

Essentia Health

Patient and Provider Education

Stephanie Nixon, PharmD
Antimicrobial Stewardship (AMS) Program Manager
Monday, May 13, 2019

Objectives

- Introduction
- Overview – What is the problem?
- Essentia Health site and structure
- Identify and acknowledge obstacles
- Opportunities and Mechanisms for information sharing
- Identify champions
- Who is the audience?
- Documentation and Tracking
- Resources

Take-Home Message

Understand the Big Picture

Narrow Focus

Know your audience(s)

Tools

Overview – What is the Problem?

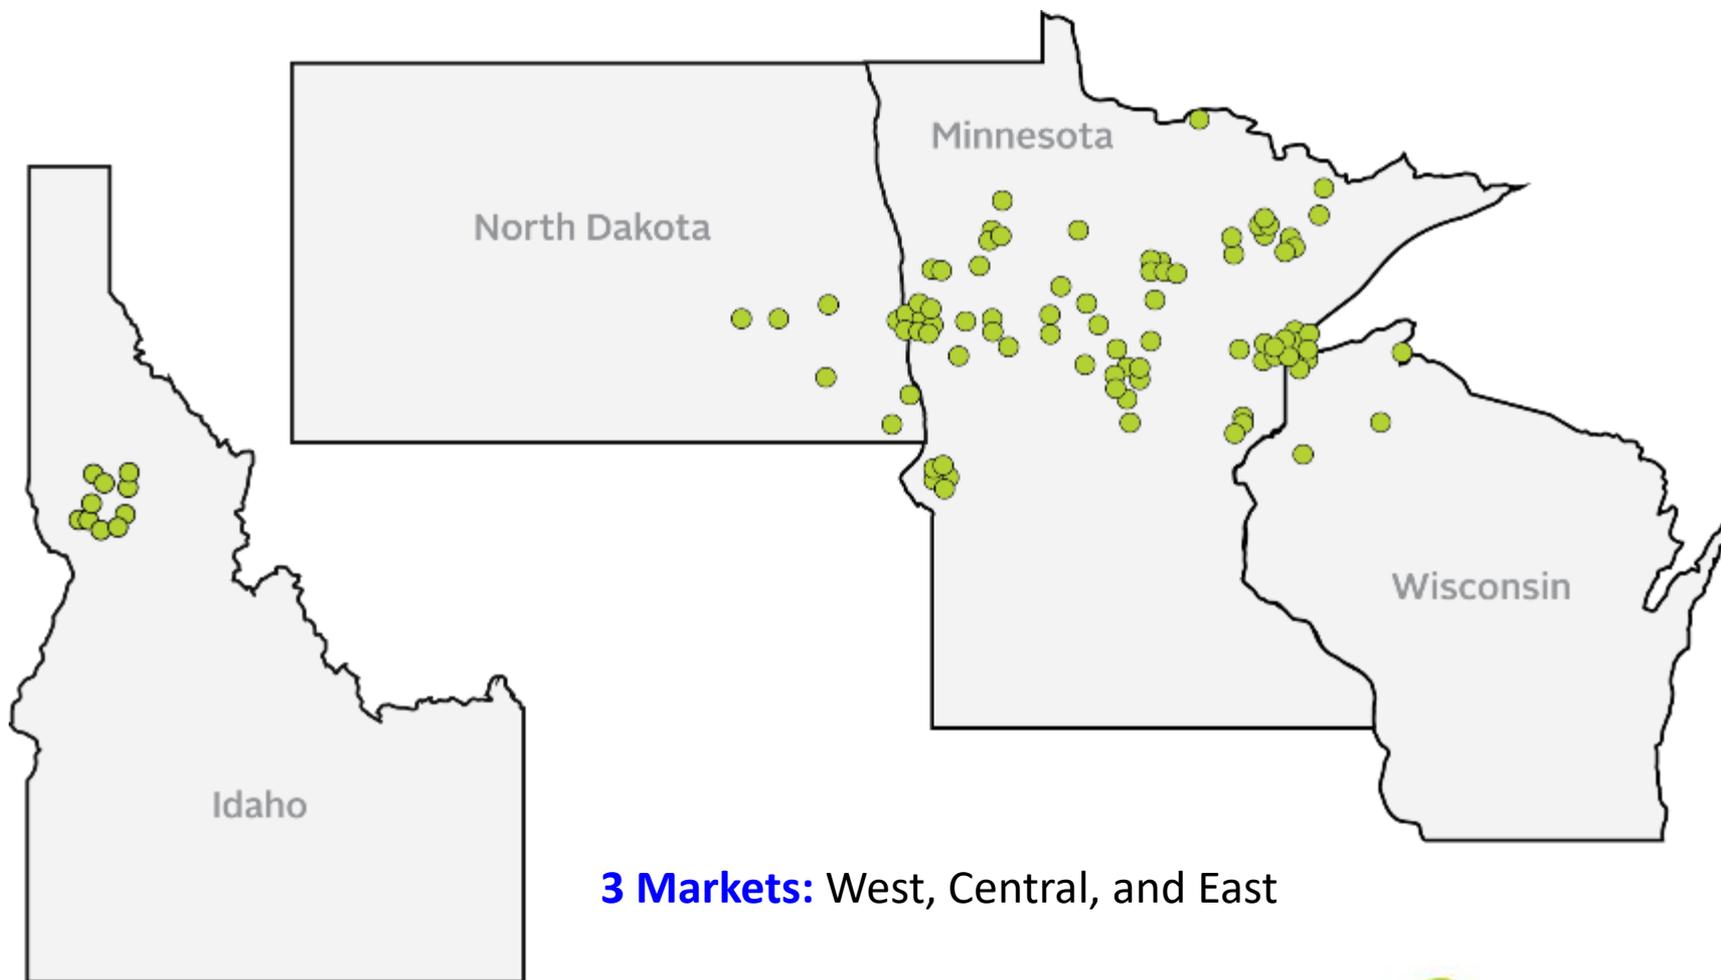

Antimicrobial **overuse** and **misuse** has led to:

- Increased **RESISTANCE** and “super bugs”^{1,2}
- *Clostridium difficile* (C. diff) infections, or CDI are on the rise and affecting young, healthy patients³
- Adverse drug reactions⁴

There are a limited number of antimicrobial drugs available and few new treatments in development that can keep up with the increased resistance of microorganisms.⁵

Define the Site, Understand the Structure (cont)

