

Environmental Exposure Grand Rounds

Wednesday, November 1, 2017

7:00am to 8:00am in the Freeman Building, Room B144

Pesticide Drift

Information for medical providers and patients

Amelia Burgess, MD and Ben Willenbring, MD

Medical Toxicology Fellows, Regions Hospital and Hennepin Regional Poison Center

Information from the Minnesota Department of Agriculture (MDA) about the human endangerment complaint process

Paul Haiker

Agricultural Advisor

Minnesota Department of Agriculture - Pesticide & Fertilizer Management Division

The MDA receives 5-10 human endangerment complaints in a typical year. This presentation will cover who does this work, the complaint intake process and a description of a typical human endangerment case.

Join us at the Minnesota Department of Health:

Freeman Building/Room B-144, 625 Robert St. N., St. Paul, 55155

- Street parking is free before 8am
- Metered parking is available at Lot U located at N. Robert St. & 14th St. across from the entrance to the Freeman Bldg or on the Orange Level of Centennial Parking Ramp on Rev. Dr. MLK. Jr. Blvd
