 = Unintentional

 = Assaultive

Includes nonfatal, unduplicated Minnesota resident injury events treated in emergency departments of acute care Minnesota hospitals.

Includes any listed injury meeting the Safe States consensus definition for hospital discharge data injury surveillance.

Cases with adverse effect or late effect E-codes are excluded. Injuries missing E-codes are included in total counts and rates only.

Rates per 100,000 population are annualized and age-adjusted to the U.S. 2000 standard population.

Ties extending more than one row beyond the eleventh rank are not displayed individually.