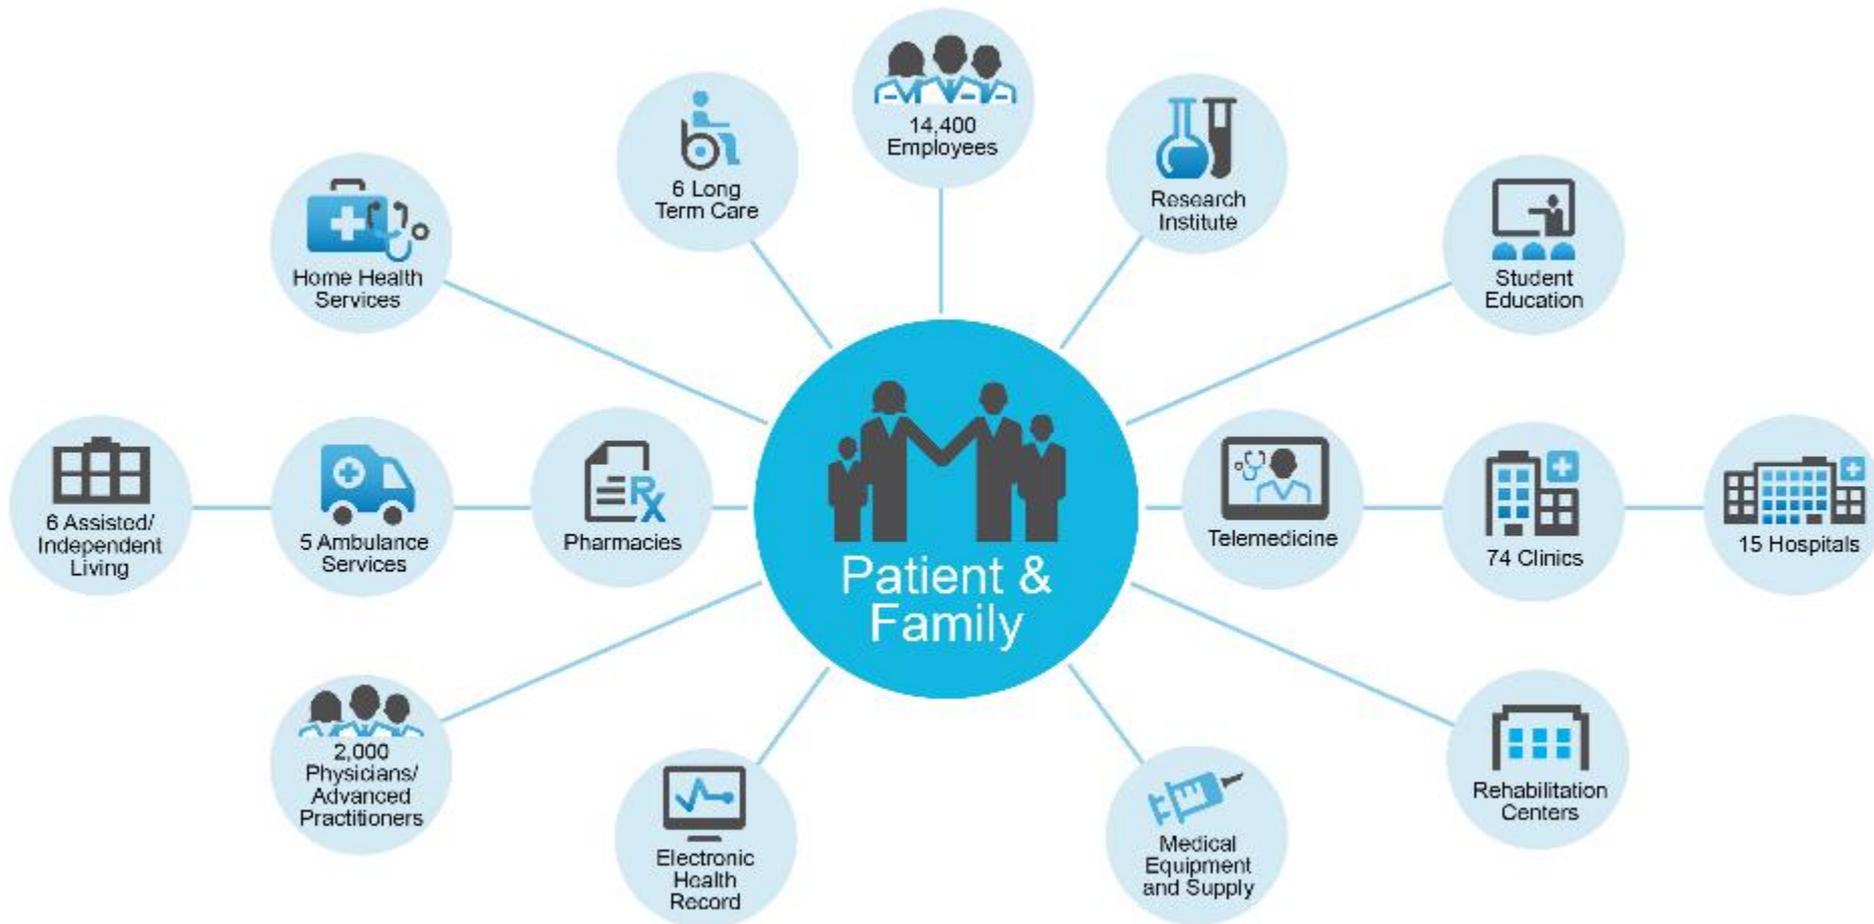

At a Glance: Essentia Health Service Area

3 Markets: West, Central, and East

Define the Site, Understand the Structure (cont)

