Among retailers assessed in Minnesota

2 in 3 sold flavored tobacco

Over 2 in 3 sold menthol tobacco

1 in 5 sold tobacco at discounted prices

Half offered little cigars for less than $1.00

Local action for effective tobacco prevention

The Minnesota Department of Health supports community driven solutions to create tobacco-free environments and promote quitting.

Communities are working to:
- Reduce tobacco industry influence in retail stores.
- Increase the price of tobacco.
- Provide support and resources to Minnesota smokers who want to quit.
- Raise the minimum tobacco sales age to 21.
- Promote smokefree environments.
- Engage diverse populations throughout Minnesota.

The Tobacco Industry spends $110.5 million each year promoting tobacco products in Minnesota. That’s about $12,614 every hour.
Youth tobacco use in Lincoln County

Tobacco use among Lincoln County’s 9th and 11th grade students, 2016

</tbody>
</table>

Statewide, over 17% of 11th graders use e-cigarettes, while only 8.4% use cigarettes and 5.1% use smokeless tobacco.

Statewide disparities in youth tobacco use

Despite declines in tobacco use overall, significant disparities remain among populations historically targeted by the Tobacco Industry. Statewide, 21.8% of 11th graders use tobacco.

Cigarette smoking during pregnancy

Fetal exposure to nicotine can have long-term health consequences, including sudden infant death syndrome (SIDS), impaired fetal brain and lung development, hearing problems, effects on behaviors and obesity, and deficits in attention and cognition.
