

A HEALTHIER STATE OF MINNESOTA

BETTER HEALTH TOGETHER.

SHIP IS CREATING HEALTH IN YOUR COMMUNITIES

Statewide Health Improvement Partnership (SHIP) investments support community-driven solutions to expand opportunities for active living, healthy eating and commercial tobacco-free living, helping all people in Minnesota prevent chronic diseases including cancer, heart disease, stroke and type 2 diabetes. Ninety percent of the nation's health care costs are for people with chronic conditions, and the majority of those costs are preventable.

SHIP supports health across the lifespan

With a solid infrastructure and strong relationships in place, SHIP communities are well positioned to address emerging public health issues and continue creating better health across a lifespan.

Avivo takes action to create a culture of wellness

Avivo, an organization that helps people achieve recovery from addiction and mental illness, serves more than 18,000 adults each year. Avivo, with 360 employees, focuses on health, social and economic wellness - the foundation for making lasting change in the lives of people they serve.

To create a culture of wellness, Avivo, which has locations across the Twin Cities, assessed how their practices currently support wellness, gathering input from clients and staff. To identify steps needed, they asked: How can we support wellness for clients? How can we support wellness for staff? With technical support, resources and training from Hennepin County Statewide Health Improvement Partnership (SHIP) staff, Avivo now has a sustainable infrastructure to address wellness. Members from nearly all its 28 locations serve on Wellness Committee teams.

Through these teams, Avivo has:

- established a tobacco-free policy that supports cessation
- adopted a healthy eating policy by providing residential meals, meeting and event foods, and vending choices that meet Avivo's nutrition standards
- planted an urban garden that provides fresh produce, fresh air, and social opportunities
- committed to a physical activity policy, including:
 - purchasing new equipment to increase options for activity such as hoops for regular three-on-three basketball games
 - establishing walking routes at four locations to encourage employees to take regular walking breaks during their work day to reduce stress
 - encouraging staff to add activity into normally sedentary client interactions, like incorporating a walk to a coffee shop into a counseling session

"We are committed to wellness for staff and our clients at Avivo," said David Peebles, Program Director & Manager of Avivo wellness initiatives. "In a very measured method, wellness is becoming a part of our culture."

SHIP: LOCAL LEADERSHIP, LOCAL PARTNERS, LOCAL EXPERTISE