At a Glance: Essentia Health

Identify and Acknowledge Obstacles

- Broad audience
- Different roles
- Obstacles vary by site
- Tailor the message

Opportunities and Mechanisms

THE MESSAGE:

1. WHAT?
2. WHO?
3. HOW?

Opportunities and Mechanisms (cont)

- Visual/Media
- Written
- Virtual
- **In-Person**

Identify and Reward your Champions

- Leadership/ Sponsor Support
- TEAM effort
- Multi-disciplinary approach
- Antimicrobial Review Committee
- Site Champions

Essentia Health: Antimicrobial Review Committee

- Physician Dyad Partner, Quality
- Physician Dyad Partner, Pharmacy
- Infectious Disease Chair
- Intensivist Chair
- Hospitalist Chair
- Trauma/Surgery Chair
- Emergency Services Chair
- Pediatric Chair
- Pharmacy Chair
- Infection Prevention Chair
- Microbiology/Pathology/Lab Chair
- Nursing Chair
- APC Lead/Urgent Care Chair
- Acute Care Quality Chair
- Ambulatory Quality/Safety Chair
- Primary Care Chair
- Long-Term Care Chair
- Elder Care Chair
- Idaho Physician Chair
- Information Technologist Chair

Who is the audience?

- Community Education
- Patients and Families
- Students
- Healthcare Team

Essentia Health Commitment Poster

Our promise to you about

ANTIBIOTICS

Antibiotics can be helpful,
but can also be harmful.

We are committed to prescribing
antibiotics **ONLY** when needed.

Antibiotics treat infections caused by bacteria like strep throat and pneumonia. Antibiotics don't treat infections caused by viruses like colds that commonly cause cough, runny nose, and sore throat.

Ask your doctor if you have a bacterial infection.

Your doctor may suggest over-the-counter
options for symptom relief.

Essentia Health

We are called to make a healthy difference in people's lives.

Cobranded Commitment Poster – MDH Collaborative

OUR PROMISE TO YOU ABOUT ANTIBIOTICS

*We are committed to prescribing antibiotics
only when necessary*

Antibiotics can be both helpful and harmful

Three Questions to Ask Before You Take Antibiotics

1

Do I really need antibiotics?

Antibiotics treat **bacterial infections**, like strep throat, whooping cough, and bladder infections with symptoms. They don't work against viruses, like colds, coughs, and most sinus infections. Ask your doctor whether you have a bacterial infection.

2

What are the risks?

Antibiotics can cause **side effects** like diarrhea, vomiting, rash, and more. They can also lead to **antibiotic resistance**. If you use antibiotics when you don't need them, they might not work when they are needed.

3

Are there other options to help me feel better?

Rest and plenty of fluids are important. You can also ask your doctor about over-the-counter medicines that might help relieve your symptoms.

The DOSE – Essentia All-Staff Newsletter

The screenshot shows the top portion of a newsletter. The header features the 'TheDose' logo on the left, a search bar with the text 'antimicrobial stewardship' on the right, and the tagline 'Here, we share our lives, our work, our stories.' Below the header is a grey bar with the date 'May 10, 2019' on the left and 'Print' and 'Printing issues?' links on the right. The main content area is titled 'In This Issue' and lists several articles: 'Integrative Medicine transforms patient's life', 'Essentia in the news', 'Staff News', 'Upcoming Events', and 'Enjoy today's prayer'.

 **TheDose**

Here, we share our lives,
our work, our stories.

