

NOTICE OF CHANGE: State Dental CBCT Utilization Reporting Requirement Repealed

NOVEMBER 2022

[Minnesota Statutes, section 144.565](#) requires the reporting of advanced diagnostic imaging utilization by Minnesota health care providers. In 2022, the Minnesota Legislature amended the statute to specifically **exclude** dental providers using Cone Beam Computed Tomography (CBCT) utilization scanners from the utilization reporting requirement.

This change does not affect registration requirements with the Minnesota Department of Health, X-ray Unit. X-ray registration is still required per [Minnesota Statute 144.121](#). More information regarding that requirement can be found at <https://www.health.state.mn.us/communities/environment/radiation/xray/forms.html>.

Advanced diagnostic imaging utilization data, with the exception of dental CBCT data, are published in an [annual data chartbook](#).

If you have further questions, please email health.hccis@state.mn.us.
