odhanaysid *“anigu waan ku jeclahay.”*

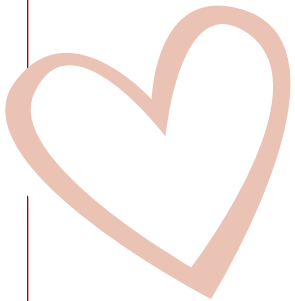

**Baaritaanka maqalka ilmahaaga waxay ku siineysaa bilaaw aad u anaagsan oo macquul ah.**

Laga soo bilaabo waqtiga cunugaaga uu dhasho, asaga ama ayada waxay dhageysaneysaa codkaaga iyo waxay baraneysaa habka aad adigu u hadleyso. Kalmadahaaga waxay ka caawineysaa cunugaaga fahamka sida aad u hadleysid iyo sidii u noqon lahaa qeyb ka tirsan nololshaada.

**Waa wax fudud iyo hab ama hanaan deggan.**

Inta cunugaaga uu ku nasanaayo qolka xanaanada oo aad u degan, shay aad u yar oo dhego-maqal ah (earplugs) ama mid looga talagalay in wax lagu maqlo (earphones) ayaa loo isticmaalaya tijaabinta maqalka cunugaaga. Dhawaaq ama codad isku-xiriira ayaa lagu cayaarsiinaya iyo cunugaaga warcelintiisa ama jawaabtiisa waa la diiwaangelinaaya. Natiijaduna waa mid aad u hubanti ah.

**Mustaqbalka cunugaaga waa mid baxsan ama dhalaalaya.**

Waxaad ilmahaaga hadiyad ahaan u siisaa caafimaad wanaagsan. Sii fudud waxaad u isticmaasha shaxda hogaaminta hoose ku qoran sidii aad u heli lahayd horumarka maqalka ilmahaaga. Wac dhakhtarkaaga ama kalkaaliye su'aal kasta oo qabtid ama khusayso arimahaaga.

Da'da	Tallaabooyinka Maqalka
0 ilaa 3 bilood	Balaw ama sas ku yimaada guux dheer. Dabacsanaan marka maqalka uu yahay cod la yaqaano.
3 ilaa 6 bilood	Madaxa oo leexisid ama indhaha oo dhaqaajisid sii loo helo codkaaga. Cayaaro laga sameeyo codad iyo dhawaqyo. Ku raaxaysfaan qalablaka marka la rux-ruxo dhawaaga lagu cayaaro.
6 ilaa 12 bilood	Madaxa u leexi codadka dabacsan. Maqalka magaca oo dib loogu celiyo. Fahamsiin sii fudud kalmadaha sida "maya" iyo nabad-geliyo "bye-bye." Bulaan ama Yabqid. Dhabaq jacayl.
12 bilood+	Kalmada ugu horeyso oo ay dhahaan sida "da da" ama "mama." Way famayaan kalmado badan. Waxay raacayaan tilmaanta hadalada fudud.