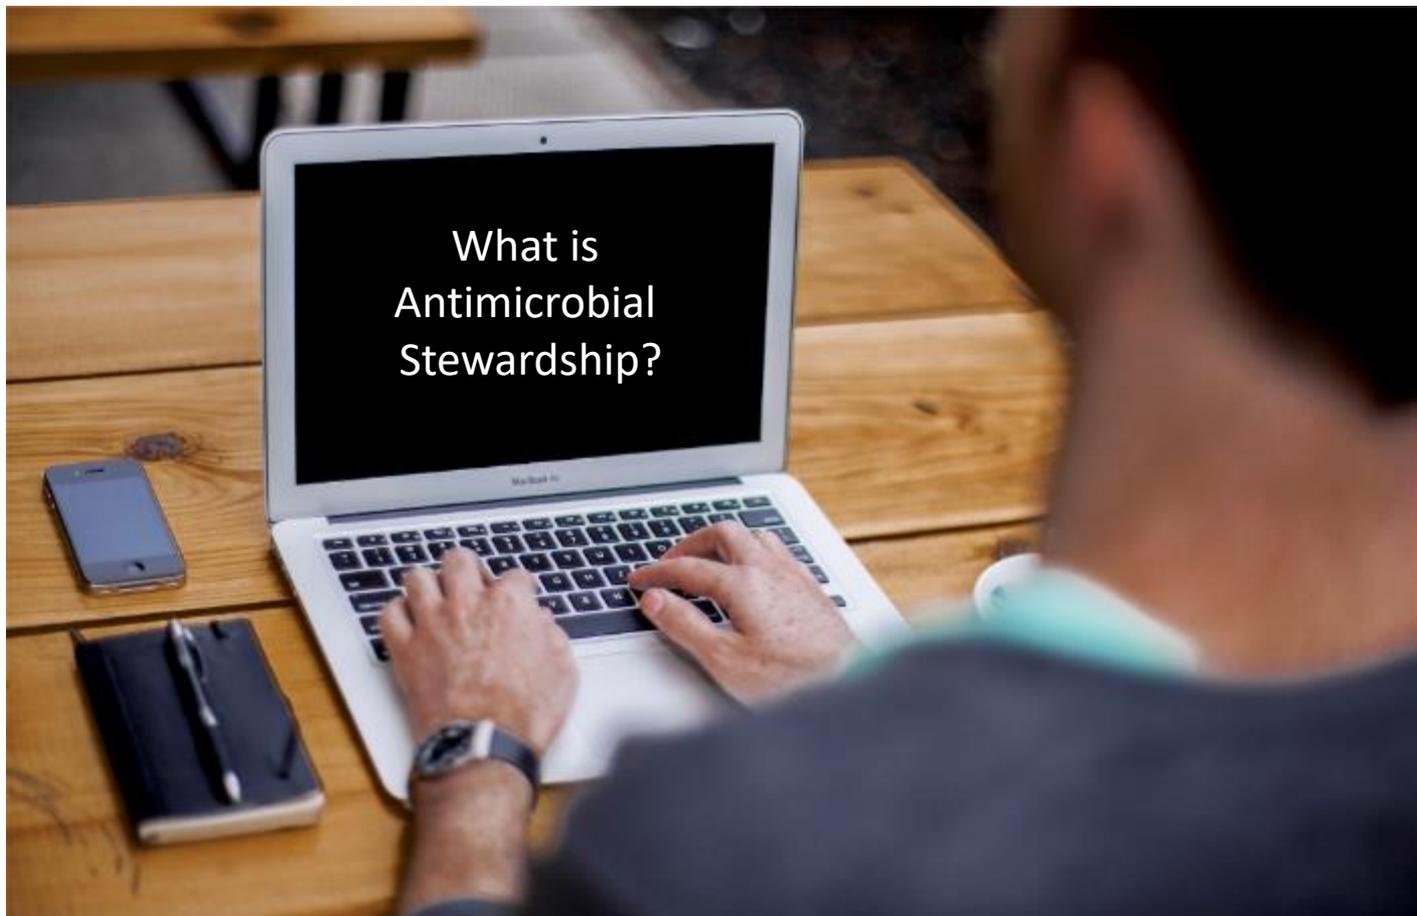

antimicrobial stewardship

In This Issue

- [Integrative Medicine transforms patient's life](#)
- [Essentia in the news](#)
- [Staff News](#)
- [Upcoming Events](#)
- [Enjoy today's prayer](#)

SABA All-Staff Education Module

Patient and Family Education

- Empower patients by informing them of the risks and benefits
- Educate families and encourage appropriate expectations

Patient and Family Letter

After Visit Summary (AVS) Statement

Adapted from Get Smart Campaign patient education:

Essentia Health AVS, Patient Education:

Your antimicrobial medicine

You have been prescribed an antimicrobial. Antimicrobials include antibiotics, antifungals, antivirals and antiparasitics.

