

Technical Assistance and Training at a Glance

About this skill building support

SHIP technical assistance (TA) and training providers grow state and local capacity to be successful in implementing SHIP strategies. They support all aspects of SHIP work from strategy development and implementation to evaluation and determining best ways to deliver that work.

TA and training providers

SHIP draws upon the knowledge and experience of all for technical assistance, from MDH staff, to SHIP grantees, external TA providers and local partners.

TA and training delivery

- Individualized consultation by MDH staff and contracted TA providers
- Group training through in person gatherings, webinars and calls
- Peer-to-peer learning using Basecamp, in person gatherings and mentorships
- Resources and tools, such as the Implementation Guides, shared presentations, toolkits and templates

Requirements

Grantees are responsible for knowing the content in the Making it Better (MiB) log. Grantees must budget for at least one staff to attend three regional in-person trainings and one two-day statewide meeting per year.

Resources

The [SHIP website \(https://www.health.state.mn.us/communities/ship/\)](https://www.health.state.mn.us/communities/ship/) is a valuable resource for learning more about SHIP strategies, successes and support available to grantees.
