

Service Provider Fee and Credentialing August Update

X-RAY UNIT INFORMATION NOTICE

Date: August 5, 2025
To: X-ray Service Providers
From: Environmental Health Division | X-ray Unit
Subject: UPDATE: MDH Service Provider fee and credentialing

As previously shared, during the 2025 special session, the Minnesota Legislature increased fees for ionizing radiation-producing equipment, including the base facility fee. Statutory changes for **service providers** were also made during the special session. These changes include new credentialing categories and a registration fee of \$115.

We are sending this update to thank you for your patience as MDH implemented the service provider changes. MDH has made the necessary system changes and, as of August 1, 2025, will be ready for (or accepting) service provider registration fee payments.

The process for service provider registration is on the [service provider webpage](#) for review.

If you have questions, please reach out to the X-ray Unit by email or phone.