Please read this important information.

- Take it exactly as your health care provider tells you.
- Do not skip doses.
- Do not share it with others.
- Do not save it for later.
- Talk to your pharmacist about safe disposal of leftover medicines.

Why is this so important?

All medicines have good and bad side effects. Antimicrobial medicines can make future infections stronger and harder to treat if not taken as directed. You can protect yourself and others when you learn the correct use of your medicine.

Take your medicine the right way!

Viral Illness/Symptom Relief Handout

- AVS at discharge
- Print through the Print Shop
- Room card

Adapted from MDH/CDC resources:

Symptom Relief

Viral Illness

You have an illness that is from a virus. Antibiotics do not work on viruses. Antibiotics won't help you and could harm you.

We are committed to prescribing antibiotics only when needed. The treatments below will help you feel better while your body fights the virus.

You have:

- A cold or cough
- Bronchitis
- The flu
- Sinusitis
- Fluid in your ear
- Other: _____

Shopping List

Sore throat

- Lozenges

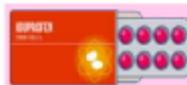

- Honey

Do not give honey to children under 1 year old.

- Acetaminophen, ibuprofen, or naproxen

- Warm beverages such as tea

Sinus pain or pressure (This includes sinusitis)

- Decongestant or saline nasal spray

- Acetaminophen, ibuprofen, or naproxen

Healthcare Team Education

- Provider Considerations
- In-Person Opportunities
- Alternative Communication

Orientation Education

- New hire Physicians and APCs
- Locum providers

Essentia Health

Here with you

Antimicrobial Stewardship at Essentia Health

A robust system-wide Antimicrobial Stewardship Program is established at Essentia Health. This Program aligns with Essentia's Aspirational Aim and Strategic Goal of Zero Preventable Harm. Nationwide, 20-

