# pH Testing Log

The designated employee must calibrate pH meter according to manufacturer’s instructions to ensure accurate results. Test each batch of finished product to ensure product pH meets your HACCP plan critical limit. Record observations and any corrective actions on this log. PIC or manager on duty must verify this log weekly.

**Corrective action:**

Verified by (PIC or manager on duty initials): ____________________
When to use this pH testing log

If you are following an approved HACCP plan for specialized processing for TCS food, you may use this log for record-keeping. Make records available to the regulatory authority upon request. Keep records for at least six months.

Always follow manufacturer’s instructions for pH meter calibration and use.

Contact your inspector for help developing procedures that comply with HACCP requirements.