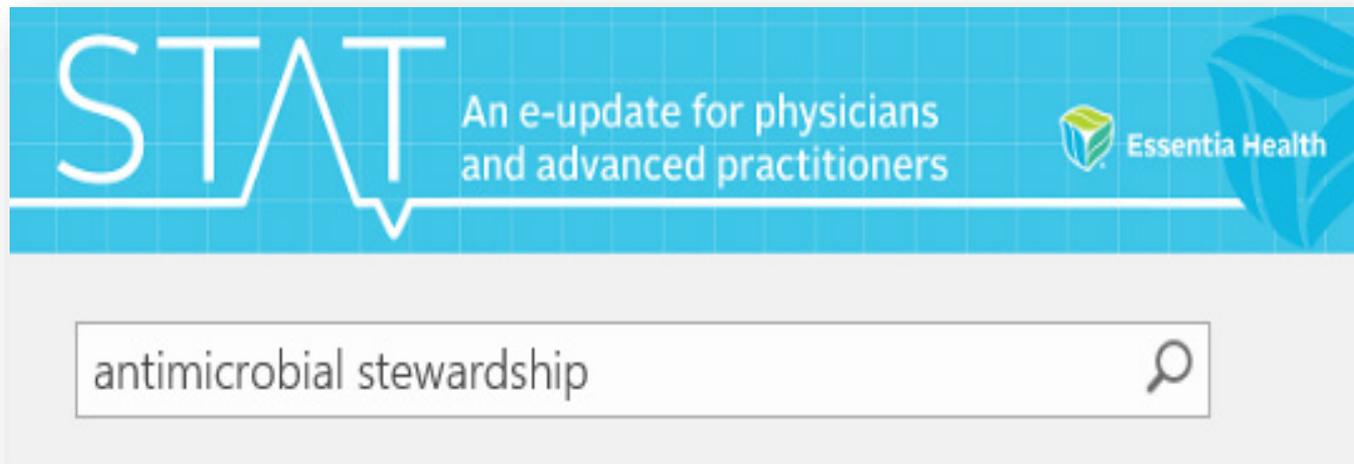

Pharmacist Continuing Education (CE) Modules

- All Essentia Pharmacists
- 3 clinical modules reviewing:
 - Patient Assessment
 - Bugs and Drugs
 - Clinical Application
- 80% passing exam score
- CE credit

Future plan: adapt education to also be offered to Providers

STAT – Essentia Healthcare Provider Newsletter

Formal Presentations and Staff Engagement:

- Essentia Health Roundtable
- Essentia Friday Morning Grand Rounds
- Essentia Elder Care Rounds
- Essentia Pharmacy Leadership Quarterly Meeting
- Essentia Clinical Practice Committee
- Rural Health Videoconference
- Long-Term Care Annual Conference
- Mock Surveys

Provider Resources and Projects

Provider Resources:

- Antibigram
- Policies
- Order Set Updates
- Treatment Algorithms
- Duration of Therapy Guide

Projects:

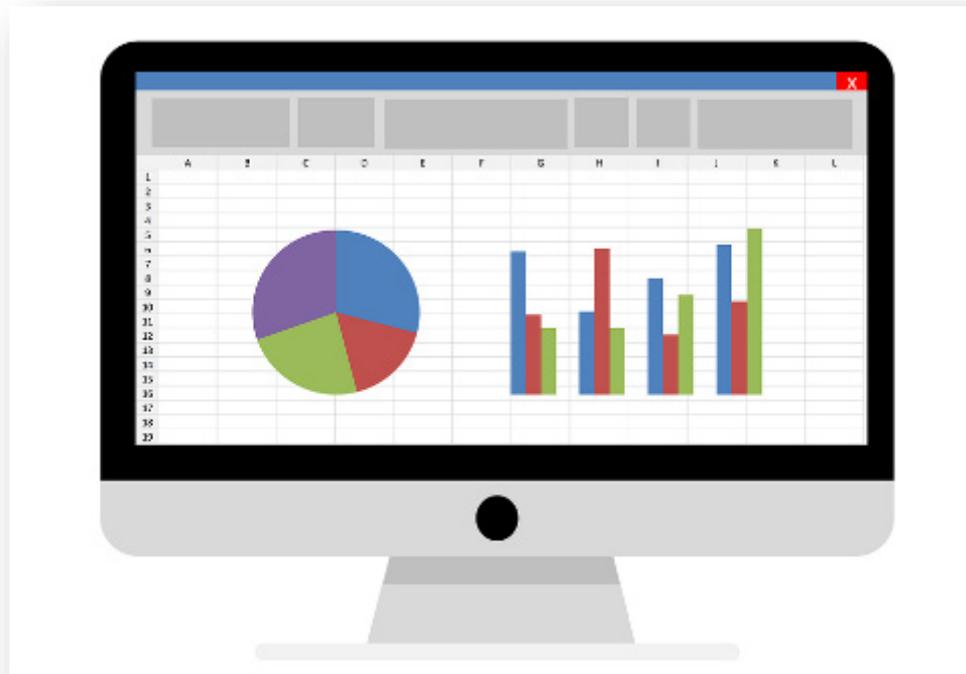

- Ambulatory Indications
- Allergy Context and Management
- HIV Post-exposure Prophylaxis

Antibiogram

1. What is it?
2. Where is it?

Public Reporting and Provider/Staff Feedback

- NHSN reporting
- AUR Module
- National benchmarking
- Clinical and Patient Safety Dashboards
- EPIC and Slicer Dicer

Documentation and Tracking

- Maintain documentation regarding learning tools developed
- Record how information was communicated
- Centralized location
- “Preparedness Guide”

Condense pertinent information into a pocket card.
